Understanding the benefits of DIY

At Tuiss Blinds Online, we believe that transforming your home should be an exciting and empowering experience. That's why we're passionate about shedding light on the myriad benefits of the do-it-yourself (DIY) approach, especially when it comes to window furnishings. From cost savings to a sense of accomplishment, DIY isn't just about crafting; it's about reclaiming control over your home decor journey.

In terms of home interiors, window furnishings play a pivotal role in both aesthetics and functionality. However, the thought of measuring, ordering, and installing blinds or curtains can often seem daunting, leading many to opt for costly professional services.

But what if we told you that you can achieve the same impeccable results without breaking the bank or sacrificing quality? Welcome to the world of DIY with Tuiss – where convenience, affordability, and superior craftsmanship are in everything we do.

Let's debunk a common misconception right off the bat: DIY doesn't mean compromising on quality. Our extensive range of made-to-measure window solutions boasts the same premium quality materials and attention to detail as those installed by professionals. The key difference? You get to enjoy significant cost savings by bypassing the need for expensive installation services.

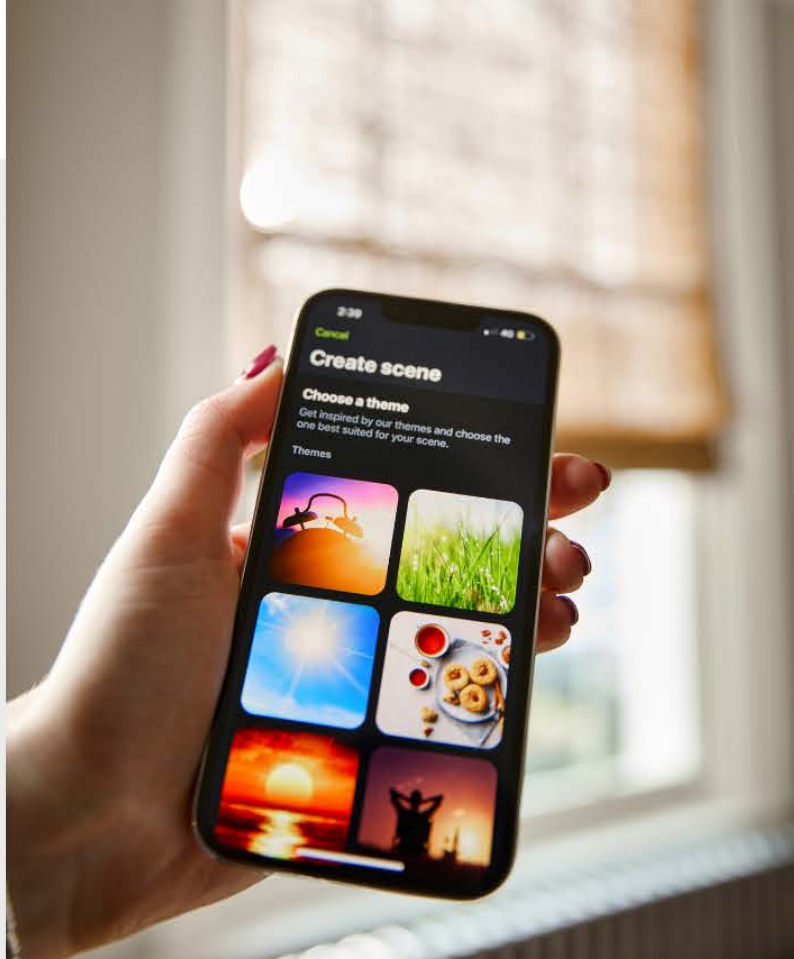

Say goodbye to costly installation fees and hello to the freedom and flexibility of DIY home improvement. With Tuiss Blinds Online, achieving the perfect window furnishings has never been easier or more affordable. Your dream home awaits, and we're here to help you bring it to life, one DIY project at a time.

Automate your blinds with Tuiss SmartView

Smart homes are the way of the future, and now thanks to our Tuiss SmartView app, you can automate your motorised Tuiss blinds for effortless convenience.

With this brand-new app that we've designed, you can easily set schedules for your blinds to open or close at specific times, giving you the ultimate control over your window furnishings.

Whether you're a working professional who gets up as the sun rises, or a parent who wants to wake their children without having to go in to their room to open their blinds, or a traveller who wants to set routines to make it seem like someone is home – the Tuiss SmartView app has got you covered.

You can set wake-up schedules to gently rouse you from sleep with the sun shining through your windows. And when it's evening, the app can help you wind down by automatically closing your blinds.

But the SmartView app isn't just about convenience – it's also about security. By using the app to set schedules for your blinds, you can give the impression that someone is home even when you're away, deterring potential burglars.

The SmartView blinds are battery-powered and do not require any wiring, as they're designed specifically for easy DIY. This means they are incredibly easy to install. The built-in Lithium-Ion batteries when fully charged, can last around 6 months before needing a recharge. This does depend on the size of the blind, the number of daily timers and the frequency of use.

While you'll need an internet connection to use certain functions within the app, like loading account settings and creating scenes or timers, once the timers are created and synchronized, they are stored in the motor's memory and can function autonomously without an internet connection.

To pair your blinds with the app on your device, scan the QR code that comes attached to the motor. Then follow a few on-screen steps to create a name for the blind and assign any settings you like.

Discover the easiest blinds you'll ever install – no drills required!

