WHY DOWNUNDER MAGNESIUM

AUSTRALIAN MADE

We source our Magnesium products from a unique, Natural Salt Lake deep in the deserts of Western Australia. Situated within a Salt Harvest Sanctuary.

PURE NATURAL MAGNESIUM

The sanctuary is protected and our Pristine Magnesium is free from Modern Pollutants which ensures that our Magnesium stays true to its purity "**ORGANIC**" with the input certified by the Biological Farmers of Australia.

THERE IS NO "OIL" ADDED

It's 100% Pure Magnesium. It's filtered with distilled water to keep its purity. No "OIL" is added into the Magnesium. It has an oil feel like residue from the minerals "Bitterns" these Bitterns are known as Magnesium 'Oil', all thou they are not a true Oil. It's a concentrated ionic Magnesium Solution.

HIGHEST GRADE OF MAGNESIUM

1 spray of our Magnesium Oil is equivalent to 6 Magnesium tablets on a low dosage. (1005mg magnesium per tsp)

WHAT IS MAGNESIUM OIL?

Magnesium oil facilitates transdermal delivery (through the skin) of magnesium chloride. It is well documented that most of the magnesium in oral capsule supplements is lost in the digestive system or eliminated by the body, not reaching the cells that need it. Our easy to use spray means that you can apply magnesium straight to tired muscles, sore joints or to your stomach for a sound sleep.

CAN DOWNUNDER MAGNESIUM OIL BE USED AS A SELFCARE RITUAL?

Absolutely it Can! Selfcare and selflove are about making positive lasting change in our lives. Part of selfcare | selflove is making sure we talk to ourselves with positivity.

Before commencing your Downunder Magnesium Morning + Night Rituals, we encourage you to take a moment to be present, knowing that you are beautiful. Each bottle has a beautiful affirmation on it to help you ease it that moment. Here is a little teaser x

"I have the power to create change I feed my spirit. I train my body. I focus my mind. It is my time"

CAN DOWNUNDER MAGNESIUM OIL BE USED THROUGHOUT PREGNANCY?

You absolutely can! There are no nasties in our products, it is all natural and is safe for you and your bub throughout pregnancy and post pregnancy. Not only will it help with the aches and pains our bodies experience during pregnancy, it will help with ensuring you get a good night sleep and can be applied directly to your sore areas (i.e.: lower back, sciatica or the dreaded calf cramps). Magnesium is an essential mineral to support the growth of a healthy bub and our need for this mineral increase when we are pregnant. As all pregnancies are different, we always recommend consulting your gp prior to using any supplements to ensure it is right for you.

CAN I USE DOWNUNDER MAGNESIUM OIL ON MY CHILDREN?

Yes! All products are safe to use on your little ones, we recommend using form the age of 3 months and older. They are amazing as they will help them relax during the evening after a busy day and for those growing pains and general magnesium replenishment. We recommend diluting the formula with water slightly begin with (50:50) apply to their feet for around 2 weeks at this strength. You can then build up to a stronger formula and apply to their stomach and feet at night before bed.

CAN I USE DOWNUNDER MAGNESIUM OIL ON MY PETS?

You absolutely can! Our animals are just like us.

WHERE DO I APPLY DOWNUNDER MAGNESIUM OIL AND HOW MANY TIMES A DAY?

Morning. 1-3 sprays on your neck, shoulders, and lower back.

Night. 1-3 sprays on your lower back and legs before bed.

Before exercise. 1-3 sprays on your neck, shoulders, lower back, and legs.

Downunder Magnesium products are all natural and it is safe for you and bub throughout pregnancy and post pregnancy.

Apply magnesium oil directly to sore areas like your lower back or on your calves if you are experiencing cramps there and rub in. Apply 1-3 sprays on your feet and stomach at night for a restful night sleep! We always recommend consulting your GP prior to using any supplements to ensure it is right for you during pregnancy

WHY DOES MAGNESIUM OIL STING/TINGLE/ITCH WHEN I APPLY IT?

This can be a clear sign of magnesium deficiency; it could be sourced from overseas (different form of magnesium) or it could have something else added into.

You can dilute with water (60:40) or add me to some coconut oil to make this tingle a little less uncomfortable without missing out on the benefits.

HOW IS MAGNESIUM OIL DIFFERENT TO POWDERS & PILLS?

Magnesium oil can be applied straight to the skin for optimal absorption, rather than relying on the (often malfunctioning) digestive tract like Powders and pills. By bypassing the digestive system, it goes straight into the bloodstream and is delivered to the cells that need it.

WHO IS MAGNESIUM OIL DESIGNED FOR?

Everyone. Magnesium Oil will not only assist with the treatment of cramps, spasms, and aches, but deficiency has also been linked to decreased memory and learning ability. Increasing magnesium levels can improve cognitive function in children, the elderly and those experiencing high levels of stress - both emotionally and physically. Magnesium will assist athletic performance by reducing accumulation of lactic acid and reducing the perception of fatigue during strenuous exercise. Magnesium fights inflammation, raises antioxidant levels, and helps replenish energy stores in the muscle. It also calms the central nervous system, lowering heart rate and enabling restful sleep ... AMEN

WHAT IS THE 'OIL' IN MAGNESIUM OIL?

We source our Magnesium products from a unique, Natural Salt Lake deep in the deserts of Western Australia. Our Pristine Magnesium is free from modern pollutants which ensures that our Magnesium stays true to its purity "Organic". No oil is added into the magnesium. It has an oil feel like residue from the minerals "Bitterns" these bitterns are known as Magnesium 'Oil', although, they are not a true Oil. I spray of our Magnesium Oil is equivalent to 6 Magnesium tablets on a low dosage. (1005mg magnesium per tsp) Can't get any PURER than that!!
