Abundance Unlimited

abundance_unlimited

Abundance Unlimited, founded by sisters Kelly and Nicole, brings over 40 years of combined experience as Remedial Massage Therapists to the forefront. Driven by a shared passion to facilitate improved movement, enhanced well-being, and an overall positive mindset, they established Abundance Unlimited to create a ripple effect of wellness.

Initially rooted in their own clinics, the journey from therapists to product developers was a natural progression driven by the desire to elevate client experiences.

The overwhelmingly positive response to their creations prompted a broader outreach to share their products with therapists and the wider community.

The core philosophy of Abundance Unlimited revolves around encouraging clients, therapists and customers to 'think about what they are thinking about.'
