**PAVING - POOL COPING - CLADDING - TILES**

Natural elegance inside & outside the home

Bring the beauty of natural stone into your home and garden. Natural Stone Imports offers a wide range of natural stone solutions from paving and pool coping to cladding and tiles.

# Why Natural Stone?

Natural stone has a unique blend of tones and colours which help bring character and individuality to your home and garden.

Having been forged in nature rather than a factory, your natural materials will not deteriorate.

Natural stone retains its cosmetic properties over time unlike concrete solutions which wear.

When you choose natural stone, you're choosing a beautiful, durable, low maintenance material which will last for decades.

## Benefits of Natural Stone

- Designed by nature to be naturally beautiful
- Low maintenance
- Extremely durable
- Naturally safe with non-slip properties

# Pool Coping with Natural Stone

The non-slip, naturally beautiful accent to any pool

What better way to finish off your new swimming pool than with quality natural stone pool coping.

Pool coping is used to cap the shell wall of the swimming pool. For finishing such an important outdoor feature of your home, we feel that there is nothing quite like the look, feel and properties of natural stone.

When you choose a natural stone pool coping material, you're choosing a practical and cosmetic solution that will last a lifetime. For us and many designers, natural stone is a natural choice.

## OPTIONS AVAILABLE:

**DROPFACE** - An L shaped coper that drops over the edge

**SQUARE EDGE** - Square with a slightly bevelled edge
