

COLONIAL

the original handcrafted hot tub

## MEET THE ULTIMATE PLUG & PLAY HOT TUB

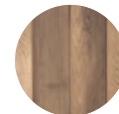

Our new Plug & Play Hot Tubs require no specialist installation, they have no external piping and no separate pump housing. Simply drop in place, plug in, fill with water and relax.

Colonial Hot Tubs are handcrafted using traditional coopering techniques creating a watertight seal – a technique we've been practicing for over 45 years.

Plug & Play Hot Tubs are available in 5 sizes: 4ft, 5ft, 6ft, 7ft and 8ft diameter.

## PLUG & PLAY HOT TUB FEATURES

- 5 tub sizes available with seating for 1–14 people
- Interior depth of over 1 metre with 3 massage jets
- Made of sustainable PEFC® Canadian Heart Cedar
- Traditional coopering construction method
- Hot-dip galvanised steel bands, can be custom coloured
- Spanet electric element heater, 3 Kw or 5.5Kw (6ft+)
- Tubside touch pad controller for temperature and jets
- Wifi control and heating upgrade options are available
- Flat shelf on top of pipe skirt doubles as drink holder

# INCLUDED WITH PLUG & PLAY HOT TUBS

The items below are included with your Colonial Plug & Play Hot Tub.

## What's Included in the Hot Tub Price

- Lockable, hard, heat retention cover
- Spanet water heater
- 2 speed pump for high velocity massage jets
- Hot Tub plumbing including drainage valve, safety intakes, jets
- 75 ft filter cartridge to maintain crystal clear water
- Chemical Starter Pack
- Tuition on water treatment and tub maintenance
- 1 year Warranty on all tub running gear (heater, pump, filter)
- 5 year Tub Warranty on the Colonial Hot Tub
- Colonial Hot Tub use and maintenance manual

## Heater, Pump & Filter Details

- 75 sq ft cartridge filter on all tub sizes
- 4ft & 5ft tubs: Spanet Mini controller with 3kw heater and 1.5 HP 2 speed water pump.
- 6ft & over tubs: Spanet SV3 controller with 5.5kw heater and 1.5 HP 2 speed water pump.
- Varying pump sizes are available on bespoke tub designs.
- Mac unions to all running equipment.
- Valves for filter control and draining hot tub.
- Time clock, pressure switch water pump control with normal and upper level thermostats for gas and heat pump units if required.

## Plumbing Items

- 3 therapeutic massage jets with Venturi Air Control
- 1 x skimmer
- 1 x lower suction port
- Safety drain fittings (2 way and 3 way valves)
- All piping, elbows and fittings in insulated 40mm class D pressure piping to plumb in the spa pack adjacent to the Hot Tub
- Custom jet/suction set ups are available on request

## Optional Upgrades

**Heater, Pump & Filter:** Upgrade to top of the line Spanet SV3 5.5kw heater with 1.5hp 2 speed water pump with tubside LED touchpad. This set up delivers high performance, while conserving energy during heating and filtration times. This is currently the quietest system on the market.

**Gas Heater:** 16 kw Hurlcon HX 70.

**Hot Water Heat Pump:** Thermoplus THP5-1 & THP 7-1.

## Further Notes

- Bespoke Hot Tub information and prices available on request
- Free site inspection available in Greater Auckland area
- Prices do not include freight, base preparation and electrical connection
- Specifications are subject to change without notice
- Quotations are guaranteed for three months. After this period an updated quotation will be presented due to changing material costs.
- 6Kw heaters require a dedicated 32 Amp circuit hard wired into the heater.
- 3Kw and lower heater sizes require a standard 15 Amp outdoor circuit hard wired. Plug options available on request.
- All prices include GST

PLEASE NOTE SOME SPECS VARY BETWEEN TUB SIZES
