

Control your place with

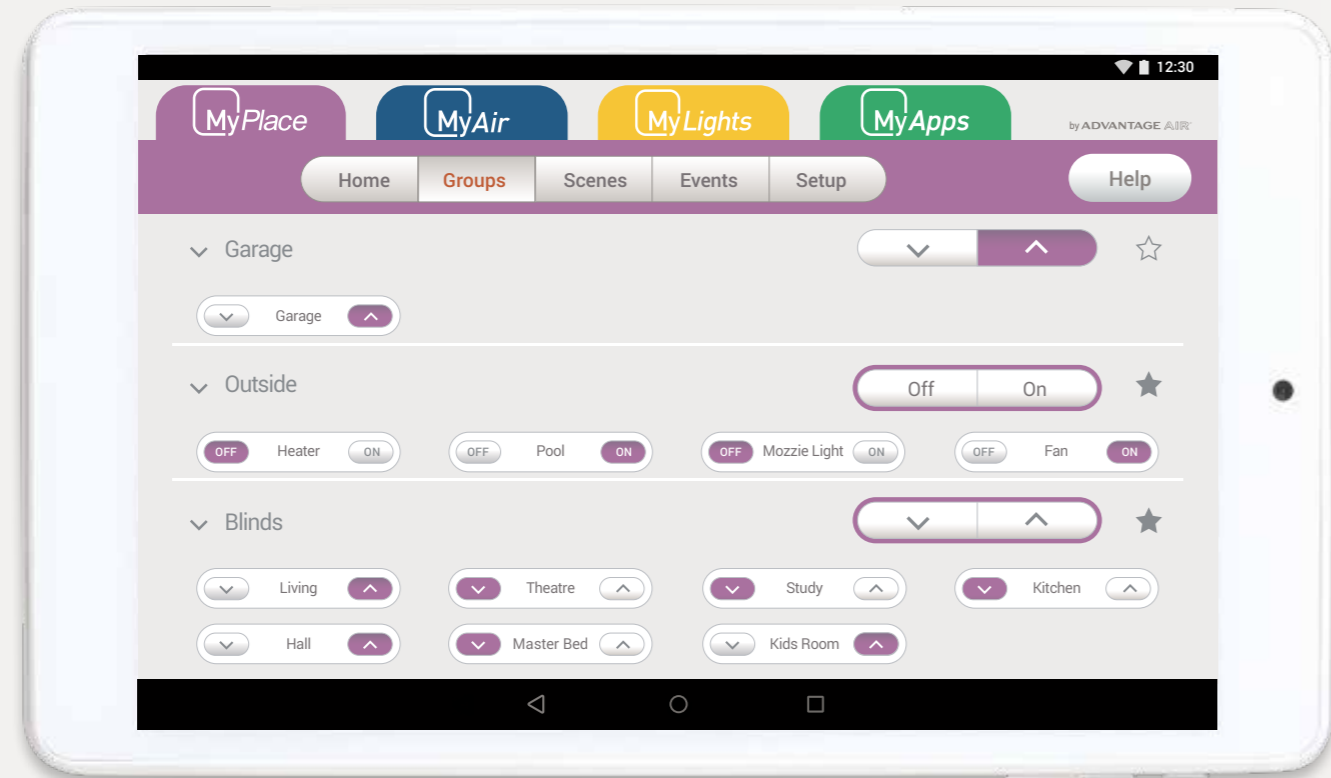

The useful smart home system

ADVANTAGE AIR®

MyPlace transforms your home into a smart home

CONTROL YOUR PLACE WITH MYPLACE

MyPlace makes smart home technology simple. A reliable, easy-to-use integrated system which gives you peace of mind when you're away from home and comfort while you're at home.

WORKS WITH EXISTING PRODUCTS

MyPlace makes smart technology affordable by working with existing items in your home, such as lights, fans, some motorised blinds and garage doors. It comes in modular form, allowing you to add more now or later.

MYPLACE IS YOUR HOME HUB

Your MyPlace Android touchscreen allows you to control your home through one simple integrated system, and day-to-day family life through one dedicated tablet. Being hardwired to the wall, it never needs recharging and never goes missing.

MYPLACE APP FOR ADDITIONAL CONTROL

With the MyPlace app, you can control your products from the couch, from work or from the other side of the world. It works with most smartphones and tablets and turns them into additional remote controls.

EASY TO INSTALL

There's no need for expensive specialist cabling. MyPlace connects to your existing wiring, making it easy for your electrician to install in new or existing homes.

