# WHY NATURAL STONE?

## LOW MAINTENANCE

When properly sealed, natural stone is very low maintenance. A gentle waterblast should be done when required.

## DURABLE & LONG LASTING

With it's high integral strength and density, natural stone is an incredibly durable and long lasting option.

## UNIQUE LOOK

Natural stone has a unique blend of tones, colours and shapes to bring character and individuality to your home and garden.

## VERSATILITY

Natural stone can be used for a range of applications both indoors and outdoors making it very versatile.

# POOL COPING

Pool coping is used to cap the shell wall of the swimming pool. For finishing such an important feature of your outdoor area, there's nothing quite like the look and feel of natural stone.

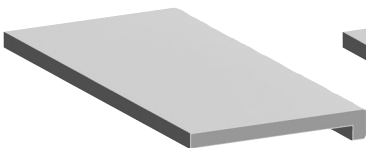

It's non-slip properties and durability make natural stone the ideal option for finishing your pool.

When you choose natural stone, you are choosing a quality, long lasting product with little maintenance required.

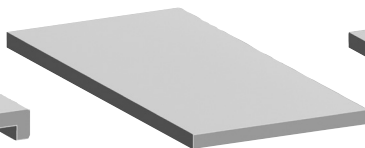

# PROFILE EDGES

We stock three different profile edge options depending on what type of pool you have and what style you are looking to achieve.

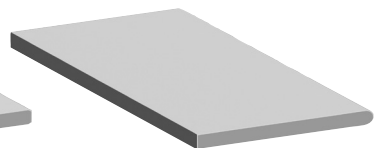

## DROPFACE

An L shaped coper that drops over the edge of the pool giving the impression of a thicker piece of stone.

## SQUARE EDGE

Square with a slightly bevelled edge.

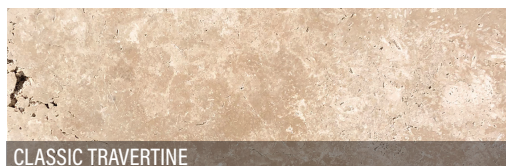

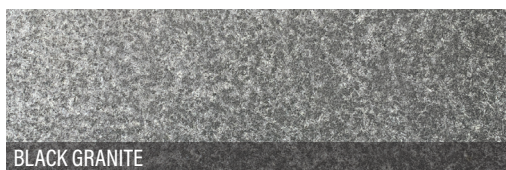

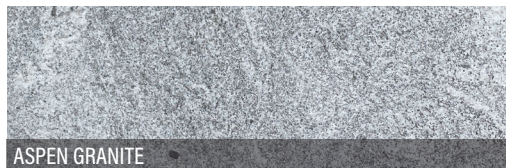

## BULLNOSE

Traditional rounded edge coping.
