

# ARE YOU STRUGGLING WITH YOUR PLANTS?

ONE DROP OF HB-101 IS ALL YOU'LL NEED TO MAKE YOUR PLANTS HAPPY AND STRONG

## WHAT DOES HB-101 DO?

- IMPROVES THE EFFICIENCY OF THE PLANT'S METABOLISM TO INDUCE INCREASED YIELD AND HIGHER CROP QUALITY.
- FACILITATES NUTRIENT UPTAKE.
- ENHANCES CROP QUALITY ATTRIBUTES INCLUDING BRIX VALUE, COLOR, SIZE, AND SHELF LIFE.
- ENHANCES SOIL FERTILITY BY FOSTERING THE DEVELOPMENT OF SOIL MICRO-ORGANISMS.
- ENHANCES PLANT'S VIGOR AND INCREASES PLANT'S TOLERANCE TO AND RECOVERY FROM ABIOTIC STRESSES.
- DECREASES TRANSPLANT SHOCK.

## APPLICATION

MIX 1 PART OF HB-101 WITH 1000 PART OF WATER. EXAMPLE: 1ML OF HB-101 WITH 1 LITRE OF WATER

1. FOLIAGE FEEDING: HB-101 BEST ABSORB WHEN IT IS BEING SPRAYED UNDERNEATH THE LEAVES.
2. WATERING ROUTINE: WATERED DOWN TO YOUR SOIL THOROUGHLY.
3. PROPAGATION: CAN BE USE IN ANY KIND OF PROPAGATION METHOD.
4. REVIVE A DYING PLANT
5. REDUCE PLANT SHOCK AND STRESS FROM TRANSPLANT AND PLANT MAIL.

AVAILABLE IN 6ML, 50ML, 100ML AND 300GM GRANULES. FOR OTHER OPTIONS PLS CONTACT US DIRECTLY.

# HB-101 ingredients

The components of hb-101

Raw materials (natural)

- \* cedar extract
- \* cypress extract
- \* pine extract
- \* plantain extract

Cedars, pines, cypress trees, and plantains are the raw materials used in the manufacturing of HB-101.

Extracts from these trees and plants are refined and blended to produce a highly concentrated formula beneficial to virtually all phases of plant propagation and cultivation

Mineral analysis

- \* sodium 155.3mg/gallon
- \* calcium 125mg/gallon
- \* iron 6.8mg/gallon
- \* magnesium 12.5mg/gallon
- \* silicon 28mg/gallon
- \* cadmium 0
- \* arsenic 0

Ph balance

- \* hb-101 (concentrate) ph 4.0
- \* hb-101 (1000x dilution) ph~6.5

Made in Japan
