

## ABOUT US

Modern Flames was established in 2008 and has quickly become the innovative leader in contemporary electric fireplace design and technology. After pioneering the linear electric fireplace throughout North America, Modern Flames' brand has skyrocketed with many firsts to market which include; the first linear recessed electric fireplace, the first fully built-in electric fireplace, the first outdoor electric and now the first virtual electric fireplace. Modern Flames innovative Orion® virtual fireplace that utilizes the most optimized technology Heliovision®, creating the most life like-fire in an electric fireplace on the market.

Modern Flames' products have gained worldwide notoriety with architects, designers, builders and homeowners for its unbelievable life-like flame appearance, ease of installation and affordable cost to the builder compared to wood and gas. With global movement into greener building and high efficiency products, With our corporate headquarters and expanded warehouse in Phoenix, Arizona, Modern Flames continues to be a leader in the electric fireplace industry. Modern Flames is innovating the industry standards of tomorrow.

Modern Flames, a subsidiary of RPG Brands, was Founded by Kris Richardson (President) - whose Arizona-based family legacy and leadership within the hearth industry goes back nearly a half century - RPG Brands is the parent company that contains innovative Hearth and BBQ Brands, featuring: Modern Flames Electric Fireplaces, Grand Canyon Gas Logs, and Wildfire Outdoor Living.

A black banner with a white flame icon on the left. The text reads: "Stay current with our products and accessories on our [modernflames.com.au](http://modernflames.com.au) web site." To the right of the text is a QR code with a flame icon in the center.

# INTRODUCING THE ORION® SERIES, THE FIRST OF IT'S KIND

## The future of electric flame technology is virtual

Experience the innovative Orion® virtual fireplace that utilizes the most optimized technology, creating the most life like-fire in an electric fireplace. Make every presentation brilliant with three flame choices and color options for the flame, embers, and downlighting, six colors which offers 18 different flame color displays as well and color options for ember bed and downlighting. No matter where you stand or sit, the image quality is consistent. Heliovision® technology gives you the premium flame you desire.

Orion is offered in two different series Multi and Slim. Multi which offers five sizes, four install options and a 18" high viewing area. Slim which offers four sizes from 52" to 100", 2 install options, and a 15" high Viewing area.

# SPECTRUM SLIMLINE SERIES

## *Recessed Flush Mount or Wall Mount Electric Fireplace*

Modern Flames new Spectrum Slimline has revamped the recessed electric fireplace category. This 51mm x 102mm or wall mount installation electric fireplace has removed the large black glass surround and is finished off with a sleek 16mm trim to maximize the viewing area. Hardwoods or tile can be finished right up to the opening of the fireplace while still keeping in mind serviceability. The Spectrum Slimline features high intensity flame and ember bed lighting showcasing our new Hybrid-FX™ flame technology independently controlled with 10 different color options. Other standard features include variable & thermostatic heat, variable motor controls, timer, push button, and remote controls. The acrylic crystal media and driftwood logs are both standard media and the Spectrum Slimline is available in 50" (1270mm), 60" (1524mm), 72" (1880mm), and 100" (2540mm) sizes.

### STANDARD FEATURES

# REDSTONE SERIES

## *Built-in Flush Mount Conventional Electric Fireplace*

Modern Flames has revamped its built-in, flush mount conventional fireplace category with its new RedStone electric fireplace. The RedStone features our new Hybrid-FX™ flame technology maximizing the flame height in an enlarged vertical viewing area. Some of the eye-catching features include high intensity RGB independently controlled up lighting, down lighting & flame color. Other standard features include 10 different unique colors to choose from, variable and thermostatically controlled heat, variable motor controls, timer, push button and remote controls. This conventional design can slide into an existing Zero Clearance wood burning fireplace or will need 255mm of depth in a wall for the built-in flush mount look. The RedStone plugs into a standard outlet and includes a 5000 BTU heater. Acrylic crystal media and driftwood logs are both standard media.

*Redstone RS-3021*

### STANDARD FEATURES

-  Hybrid-FX™ Flame Technology
-  10 Unique Flame Colors
-  Acrylic Crystal Ember Bed
-  Low Energy LED Flame Technology
-  Touch Button Controls
-  New Sleek Remote
-  Can be Installed Beneath a TV
-  Variable Heat with Thermostat
-  Variable Flame Controls
-  240 Volt Plug
-  Do it Yourself Installation Instructions
-  Finish Trim Kit Included