AUSTRALIAN MADE

MyPlace is made by Advantage Air - an Australian-owned company committed to designing and manufacturing in Australia, where possible. From R&D to after sales support, we're here to ensure you get the most out of your smart home system.

Home smart home

MyPlace uses technology to make home even sweeter. It's engineered to deliver real functionality that makes everyday life easier. Here are some of the useful ways it can make you more comfortable, safe and more secure.

With MyPlace, there are many products that can be controlled, so the choice is yours. Get in touch with us or visit our display centre for no pressure advice and to discuss what you would like to control. Bring in your house plans for a free, no obligation smart home design.

ADD MYGARAGE AND ALWAYS LOCK UP

When you're in a rush, it's easy to forget to close the garage door. If it's been left open, MyPlace sends a notification to your smart device. You can then use the MyPlace app to close it with one simple tap.

FEEL SECURE

Tap MyWelcome on the MyPlace app to turn on your lights before you get home.

COME HOME TO COMFORT

It takes time for air-conditioning to effectively cool or warm a house. By using MyPlace to turn it on before you get home, you always arrive home to your preferred temperature.

MAKE THE OUTDOORS EVEN GREATER

Entertaining alfresco? MyPlace helps you show off your place to its best. With the MyPlace app, you can use your phone to turn on the mozzie light, ceiling fan or outdoor lighting.

HOLIDAY INSURANCE

With MyPlace, your home always looks occupied. By controlling the lights and blinds, you can make it look like you're home, even when you're on the other side of the world.

MyMonitor

MyMonitor Control Module can sense changes in motion, temperature and light, giving you more control than ever over your home.

MyMonitor enhances your existing **MyAir** or **MyPlace** "Scenes" and "Events" features by adding new conditions, these are easily setup through the apps, with no special home automation programming needed.

MyMonitor will let you know when your family is home; so if you're running a little bit behind time you don't need to worry.

Or imagine your home giving you a warm welcome after work, with lights coming on, air-conditioning at the perfect temperature and your favourite music playing.

With the ability to set up to 20 "Events" the uses are limited only by your imagination.

