Simply White

Welcome

Santa Fé has been a market leader in New Zealand for over 22 years, specialising in high-quality, customisable window treatments. We're proud to have installed products in over 200,000 Kiwi homes.

At Santa Fé, we are more than just shutters and blinds; we're a community of over 100 employees across New Zealand. Our people are the heart of our company united by a shared passion for our products, a drive for innovation, and a love for celebrating success while fulfilling your home interior dreams.

We prioritise customer satisfaction and consistently deliver timely, reliable service. Our commitment to continuous improvement and innovation drives us to provide exceptional window treatment solutions that enhance homes throughout New Zealand.

Now under the ownership of Norman® Shutters, the world's largest shutter manufacturer, we benefit from Norman®'s 50 years of manufacturing expertise, extensive global resources and vertically integrated production capabilities.

We are dedicated to offering high-quality, safe and sustainable products with a strong commitment to environmental responsibility, including child safety and responsible forest management. Our extensive product range is distributed nationwide, ensuring that luxurious, tailored solutions are available to all our customers.

While we often highlight our shutters and showcase our fantastic blinds, we understand that behind every installation is a home and a story. We believe in living a life filled with texture, colour, warmth, and memories. Our window treatments not only provide safety and sustainability, but they also use the finest materials to enhance the ambiance and comfort of your home, transforming your living spaces to make every moment more memorable.

Join us in exploring the most customisable window treatments and experience the Santa Fé difference, where our customer focus, dedication and expertise can help bring your home to life.

Marc Siljebrandt
Managing Director

New Zealand's shutter and blind specialists

Santa Fé Shutters offers the most customisable product range in New Zealand, making us the country's shutter and blind specialists.

Whether you're looking to enhance light control, privacy, energy efficiency, or transform your home interior, we have the perfect window treatment solution for you. With over 20 years of experience in designing, crafting, manufacturing and installing custom blinds and shutters, our expert team ensures top-notch quality and service every time.

We are proud to offer a diverse range of products, colours, fabrics, finishes and sizes, providing the most customisable window treatment options to suit any home. From sustainably sourced timber to intricately hand-carved finishes, we are committed to delivering products designed to withstand New Zealand's unique conditions.

Visit our showrooms in Tauranga and Auckland for trusted advice and to explore our products firsthand. Our extensive range is also available at retail outlets and agents nationwide.

Made to last

Our products are meticulously crafted for durability and longevity. To ensure your peace of mind and guarantee the highest quality, we offer an extensive 5-year limited liability warranty on all our products. Experience the assurance of investing in window treatments designed to stand the test of time.

We offer a no-questions-asked guarantee: if your product is defective due to manufacturing faults or factory production errors within our warranty period, we will replace it with a new one at no cost to you. That is our promise to you and a core part of our quality offering.

We care

At Santa Fé, we take great pride in our commitment to safety and environmental stewardship. From product design and material selection to manufacturing, installation, and functionality, the safety of you and your family is our top priority. We ensure that no harmful or toxic substances are used in the production of our products, giving you peace of mind that everything we offer is a safe choice.

Part of the Norman® family

As part of the Norman® family, the world's largest shutter manufacturer, Santa Fé benefits from 50 years of expertise, superior craftsmanship, extensive global resources and vertically integrated production capabilities. Norman®'s patented performance and safety-enhancing components, award-winning product designs, and socially responsible manufacturing processes ensure that Norman® products are built to last and look exceptional in your home.

Their manufacturing facility is highly vertically integrated, producing over 90% of their plastic components in-house to ensure product excellence. Norman® adheres to strict lean production procedures and quality standards, with skilled craftsmen inspecting each product to guarantee precision and perfection.

Norman® are focused on socially responsible processes in manufacturing and forestry. They implement Kaizen for continuous on-site improvements to their operations which helps to enhance quality, streamline workflows and improve energy efficiency.

The art of convenience

Window treatments that use motorised technology to open, close, or adjust are incredibly convenient for the home and hard-to-reach windows. Talk to our team to find out more about automated window treatments and how we can help you choose the best ones for your home.

Motorised Thermacell Blind
Room Darkening
Glacier White

Pros of motorisation

Sought after for their modern convenience and sleek style, window treatments with next-gen motorisation technology offer several key benefits:

Convenience

Motorised window treatments make it easy to control your window coverings without having to physically open or close them. This makes them a great choice for hard-to-reach windows.

Energy efficiency

Motorised window treatments can be programmed to open and close automatically at certain times of the day, maximising natural light while minimising energy costs.

Safety

Motorised window treatments are safer than traditional manual options because they eliminate the need for cords or strings, which can be a choking hazard for young children and pets.

Adjust with a touch

Our motorised window treatments deliver convenient and consistent performance and come with an intuitive remote control, along with quiet, energy-efficient motors. You can also use the smartphone app to adjust your window coverings, even when you're away from home.

Seamless control at your fingertips

For added convenience, users can program up to five channels with multiple shades per channel. Optimise your views or ensure your privacy at a moment's notice with the shortcut keys – simply set any of your favourite shade positions so you can easily transition from one view to another.

Interior Shutters

Add a touch of elegance to your home with our interior shutters. Whether you prefer the timeless charm of Woodlore or the classic sophistication of Normandy, our range of shutters are custom made to fit and are available in an extensive product range for every style, colour, shape, size, function and budget.

