

# DESIGN & BUILD HOME RENOVATION SPECIALISTS

Hi and thank you for your recent enquiry,

We value our clients' time and want to make sure you get the most out of your experience. To aid with this process we've covered off a few things below to help you prepare, prior to us coming out to see you and your proposed project.

## ABOUT US

I'm Anthony Bown, owner of Smith & Sons Port Hills. I'm a Licensed Building Practitioner and Registered Master Builder. I live in Christchurch with my wife and our teenage daughters who keep us busy. I'm a keen mountain biker and enjoy time outdoors and with the family at the ski fields.

Having worked in Christchurch for many years I've gained experience in all kinds of challenging projects, from historic home renovations to steep hillside builds, extensive earthquake repairs and even adding second storeys. My approach is holistic and I aim to deliver a project that creates highly liveable spaces whilst being sympathetic to the existing style and structure of your home.

I look forward to discussing your project. It would be great if you could have a rough budget and some ideas, needs, and wants jotted down as a starting point.

## WHAT WE DO

Smith & Sons Port Hills are your local and licensed builders who specialise in home renovations and extensions. We provide you with an easy, all in one service utilising our three step process, guiding you through the project right from the design through to the planning and construction.

**STAGE 1**  
The first step is the most important. Here we need your budget, ideas, needs, and wants. We can then begin to create a design to suit your requirements, using real costings, and provide advice and guidance as to what you can achieve.

**STAGE 2**  
All the details. At this stage we work closely with you to finalise the architectural and engineer's designs and drawings, plus take care of any building consents, product specifications and final pricing.

**STAGE 3**  
We're building. Your project starts to come to life and we'll keep you abreast of progress and any developments.
