HOW IT WORKS!

GUIDE WIRE

MOWING CYCLE

- The concept is to keep short grass short.
- Husqvarna Automower® finds the charging station automatically.
- Charges for approximately 60 minutes.
- Resumes mowing, day in and day out, rain or shine.

RECHARGING

When it's time to recharge, the mower finds the charger by using one of three methods:

- Picking up a signal from the charging station antenna.
- Following the guide wire back to the charging station.
- Following the boundary wire until its within reach of the home signal.

WHEN IT'S TIME TO
TAKE YOUR GARDEN TO
THE NEXT LEVEL, VISIT
HUSQVARNA.COM

IRREGULAR MOVEMENT PATTERN

- No need for specific programming.
- Covers all parts even if lawn is complex and/or contains trees, flowerbeds, passages etc.
- Allows the grass to be cut from different directions creating a smooth carpet like surface.

BOUNDARY WIRE

**ADVANCED
NAVIGATION**

**RECHARGES
