

Valiryo Body Dryer: combining luxury and sustainability like never before.

VALIRYO is a highly efficient full-body drying device that revolutionizes the way we dry ourselves. By replacing the conventional towel with a skin-friendly, eco-friendly, hygienic and highly pleasant air stream, VALIRYO reduces the need of towels to an absolute minimum. Less use of towels means less water and energy wasted.

Good for **you**...

HOTELS

Luxury and comfort make the difference.

SPAS

The missing piece in the wellness puzzle.

GYMS

A unique selling point.

PRIVATE HOUSEHOLDS

Enhancing your everyday life.

CARE HOMES & HOSPITALS

Making life a bit easier again.

PARTNERSHIPS

A new and one-of-a-kind accessory.

...and **our planet**.

water savings

electricity savings

cost savings

CO₂ savings

Here's what makes the Valiryo Body Dryer so special:

- 1 FULLY WATER RESISTANT**
Valiryo is fully waterproof and can therefore be installed directly inside your shower cabin.
- 2 EFFICIENT ELECTRICAL POWER UNIT**
The air stream is provided by a powerful yet highly efficient electrical engine located at the top of the dryer.
- 3 MOTION SENSOR**
Valiryo optionally turns on when it recognizes you and shuts off once you leave, respectively, providing full autonomy.
- 4 S-SHAPE & 27 AIR DIFFUSORS**
Our patented design and technology ensures a smooth, convenient and efficient drying process from head to toe.
- 5 ADJUSTABLE TEMPERATURE & INTENSITY**
Find the combination of temperature and air intensity that satisfies your needs best and save it for further uses.
- 6 NO MAINTENANCE NECESSARY**
Valiryo is not only very easy to install, there is also no need for any regular maintenance, replacement of components or thorough cleaning.
