OCHRE LIVING

The Ochre Living Outdoor Fireplace is the ideal solution for Aussie outdoor living.

This stunning focal point for any garden is available in 3 sizes and is delivered in a complete packaged solution.

The natural volcanic pumice (sourced from the Hekla Volcano in Iceland) gives this outdoor fireplace all the insulation needed to have a safe and spectacular centre-piece in any outdoor living area. The relatively small footprint also means that it can be placed against any wall, even in small outdoor living areas, where space is at a premium.

The kit includes chimney blocks, jointing adhesive for assembly, firebricks, firebrick mortar and also an external render to either seal the joints or give an entire rendered finish.

The Ossa comes with a log retainer and barbecue grill (additional log stores are available). The Hotham and Perisher can have optional log stores included to increase the fire chest height above ground level, whilst making a grand statement piece.

This makes Ochre Living Fireplaces the only choice for outdoor heating and living, from the leading experts in outdoor living solutions.

LOG RETAINER & BBQ GRILL **FREE** WITH OSSA!

Ossa

This version can function in any size outdoor area as you can have it with or without the side log stores.

The Ossa comes with a FREE Log Retainer and a Grill to allow it to become a superb barbecue, as well as a stunning Ochre Fireplace.

Additional chimney blocks can be added to increase the height.

Opening
510mm w x 540mm h
depth is 440mm

Weight 460kg
1 Pallet Delivery

We recommend a 100mm thick concrete (or similar material) base as the completed build is very heavy and could sink or slant if the base is not strong enough.

This image shows the version with optional Side Log Stores and a decorative render completed by the client.

Hotham

Our most popular model as it's easy to build and fully load bearing, like all the Ochre Fireplaces. Our mid-range model is ideal for all outdoor living spaces and can be freestanding, raised, or built against a wall.

Includes FREE Log Retainer.

Additional chimney blocks can be purchased to increase the height.

Opening
940mm w x 720mm h
depth is 640mm

Weight 960kg
1 Pallet Delivery

We recommend a 100mm thick concrete (or similar material) base as the completed build is very heavy and could sink or slant if the base is not strong enough.

This image shows the version with optional bottom Log Store.

Perisher

Our largest Ochre Fireplace is a spectacular addition to your outdoor living area.

A wide open fireplace built with volcanic pumice, makes this the envy of any outdoors lover.

Includes FREE Log Retainer.

Additional chimney blocks can be purchased to increase the height.

Opening
1180 w x 720mm h
depth is 640mm

Weight 1100kg
2 Pallet Delivery

We recommend a 100mm thick concrete (or similar material) base as the completed build is very heavy and could sink or slant if the base is not strong enough.

This image shows the version with optional bottom Log Store.
