

AUSTARON SURFACES

Inspire **Imagine** Create[®]

Indoor and Outdoor Surfaces for All Projects

“Our surfaces allow one’s imagination to flourish; the more you learn, the more exciting designing becomes.”

Directors left to right:
Brett Worden (AU), Belinda Worden (AU), Justin Worden (NZ),
Gareth Edwards (NZ), Danie Mars (NZ)

Founded in Australia in 2003, Austaron Surfaces is a people-driven company, renowned for excellent service and an appreciation of connections made along the project journey.

With a personable enthusiasm, our team strives to support clients in their pursuit of product knowledge and assistance for a successful project outcome.

Offering a collection of high-quality surfaces, our brands are innovative and award-winning.

Locally owned and operated in Australia and New Zealand, our product range offers both visual excellence and a solution-oriented outcome to the building industry.

staron®

Solid Surfaces

Staron Solid Surfaces is manufactured from a safe natural mineral refined from bauxite and blended with pure acrylic resin. A non-porous material, Staron provides a hygienic, durable and easy to maintain surface.

Another benefit of Staron is its seamless joining capabilities, making it possible to create long and wide continuing surfaces with no open joints eliminating dirt-trapping crevices.

Staron is repairable, renewable and UV stable. Even after years of use it can simply be sanded and restored back to its original condition. Staron does not have or require any finishing polishes or sealers; it is the same solid material throughout its thickness.

Easily thermoformed into flowing curves or sculpted into any shape imaginable. Design flexibility extends to limitless edge profiles, splashbacks and tile coves. [Learn more...](#)

-  Made in South Korea
-  AU - Group 1 Fire Certificate Result to AS5637.1 (AS ISO 9705: Full scale room test)
-  NZ - Group 1s Fire Certificate Result to C/VM2 (AS ISO 9705: Full scale room test)
-  Silica & Polyester Free
-  Hygienic & Stain Resistant
-  Seamless Design Flexibility
-  Illumination & Routing Opportunity
-  Colour Versatility
-  Weatherability & Durability
-  Greenguard Certified & Gold Certified
-  Environmental Management System Certified ISO 14001
-  NSF National Sanitation Foundation for Food Safety Certified

Integrated Sinks & Basins

Staron Sinks

Enhance your application with an addition from our collection of integrated sinks and basins. Aesthetically pleasing and hygienic, eliminating mould and silicone. The perfect partner to a Staron benchtop in residential or commercial projects. [Learn more...](#)

Antegra Sinks

Designed to inspire and constructed specifically for solid surface. The Antegra sink collection allows for Staron to flow seamlessly from the benchtop to the internal sides of the sink, integrating the Antegra sink and Staron benchtop. [See full range...](#)

Door and Drawer Front

MARIO ROMANO | WALLS

Innovative and beautiful, Mario Romano Walls is a collection of 3-Dimensional textured panels. Non-repeating designs are available in any size, and it's infinitely customisable.

Each panel is carved and fits perfectly alongside adjoining pieces; panels slip together like a large puzzle with inconspicuous joins to achieve a seamless design for both linear and organic patterns.

All designs are routed directly in Staron Solid Surface offering the many benefits and features that solid surfaces are known for.

Selections are available from over 50 pre-designed patterns or create your own design; Mario Romano Walls are scaled to fit each bespoke outcome. Eliminating complicated CAD documentation, all files are processed in-house. Explore [our range](#) for your next project.

-  Processed Locally

acrylic couture®

Acrylic Couture is acrylic glass in a completely new light. Showcasing a collection of meticulously selected premium quality and ethically sourced metallic fabrics, decorative particulates and feathers encased in crystal-clear high-quality acrylic glass. Hand-crafted in Italy, designs are created of unprecedented appearance to deliver an incomparable decorative surface.

