

Early Learning

What matters to you,
matters to us.

Unique little people

As one of the largest Western Australian not-for-profit providers of early learning services, at MercyCare we believe every child is a unique little person.

We know one size certainly does not fit all, that child care is about bringing out the special qualities and strengths that makes a child individual.

Staff are family

What truly makes the difference at a child care centre? For us, it's our educators.

Experienced, compassionate and fun, it's our people that make our centres what they are.

Our educators care deeply; listen to what truly matters to our families and their community; and are passionate about providing opportunities for each child to learn, discover, develop and belong.

Life doesn't
always fit in a box

MercyCare offers flexible care, from public holiday replacement days, penalty-free casual days to money-saving 10-hour sessions.

Community is important

A MercyCare Early Learning Centre is part of its community. It's a reflection of what makes your community special – through the lessons taught, through connections and excursions and through embracing and celebrating diversity.

Stay connected
all day long

Our Xplor app keeps
you connected to your
child and their day.

Living our values

Each of us are driven by the MercyCare values of respect, integrity, compassion, justice, excellence and courage.

As part of the not-for-profit MercyCare family, our Early Learning Centres are part of something much bigger. We support individuals and communities throughout Western Australia to thrive, whether that be supporting young people and families experiencing homelessness; assisting our foster parents to provide the best care; or enabling beautiful bonds to form between young and old with our leading intergenerational program. Compassion in all we do at the heart of the WA community is a valuable life lesson our educators can pass to our early learning children.

The magic of learning

Our belief that every child is unique; truly listening to what matters to each child and their families and the importance of community influences our care and education programs.

- We believe when your child feels safe, secure and nurtured, only then can the magic of learning happen.
- Overwhelming research shows the best way to learn is through play. Our play-based approach, coupled with child-led learning encourages a child's individual interests and natural curiosity where learning thrives.
- The health of our planet is our children's future – that's why we respect our environment and encourage the next generation as future Eco Warriors.
- We believe in the beauty of diversity and inclusion. That's why we respect and celebrate multicultural Australia and the role and culture of Australia's First People.

Don't miss a moment

Our Xplor app on your mobile and online keeps you connected in real time with your child and their day.

Through-out the day receive photos, videos and updates on your child discovering, learning and playing.

Updates on nappy changes, nap times and medication means you'll know exactly where your child is up to at pick-up time.

Make life easier with mobile bookings and digital sign-in.