Our groundbreaking Easi-Fit collection of no drill blinds is an absolute game-changer for DIY enthusiasts! Our innovative Twist2Fit and Click2Fit systems have been designed to revolutionise installation. Say goodbye to the hassle of installing traditional blinds. These blinds lock into place swiftly, ensuring a rock-solid setup that won't budge an inch. We've crafted a tool-free headrail system that fits your recess window flawlessly and makes your life a whole lot easier!

Easi-Fit blinds are the ultimate solution for modern home decor. Perfect for rentals and walls where you'd prefer to keep a light touch, these blinds redefine simplicity.

So, what exactly are Easi-Fit blinds? They seamlessly merge functionality with style. Installing them is a breeze – no drills needed! With a simple click or twist, the headrail locks into place, offering a palette of beautiful colours and fabrics for every room.

Ideal for rental properties and anyone who might not be confident using a drill, our blinds are strong and durable, meaning your window coverings won't move an inch, and the complete installation is almost entirely drill-free*. From plains to patterns, colours to textures, our range caters to every room and style, combining practicality with chic design.

Stylish, practical, and suited for any space, these hassle-free blinds are a time-saving gem in any modern home makeover project. Get ready to transform your space without breaking a sweat!

*While installing the Click2Fit headrail and Twist2Fit roller is an entirely drill-free process, child-safety clips for chains on certain styles will need to be affixed to the wall and may require tools.

Note that styles such as motorised roman Click2Fit blinds are 100% drill-free as they don't feature a manual chain control.

Save money with energy efficient solutions

It's no secret that the cost of living is on the rise. So, we're all looking for ways that we can save money around the home. What you may not have considered is installing energy efficient window furnishings to save you money.

Now you might be asking, how can choosing the right curtains or blinds save you money on your power bills? Well, did you know that up to 40% of a home's heating energy can be lost and up to 87% of its heat gained through windows*? That means without proper window shading, you'll be running your heaters much more in winter, and needing the air conditioner going much more often in summer.

Basically, a single pane of bare glass can gain or lose up to 10 times more heat than the same sized area of uninsulated wall**. So, what can you do about this? Window furnishings can play a major role in how well-insulated and energy efficient your home is.

From the ultimate energy saving Double Honeycomb Blinds, through to solid timber Plantation Shutters, Outdoor Blinds, as well as layering Blockout Romans Blinds and Curtains, we have a range of innovative solutions to suit your home. Discover our full range on our website today, or feel free to have a chat with our customer service team to explore what would best suit your needs.

Roller Blinds

Stylish, made-to-measure DIY roller blinds in a range that spans plain shades and vibrant hues to elegant designs and patterns, ensuring there's something to suit every home.

From \$22

Sunscreen Blinds

Our amazing Sunscreen Roller Blinds are designed to allow ample light into your home while shielding you from glare and harmful UV rays. Perfect for offering daytime privacy without losing your view.

From \$25

Double Roller Blinds

Enjoy the best of both worlds with a blackout roller and a sunscreen on a single mechanism. These day and night double roller blinds are there to keep the sun at bay and ensure perfect privacy at all times.

From \$50

Honeycomb Blinds

Energy saving blinds designed to help keep your home cool in summer and warm in winter. Honeycomb blinds are designed to trap the air inside the pleated pockets to create a thermal barrier at your window.
From \$44

Outdoor Blinds

Enjoy alfresco living all year round with blinds to shield you from strong UV rays, wind, rain and heat, or utilise outdoor window blinds to stop the heat before it enters your home. Explore patio blinds, automatic sunblinds, pivot arm awnings and more.
From \$183

Plantation Shutters

Timeless shutters available in solid Paulownia timber or advanced polymer. Choose from traditional styles, frameless Easi-Fit or flatpack Kit shutters. All made to measure and designed for easy DIY, like everything in the Tuiss range.

From \$99

Zebra Blinds

A double-layered, continuous roller, Zebra blinds allow you to align the sheer and opaque strips in any way you want. That means you can enjoy the view, bask in the sunlight or enjoy your privacy - all with a single blind.

From \$88

Roman Blinds

Add a look of luxury to your home that very few other blinds can match with perfect folds time after time. With a huge range of fabrics to choose from, you can also customise your blind with different lining options to suit your needs.

From \$47

Privacy Sheers

Cleverly designed vertical louvres that combine delicate voile and opaque fabric. A perfect choice for large windows and patio doors. Mix elegance with practicality.

from \$100

Venetian Blinds

Beautiful real and faux wooden venetian blinds create a classic and elegant look in any home. The range also includes contemporary aluminium venetians that are more slimline than the timber styles. Both ranges are available in a wide selection of colours to suit every home.

Aluminium from \$20 / Timber style from \$52

Panel Glide Blinds

Ideal for large windows or sliding doors, these blinds glide into place easily, and are a great alternative to vertical blinds. Choose from light filtering or blackout fabrics in a great range of colours.

From \$64

Vertical Blinds

Stylish and smart, our modern made to measure vertical blinds collection is designed to cover large windows or patio doors whilst maintaining a contemporary flair that will look fabulous in any interior.

From \$35

BiFold Blinds

Neat, tidy and no need for tools. Our made to measure ClickFIT blinds clip into the uPVC frame of your bifold doors without drilling any holes. The pleated fabric looks great and traps heat to offer thermal protection for your room.

From \$43

S-Fold Curtains

Our s-fold curtains are simple, sophisticated and stylish. With their very own track included, you can enjoy gentle waves and a neat, uniform finish perfect for the modern home.

From \$51

Classic Curtains

Whether you're looking for eyelet, double pinch pleat or pencil pleat headings, our classic curtains are available in luxurious fabrics with linings to shade every space perfectly and in an incredible variety of colours, materials, and designer patterns.

From \$30
