

Neo is the Responsible Maker of Australian Ayurvedic Herbal Teas & Skincare, locally made in Sydney's lower north shore. Neo was created by founder Mona Webb, a former mechanical engineer. Mona worked and specialised in the petrochemical industry prior to starting Neo. "I discovered working within this industry, that much in the world is chemically processed and may have a negative impact on nature, the environment and humanity." Later, armed with Ayurvedic knowledge, Mona founded Neo - Organic Tea & Skin Solutions that help people feel better every day. Neo Ayurvedic Teas and Skincare are Australian Made from ACO certified organic ingredients.

Neo Herbal Tea Infusions are blended according to ancient Indian Ayurvedic recipes which are based on the selection of pure, organic herbs that support the body's natural processes. Our herbal teas are free of caffeine, pesticides, bulking agents and chemicals. They have been naturally dried to ensure maximum retention of potency and flavour.

Neo's Skincare fully complements our herbal tea range. Our range is responsibly made with organic and pure ingredients, packaged in an eco friendly modern style and perfectly designed for various skin types.

### We Give Back

"Since day one of Neo, it was decided to contribute back in one way or another to earth, environment and humanity. We donate Neo product or funds to various charities, however an important and long lasting donation has always been made to **Food For Life Charity**. We donate a percentage of our profits annually to this charity and also participate by donating prizes to other local charity groups.

Due to the added benefit of having worked in the petrochemical sphere, we understand the importance of climate change, the impact of Neo's carbon footprint no matter how minimal. Due to our strong social ethos, our products are packaged in recycled glass, compostable plant based materials as well as biodegradable bags. In Sydney we are a proud member of the BBP program run jointly by three lower north shore councils. Watch out for our vision to become B Corp Certified."

Neo helps you feel better every day.®
