V E R T I C A L

Proudly Australian owned with a passion for providing our clients the best vertical garden solutions.

In 2012 we created our patented vertical garden system. All products are manufactured in Victoria using the latest technology and experts in the industry.

Our greenhouse has over 30,000 plants growing at different cycles to ensure your plants are healthy and matured from day one of the installation.

Since our inception we have installed thousands of vertical gardens across Australia, establishing a nation-wide presence as a premier vertical garden specialist company.

Currently we have more than 1,000 vertical gardens that we regularly maintain across Australia from commercial, corporate and domestic clients.

ABOUT US

END TO END SERVICE

INSTALLATION

Our dedicated installation team knows the ins and outs of our system to ensure you get the best outcome with your new vertical garden installation. Our commercial vertical gardens are installed with an automated irrigation system which is based on the type of plants used and the size of the vertical garden.

MAINTENANCE

Ongoing maintenance is recommended to keep the garden looking great all year round. We have different maintenance packages depending on the level of maintenance you require.

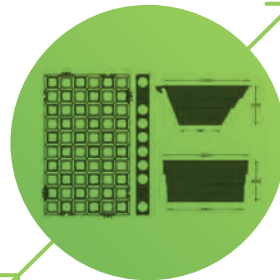

PLANT GROWING

We have our own purpose built greenhouse in Victoria where we have more than 30,000 plants growing in our patented vertical garden pots to ensure the plants are healthy and fully mature from day one of installation.

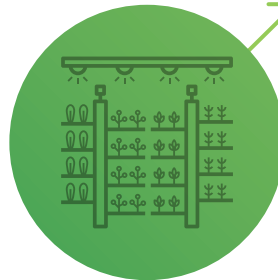

MANUFACTURE

We manufacture our own products in Victoria to maintain the highest quality control. Our Vertical gardens consist of a pot and frame system, which facilitates the health of the plants and ease of installation.

DESIGN

Bring your vision to reality from our six design options to ensure we get the right solution for your space.

Important things to know

- 60 varieties of plants we know work within our vertical garden pots broken into categories of: Full sun, Part shade, Full shade, Indoor.
- Our patent vertical garden pot and frame system comes with a 25-year **REPLACEMENT GARANTTEE** (Best warranty in the industry)
- Plants purchased through us come with a 3-month replacement warranty.
- Complimentary maintenance visit booked after 1 month of your vertical garden being installed.

OUR COMMITMENT TO YOU:

- **AFTER CARE GUIDE** provided to you after your vertical garden is installed to ensure you have all the right information you need to know about your new vertical garden.
- **PLANT design** process occurs upon acceptance to ensure you get the exact look you're after. (PDF brochure supplied to you of all different plant designs to choose from)
- **PLANTS are fully mature** from day one of the installation to ensure you get an instant garden.
- Automated irrigation is strongly recommended for vertical gardens over 50 plants in size.

Step 1 -Vertical Frame installation

Step 2 Plants hook into frame

Step 3 finished product from day 1.
