

Neo is the Responsible Maker of Australian Ayurvedic Herbal Teas & Skincare, locally made in Sydney's lower north shore. Neo was instigated by Founder Mona Webb, a former mechanical engineer... Mona worked and specialised as an engineer in the petrochemical industry prior to starting up Neo. "I discovered working within this discipline and industry, that it impacted on so much we use on our skin and eat everyday, there is so much in the world that is chemically processed and as a result has a negative impact on nature, the environment and humanity". Later, armed with an Ayurvedic degree as well, Mona founded Neo - Organic Tea & Skin solutions that help people feel better everyday. Neo Ayurvedic Teas and Skincare are Australian Made with ACO certified organic ingredients that are free from bulking agents, preservatives and flavouring.

Neo Herbal Tea Infusions are blended according to ancient Indian Ayurvedic recipes which are based on the selection of pure, organic herbs that support the natural processes in the body. Our herbal teas are free of caffeine, pesticides, bulking agents and chemicals. They have been naturally dried to ensure maximum retention of potency and flavour.

Neo's Skincare fully complements our herbal tea range. Responsibly made with Organic and Pure ingredients and packaged in eco friendly, yet modern packaging, perfectly designed for various skin types.

### We Give Back

Since day one of starting Neo, it was always decided to contribute back in one way or the other to earth, environment & humanity. Donations of Neo product or funds (eg during the 2019 Australian Bushfires) have always naturally occurred in our business but an important and long lasting donation has always been made to Food For Life Charity. We donate a percentage of our profits annually to Food for Life Charity and also try to participate by donating prizes to local charity groups where possible.

Due to the added benefit of having worked in the petrochemical sphere, we understand the importance of climate change, the impact of Neo's carbon footprint no matter how minimal, our good governance and social responsibilities, hence our products are packaged in recycled glass, compostable plant based materials as well as biodegradable bags and more. In Sydney we are a proud member of the BBP program run by 3 joint lower north shore councils and watch out for our vision to become B Corp Certified.

Neo helps you feel better everyday.®
