

Mentored by top Australian ceramic artist Cher Shackleton from 2015, Rosie fell in love with the artform and creative process.

Each stoneware pot has been lovingly handmade in her shed in Fremantle.

All the functional crockery is foodsafe, however please don't use it on stovetops or open flames. Stoneware is microwave and dishwasher safe.

When not creating in her ceramic studio, Rosie is immersed in her happy place; exploring the local underwater world - an admirer of crabs, rays and octopi.

Rosie making a 50cm tall coil piece in her tiny pottery studio - 2019
