FOR THE SERIOUS

BREWER AT HOME

**BREW YOUR OWN WORLD CLASS
BEER OR CIDER FOR FAMILY AND
FRIENDS**

AVAILABLE AT

Harvey Norman®

“I love my new 25 litre Brew Kit. Made the first brew, a nice simple Premium Lager. The true pleasure I got from spending 2 hours mowing lawns, then walking into my mancave and pouring myself a frosty pint of premium lager that I helped to create was beyond words. Almost a spiritual experience. ”

Our Brewkeg™ Range

Each Brewkeg™ can produce either 12.5, 25 or 50 litres of beer or cider in 5-7 days with no formal training required. With only 20-30 minutes of work required per week anyone can produce premium beer or cider at significantly less than the cost of commercially equivalent beverages. Brew and dispense from the Brewkeg™ or transfer with WilliamsWarn accessories to corny kegs, growlers or bottles. This means you can immediately start a fresh brew, then by the time you have finished drinking your corny keg your next brew is sitting and waiting for you.

The WilliamsWarn Ingredients

High quality ingredients developed for the WilliamsWarn product range are sourced from the very best suppliers in NZ and around the world. The ingredients deliver the base for almost unlimited creativity to custom brew whatever you enjoy drinking.
