## Australian Owned & Manufactured

We are a true blue Aussie business founded to provide Australians with a more affordable and sustainable way to access clean and safe water throughout the whole home. Actively researching and developing new filtration media in Australia for Australian homes.

## Australia's Most Awarded

Winners of the 2022 Telstra Best of Business awards at the state and national level, Deloitte Fast 50 Technology award, RISE Business awards, and more.

## Nationally Recognised 5-Star Service

With positive reviews and excellent feedback from our customers flowing in daily, we can confidently say we deliver unmatched service.

## Home & Asset Protection

Protect and extend the life of plumbing, fixtures and fittings along with all water-using household appliances.

## Cutting-Edge **GREEN** Technology

Reduce the amount of plastics going to landfill by eliminating your reliance on bottled water. The system also eliminates the need for heavy duty cleaning chemicals in wet areas, reducing the pollution of our water basin from chemical run-off.

## Professional, Highly Skilled Team

All of our installs are carried out by a team of top quality Licensed Plumbers. With over 15 years of experience leading Australia's residential water filtration market, Complete Home Filtration brings unrivalled expertise to every installation.

### INSTALLATION EXAMPLES

The water tastes like pure rainwater. What a relief!!  
Also, I am very relieved that I am now bathing in soft pure water.  
My skin and hair feels soft and healthy

Vanya Mansell

I love our Complete Home water filtration system.  
It's so nice just to drink water from the kitchen tap  
without wincing from the taste of chlorine.

Nikki Roberts

100% recommend CHF if you are concerned,  
not only for your health but also your entire home!  
I didn't realise how damaging our water is, or should I say WAS,  
on appliances and water pipes!!

Libby Hine

My skin issues (dryness, eczema, itchiness)  
which I previously thought was due to dairy products have  
cleared up completely ever since showering in the filtered water.

Thomas Lew

Best thing we ever done, so amazed how much chlorine  
was actually in normal household water, now it taste so much  
better and shower has no more calcium build up, a must get.