Why MyPlace is smart thinking

FUTURE FOCUSED

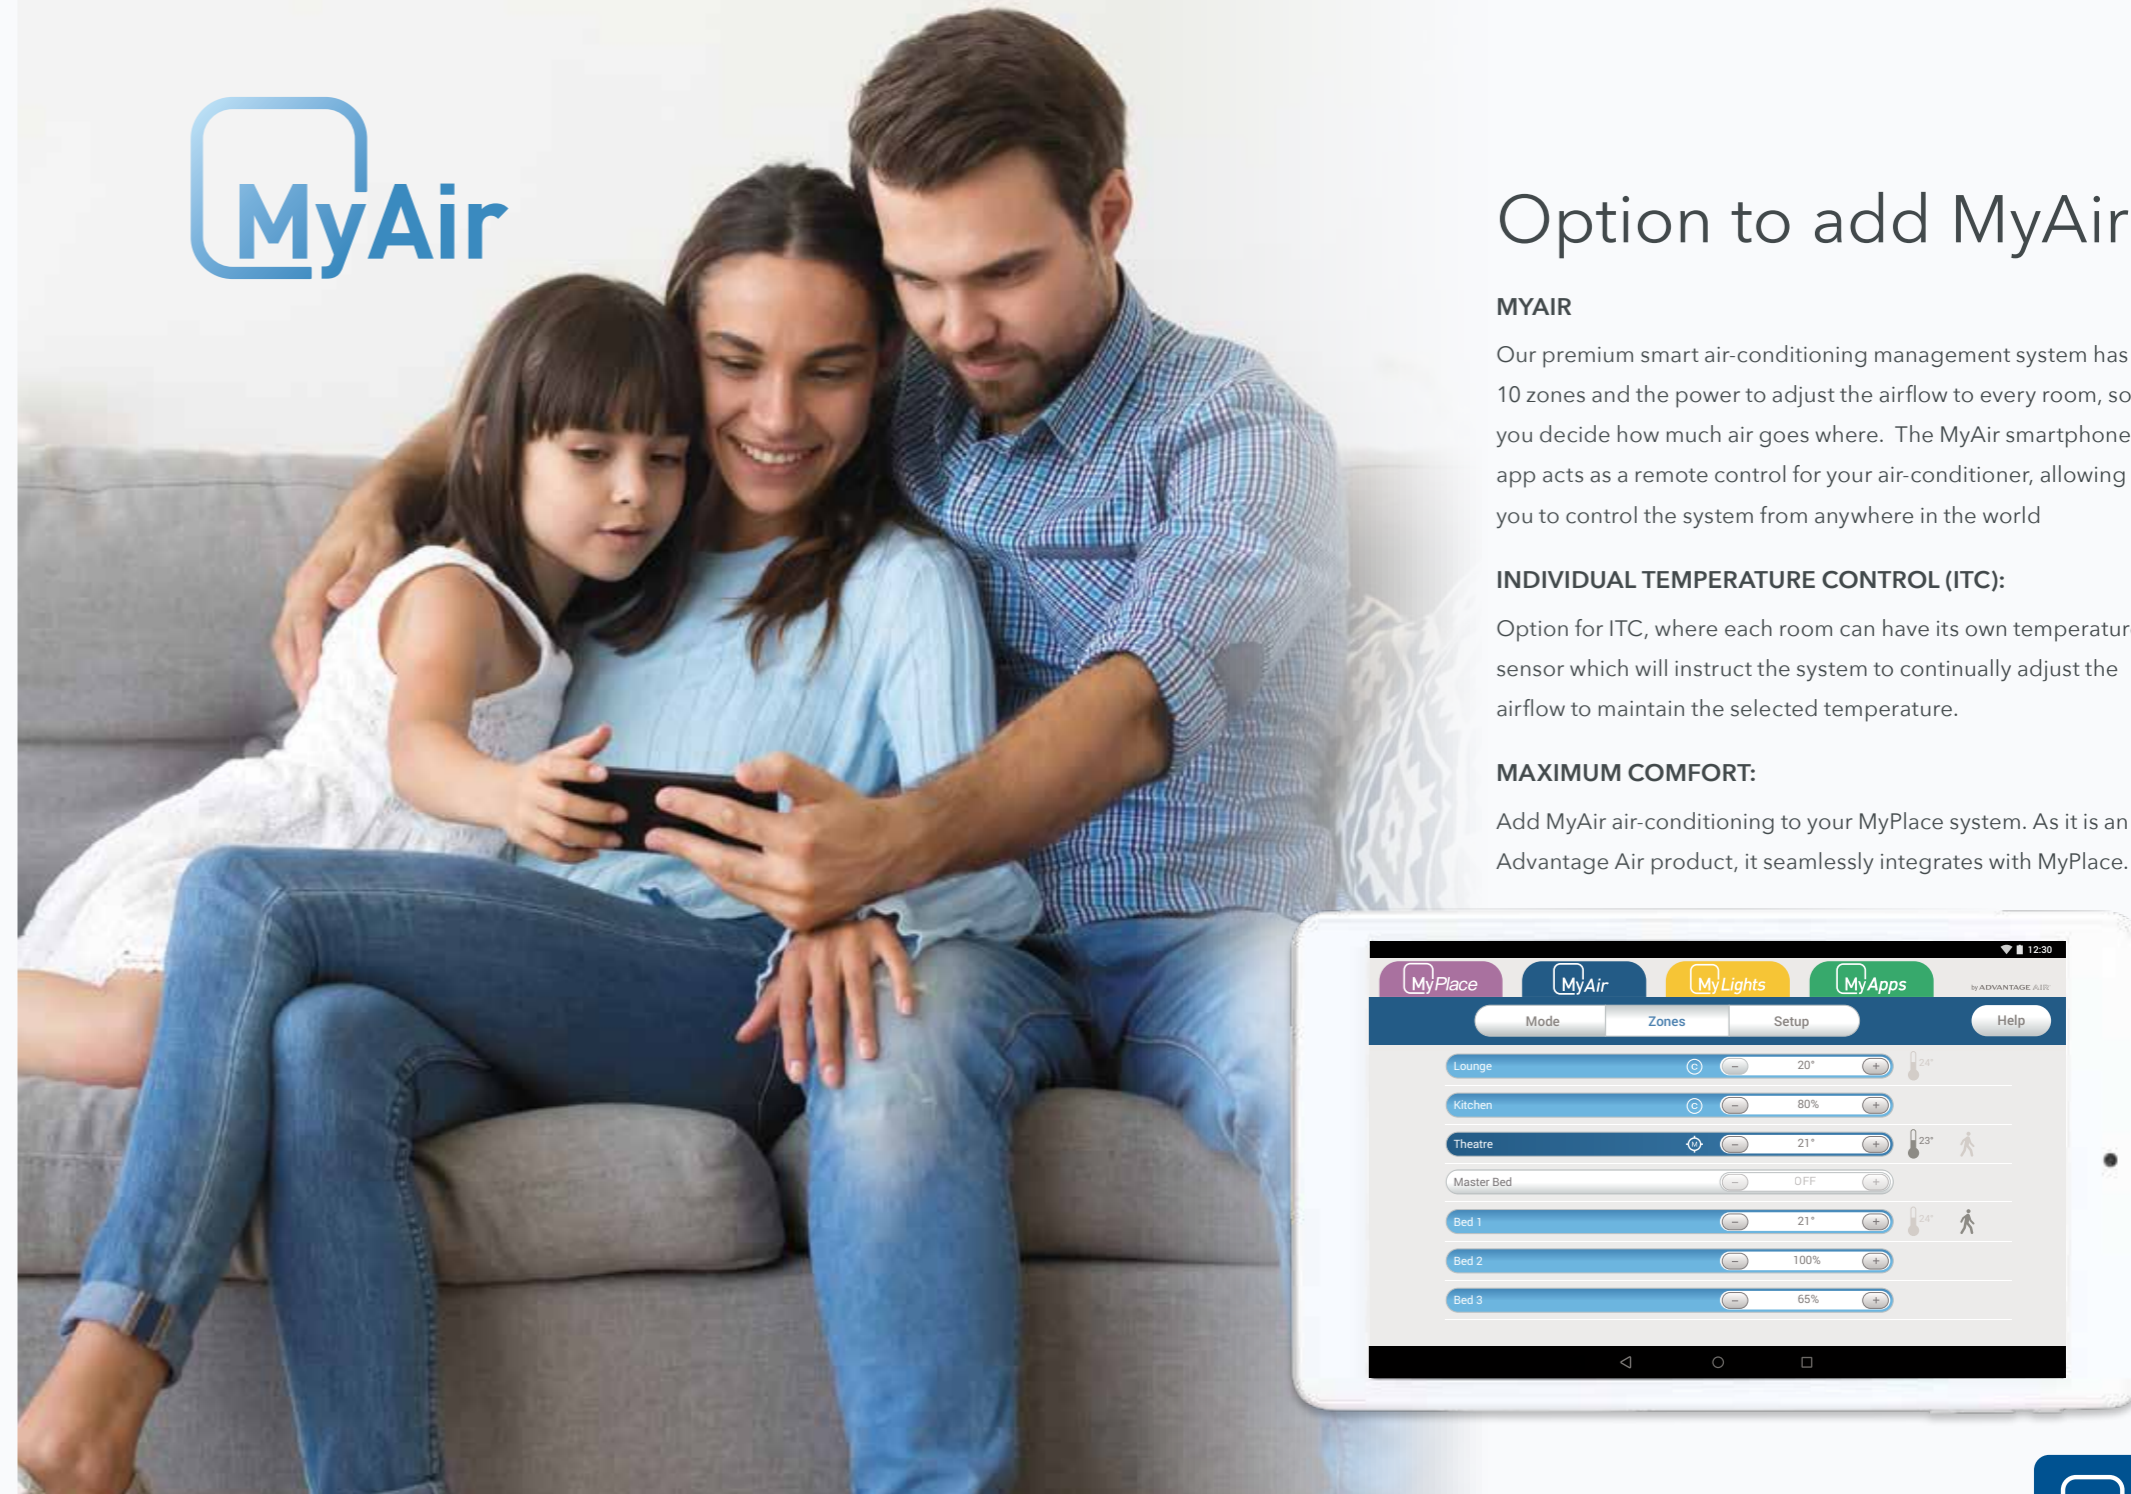

Tomorrow's technology is still being invented. MyPlace has been engineered with the flexibility to add more products in the future with our modular design.

ADDS VALUE

Smart home technology is fast becoming a must-have. By installing MyPlace now, you get to enjoy the comfort and control of living in a smart home. And if you decide to sell, your home is even more appealing to buyers.

AFFORDABLE

We designed MyPlace to work with your existing wiring and control your existing products, making MyPlace an affordable smart home system that is an investment in your home.

