

US.

With an extensive background in property over the past 19 years and a love for Real Estate, Heather is genuinely dedicated to looking after **PEOPLE** whether it is helping sell houses, leading teams to excel in their careers or simply just not taking no for an answer when it comes to getting results. Property is her experience but people are her passion .

Heather once took a group of 20 kids to Australia after being told it couldn't happen.

But that was her musical career...

She will always find a way x

Hailing from Canada, 20+ years ago Christina had to find her way in a new country and make herself a home in New Zealand.

With a background in service, banking and interiors - Real Estate just makes sense.

Christina's strength lies in building relationships and really listening to her customers stories. She is passionate about building communities and giving back and will be looking forward to expanding those passions within **The Property Shop** team.
