WHAT OUR CUSTOMERS HAVE TO SAY...

BEFORE USING
RASH RELIEF

AFTER USING
RASH RELIEF

As a teenager and studying my final year of high school, my stress levels were extreme. I have a history of severe eczema problems. I had eczema patches all over my body (including my lower legs) and flare-ups were very common (particularly when I felt stressed). This made me feel embarrassed when out in a public place. It really affected my self-worth and self-esteem.

I saw two skin specialists and used their products. I tried a steroid cream and many other natural eczema creams but unfortunately, I didn't get a stable, long term improvement.

I decided to consult a Naturopath to seek other treatment options. This led me to Angelic Skin **RASH RELIEF** cream.

After only three days of applying the cream regularly, at least twice per day, I could already see an improvement with the worst patch of my eczema completely gone!

I never thought a natural product could be so effective. It worked wonders! My skin looks and feels healthy again.

I would definitely recommend Angelic Skin **RASH RELIEF** to everyone.

WHAT OUR CUSTOMERS HAVE TO SAY...

POST SURGERY

6 MONTHS OF USING
REPAIR MOISTURISER

In 2018 I had a cancer tumour removed from my thyroid gland leaving me with a very swollen, red scar around my neck. I started applying Angelic Skin REPAIR MOISTURISER morning and night (3 days after surgery). I was amazed how effective the moisturiser was after using it for one week only. The swelling had reduced and the scar tissue had decreased in size and colour.

This wonderful skin care product has helped tremendously with the healing. After six weeks of regular application, I only had a faint line of scarring which was hardly noticeable.

Six months later - you wouldn't even know that I had undergone major surgery.

Angelic Skin REPAIR MOISTURISER is very easy to apply without leaving any greasy residue.

I also use it as a general moisturiser on my face and I have found it to be hydrating and moisturising which helps soften my lines and wrinkles.

I would highly recommend everyone to use it!
