

PEMF Therapy Australia Pty Ltd

the source for

Pulsed Electromagnetic Field Therapy

Benefits proven in a 4-year study

Treatments, System Rentals
System Sales & Training

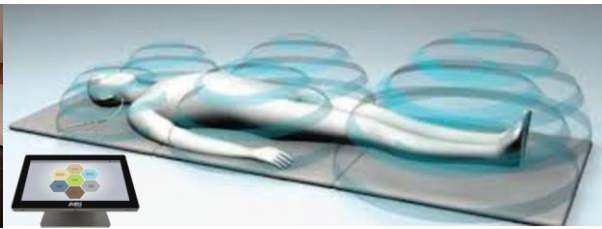

Used in hospitals for over 25 years in Europe

Reduce Pain
Promote Bone Healing
Improve Wound Healing
Increase Peripheral Circulation

PEMF Therapy Treatment

Natural Magnetic Waves

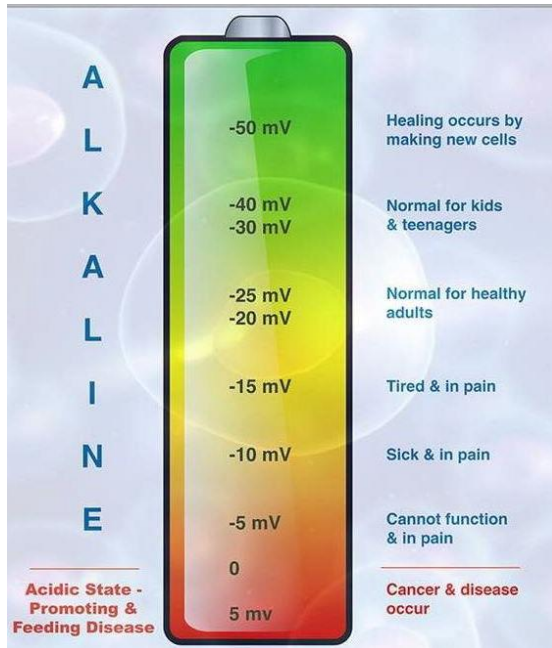

All cells in the body have a small measurable voltage... just like a battery. When sick or injured, a reduction in voltage occurs. This affects the cells' ability to function efficiently. The cells need more energy. PEMF Therapy pulses natural magnetic waves through the body that charge the cells. This increases metabolism and cellular efficiency, which allows the body to restore its natural balance and promote healing.

**PEMF is used by Health Practitioners,
Athletes & Individuals World-Wide.**

Health begins at the Cellular Level

Like a battery, if cells lose their charge from an injury or an illness, the body cannot effectively function. PEMF charges the cells to help restore health, vitality and a natural balance.

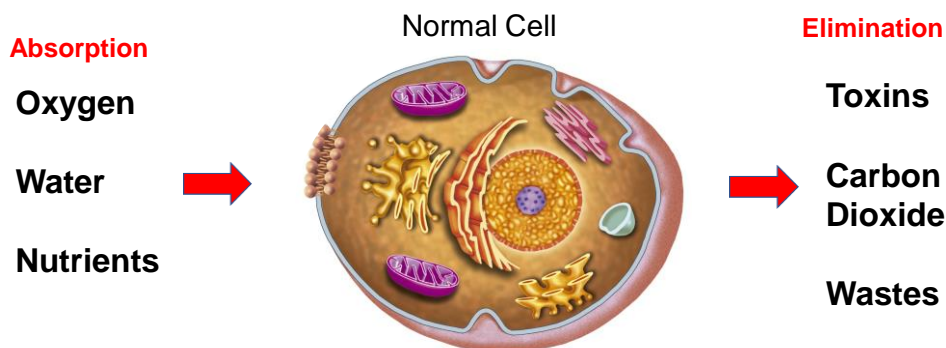

Cellular voltage measures the pH of the body. A pH of 7.35 = -20 mV. Illness and injuries have a low voltage or pH. A higher voltage equals an alkaline environment, which creates a healthier state for the body's ability to heal naturally.

PEMF Therapy increases the body's voltage, thus improving cell efficiency. This helps the cells regenerate quicker, enhances circulation, reduces inflammation & improves the immune system.

This is the foundation and science behind PEMF Therapy.

PEMF Therapy

- optimises the cells' natural absorption and metabolic functions
- dilates the blood vessels by increasing nitric oxide
- increases blood oxygen levels and circulation
- decreases inflammation & reduces pain
- improves sleep

***“PEMF is a benefit for Mankind from infant to the geriatric. PEMF will lead to a change in the paradigm of medicine.”
Dr. Linus Pauling – Double Nobel Prize Winner***

Working environments

- Maximise mental clarity, focus & productivity
- 10-minute treatment recharges the body
- Manage and reduce stress
- Simple and easy to use by anyone

Athletes or an active lifestyle

- Pre-competition energy & oxygenation
- Rapid post-exercise recovery and detoxification
- Faster recovery from injuries and recent competition
- Reduce illness recovery time
- Increases ATP production

***“All chronic illness and injuries have an associated low voltage”
– Dr Jerry Tennant – ‘Healing is Voltage’***

General well-being

- Improves circulation and immune system
- Increases cellular metabolism and repair
- Facilitates relaxation and reduces stress
- Promotes detoxification
- Higher energy level and overall vitality
- More restful and uninterrupted sleep

As you age, your voltage decreases. PEMF increases cellular voltage!

Retired or the less active

- Promotes mobility and reduces pain
- Increases energy, vitality and strength
- Improves circulation
- Reduces chronic symptoms
- Sleep better and wake up more refreshed

PEMF Treatments, System Rentals & Sales

PEMF Treatment

A PEMF treatment lasts around an hour. The first part of the treatment you lie on a full body mat for 10 minutes. The second part uses localised PEMF applicators to treat specific problem areas of the body.

System Rental

Benefits of renting:

- Easy to operate
- Use in your own home
- Several treatments per day
- Treat the whole family
- Unlimited usage
- Better value

The Professional Rental System is easy to use and set up. It comes with instructions and phone support. It can be picked up in Melbourne or delivered anywhere in Australia.

**Backed by Science
Proven in the Field**

- German built, Swiss design
- World's leading PEMF System
- 27 years of PEMF experience
- Optional Bio-feedback System
- Optional Brain Entrainment System

Systems for Sale

iMRS prime Systems:

- Basic
- Advanced
- Expert
- Hybrid (**FIR**)
- Trial (**FIR**)

Omnium Systems:

- Basic
- Complete
- Combo

**9,800 scientific papers & 2,500
double-blind studies on PEMF**
