
Origins

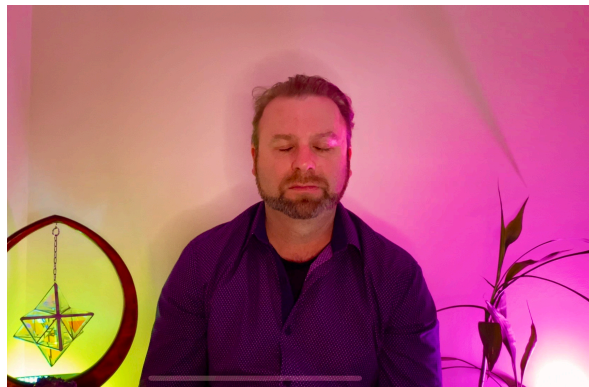

Chiron® Healing began in 1984 when a group of health professionals and laypeople gathered to investigate healing information via Jan Thomas (Trenorden) in Warrnambool, Victoria, Australia. A core team from the original group has practiced and taught the work globally to a diverse and growing range of health practitioners. Now an international association is charged with the responsibility of overseeing further development.

Through Chiron® healing Jayson works directly at balancing the auric field so that your body can be in a place of ease and joy again. Chiron® Healing not only helps ease physical ailments, but helps heal past and present "woundings" on the physical, emotional and spiritual levels. Only when you work with all three levels does true healing occur. Chiron® Healing may give relief of acute and chronic pain, back problems, circulation problems, arthritis, depression and much more. Chiron® Healing can assist with many problems on many levels by correcting the core problems.

Chiron® Healing - Finding the cause.

Chiron Healing techniques provide tools to access the biological energy exchanges that drive your body.

There is a pattern to the energies that keep your tissues, organs, muscles, bones and even feelings and emotions working well. This energy surrounds and interpenetrates the physical body in the form of a bio-energetic field, (commonly referred to as the 'aura').

When those energy patterns are disrupted by physical, chemical and emotional distresses, you naturally find it hard to be comfortable.

The Chiron Healing practitioner works directly at balancing the energy patterns within the bio-energetic field, so that your body can experience ease as quickly as possible. When you are out of balance you are dis-at-eased.

To regain health requires you to take the initiative. Chiron Healers can then help you to find your own balance.

Considering Your Individual Needs

People come to Chiron Healers for all sorts of reasons. The gentle and powerful techniques have brought relief on many levels.

While most health problems can be linked to a few simple energy imbalances, your own environment and set of symptoms can be quite distinct. Chiron Healing treats each person individually with a system of energy balancing that can be applied for a wide range of health problems.

Working with the energy of the body

Chiron healing may be used on its own alongside other health care methods. As no forceful methods are used, a Chiron® Healing session is usually a relaxing and pleasant experience.

Depending on the severity of your condition, immediate relief of symptoms may occur, or else progressive relief may be expected over time.

Your practitioner will guide you as to the frequency of visits.

Establishing a pattern of wellness

Once you've experienced the benefits of Chiron® Healing, there are more techniques you can do to ensure ongoing well-being. Your practitioner can advise about the options.

The purpose is to help you regain control over your general health care choices. When you're ready, we even have the self-healing methods you might like to use.
