Hi Sweet

Hi Sweet, my name is Rhondda, I have over 25 years in the beauty industry as a salon owner beauty trainer and product developer.

Hi Sweet represents salon products that care for clients lashes and a retail range follows the same path of natural goodness As an everyday woman the products and treatments I choose to feel good are just as important to me now as they were at 16. Reaching for a product and seeing the result is as important now as it was then. However over time I care more about the ingredients I use and what chemicals I put on my skin. Our Brow Lamination and Lash Lift is chemical free, a popular salon treatments that won't leave your clients lashes and brows damaged and dry, this was my number one priority, made in Europe our Vegan nearly all organic lift and Lamination is designed for the long haul.

Blinkink and BabyButtface are just the start of the By Hi Sweet retail range. Blinkink is our growth hydration mascara and BabyButtface is a Natural Multi Stick to cleanse hydrate and give glow to every skin type.
