

Products Introduction

Customized for Australia and New Zealand market

Joyoung—A Leading brand of quality household appliances

Joyoung, the leading brand of quality small household appliances. In 1994, Joyoung invented the world's first soymilk maker, making thousands of households made their own soymilk at home. Over the past 27 years, Joyoung has been adhering to the core DNA of healthy and innovative, and has experienced "three decades" of development:

- First decade (1994—2004) , invented the world's first soymilk maker, making thousands of households made their own soymilk at home.
- Second decade (2004—2014) , Product category has been largely expanded.
- Third decade (2014 to now) , With the improvement of product quality, , Joyoung become the leading brand of quality small kitchen appliances.

Joyoung—A Leading brand of quality household appliances

- In recent years, Joyoung has vigorously promoted original innovation and created a series of products to meet the needs of different consumers. Now we have multi function self cleaning cooking blender, hand wash free soy milk maker, uncoated steam rice cooker and other upgraded products that brings convenient and pleasant lifestyles to people who pursue quality life.
- In order to meet the needs of young generation, Joyoung has launched LINE FRIENDS, Doraemon, HELLO KITTY, Coca-Cola and other IP co-branded small home appliances. Make cooking a fun thing to do at home. Through online marketing, we are more and more favoured by young people.
- We take our social responsibility seriously. In the past ten years, we had built 1084 Joyoung Hope Kitchens across 27 provinces in China. More than 2.6 million people were benefited from our project. In 2020, Zhejiang Joyoung Public Welfare Foundation was established. This is a new chapter of Joyoung public welfare.
- By focusing on user experience and requirements, we will keep developing our products in order to keep the leading position of quality small household appliances in future.

Multifunctional self-cleaning blendermodel :

K1Spro+

FRANK&ANDY TRADING PTY LTD

We established in Melbourne, Australia in 2016. We are the authorized distributor of Joyoung and ASD kitchenware products in Australia and New Zealand. Our company is funded and operated by Ms. Zhou Qian, who has a 16-years sales experience of Joyoung products in mainland China. As a national A-level excellent distributor of Joyoung brand, we have rich experience in the retail market and a deep understanding of brands and products. Now in Australia market and environment, we have lots of learning to do from our local partners. Meanwhile, we can bring our domestic market retail and promotion experience to the Australian and New Zealand market. We will introduce the most cutting-edge and most advanced product of Joyoung to our partners and customers in Australia. By strictly following the Australian and New Zealand safety and product requirements, we will bring the Healthy Joyoung Young Generation Kitchen to the local consumers.

进口碳刷电机 增压风轮

高速碳刷电机 带动风机高速运转产生巨大风量
11叶机翼形扇叶 风力更强劲

HOPER LAYER is headquartered in the beautiful Australian city of Melbourne. Luxury and fashion are our positioning, and beauty and function are our commitments to consumers. In the face of young, fashionable, and independent consumers, we only provide the most fashionable products. We are rooted in the vibrant Australian and New Zealand markets. With a deep understanding of brands and products, every product launched will have a professional team to do the most detailed investigation to find the industry's and consumers' deepest needs. In the future, we will continue to launch the most distinctive products that are lacking in the local market to meet the demanding needs of customers and consumers. We hope to sincerely learn from and cooperate with more partners. Bring the most cutting-edge and popular products in the international market to our partners and customers.