Comprised of the highest quality acrylic glass and modified with the inclusion of special nanoparticles for the extremely efficient scattering and reflection of light. The highlight for the senses is achieved through the unique lighting effects within the acrylic glass. In the presence of either natural or artificial light, this extraordinary material composition makes it possible to achieve intensely radiant visual applications. [Learn more...](#)

-  Made in Italy

-  Hand Crafted
-  Halogen Free
-  Eco Conscious Manufacturing
-  Wet Area

ORGANOID

NATURAL SURFACES

Organoid surfaces combine the beauty and effects of natural materials with functional interior design in a sustainable manner.

The natural surfaces are available in various unique designs. They are suitable for many decorating uses: as wallpapers, decorative veneers in combination with wood, and acoustic elements.

A selection of natural materials such as Alpine hay, lavender, flower petals and herbs to name a few, Organoid surfaces are pure sensory pleasures for people – you can see, feel and smell them.

Due to the gentle production process, the properties of the natural materials are largely preserved. The surface is untreated and thus all properties in terms of look, fragrance and feel are retained. [Learn more...](#)

-  Made in Austria
-  Carbon Neutral
-  FSC - Mix Paper From Responsible Sources
-  Ethically Sourced
-  Direct Trade with Farmers
-  Hand Crafted
-  Renewable Materials

-  Biophilic Design
-  Acoustic Design Compatibility

The Kaynemaile offering is unlike any other, this state-of-the-art product is the result of 60 years worth of material science and extensive research. This one-of-a-kind material features a series of polycarbonate rings that seamlessly interlink to form a modern chainmail fabric.

Strong and lightweight, Kaynemaile mesh offers endless design potential for illustrious ceiling features, elegant interior screens and it is perfectly suited for partitions and space dividers within interiors applications.

Manufactured from engineering grade polycarbonate, Kaynemaile Architectural Mesh is so durable it can also provide screening and building protection for exterior project applications. [Learn more...](#)

-  Made in New Zealand
-  Group 1s Fire Certificate Result to ISO9705 Room Test
-  High Airflow

-  Corrosion Free
-  Lightweight

Ambiloom[®]

ETTLIN LUX is a worldwide, unique, and patented textile that creates three-dimensional light lines from light sources placed behind the fabric. Ettlun Lux products represent a fascinating combination of aesthetics and lighting design. The special fabric is used in a variety of ways, from individual projects to ready-to-use products.

Ettlun Lux products have always intrigued its viewers and are made for unique projects. As a leading manufacturer of technical textiles, the team at Ettlun Lux are committed to researching and developing new products. Exploring new fields of application for their textiles with great innovative strength, adding exciting opportunity for lighting design. [Learn more...](#)

Pendant and Floor Lamp

The pendant lamp impresses with its textile surface, functional downlight and ambient lighting effect. Noble and subtle, the luminaire will appear even without the inclusion of a light bulb and harmoniously blends into various interiors. The ambient lighting makes the luminaire a distinctive element for any room. Handmade in Europe, the luminaire range is available in Black, Brass, Chrome and Timber.

Wall Mirror

The Ambiloom wall mirrors from ETTLIN LUX impress with three-dimensional, luminous effects in the mirror image. They provide a highlight in interior design and give interior architects and designers the opportunity to visually enhance their projects. Thanks to the modern design, the mirrors fit into the largest variety of room concepts. The multi-purpose accessory presents as a functional mirror, decorative mural and ambient lighting object for a feel-good atmosphere.

Awards

It's not just us that think our products are amazing. Our brands have been recognised for excellence in design, quality and innovation.

Staron Design Awards

With the unique attributes solid surface offers for the adaption to a multitude of design outcomes; the awards offer a platform for the architecture & design community to be celebrated for knowledge and ability to showcase Staron Solid Surfaces within the built environment. The awards are open to commercial and residential projects within Australia and New Zealand. In addition, a concept category is in place to embrace creative thinking for solid surface outside of "real life" projects. [Learn more...](#)