Option to add MyAir

MYAIR

Our premium smart air-conditioning management system has 10 zones and the power to adjust the airflow to every room, so you decide how much air goes where. The MyAir smartphone app acts as a remote control for your air-conditioner, allowing you to control the system from anywhere in the world

INDIVIDUAL TEMPERATURE CONTROL (ITC):

Option for ITC, where each room can have its own temperature sensor which will instruct the system to continually adjust the airflow to maintain the selected temperature.

MAXIMUM COMFORT:

Add MyAir air-conditioning to your MyPlace system. As it is an Advantage Air product, it seamlessly integrates with MyPlace.

Our humans make MyPlace the smartest home system

MyPlace comes with a very helpful feature - humans. And not just ordinary humans, extraordinary humans.

Why do we call ourselves the humans of smart home systems? Because our company is founded on the basis of employing exceptional people, who are then valued and respected by the company. In return, they treat you the same way - like a human. Our friendly, patient humans move at a pace you are

comfortable with and will help you until you are satisfied. Even if all we did was provide you with some helpful advice, we see that as a success.

We know it's only human to want help mastering new things, like smart home technology, so MyTeam are here to help you navigate through this. You can call on MyTeam as often as you need - before, during and after purchase.

Dan
MyTeam Member

“Mondays are my favourite day. I talk to people as humans and don't leave until they are happy.”

The advantage of Australian-made

MyPlace is designed by Advantage Air, a family-owned Australian company that started out designing and manufacturing innovative ducted air-conditioning. In the last 20 years we have focussed more specifically on smart electronic control systems, including MyPlace.

In this time we have earned a reputation for producing reliable, world-class products that make daily life easier and more comfortable. We take pride in designing and creating an Australian product that is world class. To achieve this, we embrace technology and invest heavily in research and development.

Our ingenious engineers have developed numerous industry firsts and earned us a number of patents, registered designs and design awards in the process. We are committed to quality and where possible, make our components in Australia.

Our consumer support centre is also based in Australia, so you'll always receive friendly, local support when you contact MyTeam.

Consumer support

At Advantage Air we are committed to the quality and user experience of our products, which is why we have our own consumer support centre. Whether it is to step you through an app update, assist with getting your MyPlace and your WiFi talking to each other, or just to go over how to get the most out of your system, we are here to help. You can take comfort in the fact that it is staffed internally, not outsourced, assuring the quality of advice and service you will receive.

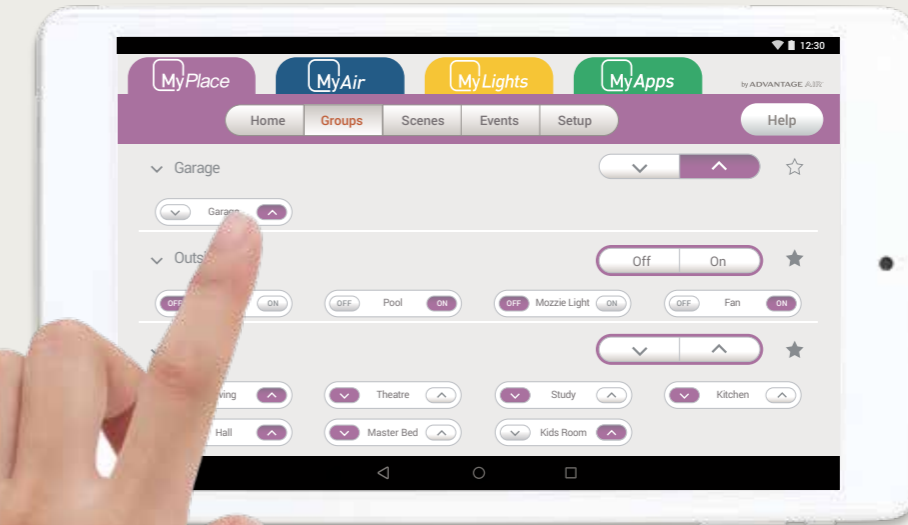

Note: Although most apps and routers work with our touchscreens there will be some that are not compatible. Please let us know if you have issues so that we can assist where possible.

Peace of mind warranty

Advantage Air components are well known in the industry for their quality and durability. To prove our confidence, we provide a 2-year warranty on all electronic controls.

Wall mounted touchscreen

Advantage Air touchscreens are manufactured with a static Android version, therefore standard Android operating system updates are not available. Only critical Android updates will be allowed.

Compatibility

For details on compatible phones and devices please visit our website; www.advantageair.com.au/support

Activation code

MyPlace has an activation feature. A code may be required from your installer to activate your system after 21 days.
