"The best night's sleep in years. We can set the beds to our liking without disturbing each other. I have not had to use my sleep apnea machine since sleeping in this bed and adjusted to a slightly sitting position" Edward, WA

"We are both extremely satisfied with the mattress. The first night was getting used to a different sleeping position but we have not had creaky sore backs in the morning since we have slept in it. We went from doubtful to believers overnight and certainly not so tired in the mornings" – Atkinson, NZ
