The Yale Access functionalities

App control
Lock and unlock your door from anywhere in the world when paired with the Yale Connect Bridge.

DoorSense™ technology
Check the status of your door and find out if it is securely closed and locked.

Activity monitoring
Track when visitors have unlocked and locked the door, and be notified of lock status by setting up smart alerts.

Guest access
Grant virtual keys that can be valid for a few weeks, a few hours or a few minutes. Never worry about lost or stolen keys again.

Grant entry from wherever you are with the Yale Access App

Remote access means you can let in family, friends and trusted visitors from anywhere when the Yale Smart Lock is paired with Yale Connect or Connect Plus Wi-Fi Bridge. If someone forgets to lock up when they leave, you can take care of it with the tap of a finger.

Expecting guests? Send a virtual key

You can send virtual keys to friends, family or other people you trust from the Yale Access App. Guests can come and go as they wish – and you don't need to worry about lost keys.

Know the ins and outs of your home

The 24/7 activity feed will help you check who is coming – even when you're not there. You'll know when guests have arrived, what time your children got home, and whether a tradesperson or cleaner came in to get a job done.

Auto-lock and unlock as you come and go

The auto-lock feature can automatically lock your door when you leave, either immediately after closing or after a set amount of time. When you return, your door will auto unlock using geo-fencing technology, so you don't need to fumble around for your keys.

DoorSense™: for peace of mind

DoorSense™ lets you know whether your door is securely closed or not. If anything unexpected happens, like the door being left ajar, you will be the first to know.
Use your voice to control your lock

Yale Access works with Amazon Alexa, Apple HomeKit and Google Home. You can control your lock with your voice using Alexa, Siri or Google Assistant.

Open sesame

Otherwise known as auto-unlock.

Arriving

Home Mode

5m

200m

Leaving

Away Mode

Auto-unlock is one of the most popular and unique features of Yale Access. Having your door automatically unlock when you approach home, without needing to reach for a key or your phone, is like having your own personal doorman.

The app has two states: Home and Away. When you're at home, your app will enter Home Mode and auto-unlock becomes inactive. As long as you are in Home Mode, your lock will not unlock automatically.

As soon as you leave your home, the app will get ready to switch into Away Mode. Before switching into Away Mode, the Yale Access App waits for you to move at least 200 metres away from your home.

As you return to within 200 metres of your home, your phone will start looking for your lock. Within 5 metres of your door, the app will find your lock, automatically unlock the door, and return to Home Mode.

Yale Unity Entrance Lock

The Unity Entrance Lock is designed specifically for the Australian market and is certified to Australian Standards, AS4145.2.2008, with patented digital deadlocking technology. The Unity Entrance Lock is also available in a fire-rated version certified to AS1905.1.2015. Using the Yale Access App, gain keyless entry, see who's coming and when, grant virtual keys and check whether your door is open or closed.

Digital locking
Digitally deadlock your door through the lockset mode, securely locking from both inside and out.

Total control via app
Lock and unlock your door, grant access to visitors and keep track of their access.

Tailor user access
Use the Yale Access App, Yale Key Tags or the Yale Smart Keypad to access your lock.

Auto unlock/lock
Auto Unlock your door as you approach it, without the need to take out your phone. The door position sensor tells you if your door is open or closed.

SUITABLE FOR FIRST-FIT AND RETROFIT

Yale Unity Security Screen Door Lock

The Unity Security Screen Door Lock provides seamless entry into your home. It can be paired with your Unity Entrance Lock so that, once your Screen door unlocks, so too will the entrance lock*.

DualDoor™ technology
Gain seamless entry when paired with your Yale Unity Entrance Lock and Yale Connect Plus.** Once your security screen door unlocks, so too will your front door.

Total control via app
The Yale Access App allows you to lock and unlock your door, grant access to visitors and keep track of their access.

Tailor user access
Use the Yale Access App, Contactless Key Tags or upgrade with the Yale Smart Keypad* to access your lock.

Auto unlock/lock
Auto unlock your door as you approach it, without the need to take out your phone. The integrated door position sensor tells you if your door is open or closed.

*DualDoor Technology requires use of a Yale Connect Plus or two Yale Connect Bridges (one per lock) to operate.
**Yale Unity Entrance Lock and Connect Plus sold separately.

Yale Connect Plus Wi-Fi Bridge

One app to support multiple locks from anywhere and supported by voice assistant functionality.

Coverage for the entire home*
Designed to support smart devices throughout your home. Keep your devices connected and your power points free.

Total control via single App
Monitor the status of your home, lock or unlock and more using your Yale Access App.

Grow your Yale Home
Supports up to 16 Yale smart devices.

Works with your smart home
Allows your Yale Access smart devices to work with Google, Amazon, Alexa and more.

* Home size, layout and building material can impact performance.
Medium and large size homes may require additional devices for full coverage.

Yale Connect Bridge

For voice assistant functionality and remote access and control of your lock.

Control who has access
Let visitors in and out when you aren't home.

Monitor access from anywhere
Always know who is coming and when.

Keep your home secure
Check if your door is locked from anywhere.

Enable voice assistant
Lock and unlock using your voice when connected to your home automation hub.

Yale Smart Keypad

Easy access for everyone to use:
Perfect for kids, guests, or your cleaner.

Always in the know
The Activity Feed in the Yale Access App tracks how and when your door was locked and unlocked.*

Worry less
Never leave keys under the mat or worry that your phone may die. Simply use your Yale Smart Keypad to unlock your door.

Save time
Enter in seconds. When you leave, lock your door with just one touch.

Easy install
Installs on the outside of your home on surfaces, including wood, render and brick - nothing to wire, battery powered.

Notes

Yale is trusted by millions of people every day to keep what's important safe.

Our innovations have protected their homes, families and belongings for over 180 years. We have expanded from being a leader in mechanical lock engineering to innovating connected smart locks and homes.

We always strive to push the boundaries in an ever-changing world.

We were there for your grandparents (and probably theirs) and we'll be there for future generations to come.

ASSA ABLOY is the global leader in door opening solutions, dedicated to satisfying customers needs for security, safety and convenience.

Trusted every day