Woodlore Shutters
89mm Louvre
Pure White

Woodlore Shutters

Woodlore are our best-selling wood shutter, offering a perfect blend of high quality and cost-effectiveness. Woodlore combines attractive design, exceptional functionality and durability, all at an affordable price.

It's not only environmentally safe, but it also exceeds even the most stringent international safety standards. Furnished with incredible density and strength, Woodlore Shutters are built to last a lifetime.

The Woodlore wood type is stable and robust, and stronger than solid wood shutters, free from any of wood's naturally occurring imperfections and has higher resistance to heat damage compared to PVC or vinyl shutters. The UV inhibitors protect against colour fading and yellowing and its patented polypropylene coating resists staining to ensure long-term performance even in harsh environments.

Woodlore are our best-selling shutter, because of their great quality and value.

Woodlore Plus Shutters
89mm Louvre
Extra White

Woodlore Plus Shutters

Woodlore Plus is a hybrid shutter that's lightweight and very durable. It's tougher, has more colours and is more versatile than ever before.

Woodlore Plus is a wood composite hybrid shutter that uses lightweight yet durable ABS for its louvres, a material often used in high-end endurance applications such as appliances, car parts and helmets. Woodlore Plus combines ABS louvres with structured wood composite frames and rails and is VOC safe and CARB compliant for off-gassing.

Woodlore Plus offers a wide range of colours, sizes and customisation options to fit your personal style. Your design possibilities are endless.

Did you know? ABS is the same durable material used in LEGO bricks.

Normandy Shutters

Sophisticated and unique, Normandy Shutters display wood's distinctive natural beauty and luxury.

Crafted from solid timber sourced from sustainably managed hardwood forests and plantations, Normandy stained shutters are made from Phoenixwood, known for its rich natural grain and high strength-to-weight ratio. All Normandy hardwoods are prescription wood conditioned for long-term stability.

Sustainably sourced from well managed hardwood forests and tree plantations.

For our painted range, enjoy the same exquisite design with the added durability of ABS coated stiles, ensuring a lasting, perfectly smooth, beautiful finish.

Normandy Shutters offer an extensive range of special shapes and customisable options to fit your unique needs. Whether you have arched windows, circular shapes, or any other unique design, our expert team can create custom solutions that enhance the aesthetic appeal of your home.

Ultra Shutters

114mm Louvre
Black Walnut

out more

Ultra Shutters

The ultimate in innovation, craftsmanship, and quality, Ultra Shutters are our most premium wooden shutter.

Ultra Shutters, our premium wooden shutters, epitomise innovation, craftsmanship and quality. They represent over 20 years of expertise, combining our best ideas, designs and materials.

Our most premium shutter made from 100% super-premium selected hardwood.

Made from 100% super-premium hardwood, Ultra Shutters use 30% more wood than Normandy Shutters, making them larger, stronger and more robust.

Enhanced with 30% more paint, they undergo meticulous hand sanding and finishing, resembling the finest heirloom furniture. This attention to detail gives Ultra Shutters contemporary elegance and exceptional refinement, making them our flagship product.

Specialty Shaped
Normandy Shutters
89mm Louvre
Osmo White Matte

Specialty Shaped Shutters

From angles and arches to circles, fan, triangular or sunburst shutters we can customise our specialty shaped shutters to complement any window shape.

Our Shaped Shutters are precisely crafted to ensure an impeccable fit. Whether viewed from inside or outside, they always present a striking and elegant appearance.

Arched windows

Shaped shutters are ideal for arched windows, offering a solution where curtains or blinds may be challenging to fit and often lack aesthetic appeal.

Window features

Use shutters to highlight or accentuate shaped windows to make them a feature in your home.

Reduce heat loss

High up and uniquely shaped windows often lead to significant heat loss in winter. Our custom shutters fit snugly, minimising heat loss for a warmer and more comfortable home.

Interior Sliding Shutters

Patio and sliding doors tend to represent a great challenge in terms of proper covering and window treatment.

We manufacture a number of treatments that are energy efficient, convenient, and attractive. Choose a window covering that allows you to retain visibility from your patio and sliding doors, so you can love your view.

Sliding Shutters can be installed to slide back and forth across an opening or with tracks the full width of your room they can also slide along the wall to clear the door.

Bi-fold Shutters

For larger doors in your home, where ease of movement is essential, we often recommend installing shutters with bi-fold mechanisms on top and bottom tracks. These tracks support the weight of the shutters, ensuring effortless operation and lasting durability. Our tracking systems feature several innovative designs, including the Bi-Fold 180. This design allows the panels to stack tightly together and then rotate to lie flat against your wall, providing a sophisticated, space-saving solution.

Hinged Shutters

Our most favoured installation method involves hinging shutters inside the window jamb. These can be mounted with a hang strip behind the shutter for a pristine look or with various framing options to address any window design challenges. Hinged shutters can be installed in any area of your home, and each shutter opens effortlessly to allow access to the window behind for easy opening or closing. Thanks to our unique framing solutions, we can find an elegant and functional solution for any window jamb or architrave design.

SPECIAL PROJECTS

Villa Renovation

If you have bought or are renovating a villa, you'll know that older style windows are often not double-glazed. Homeowners normally investigate proper insulation for the floors and ceilings, but often overlook the windows; despite studies showing that between 21-30% of heat lost is through windows.

Fortunately, there is a solution that enhances and warms your home – professionally fitted thermally efficient window dressings. We have customised options that fit snugly into your window frames and to reduce drafts and create a barrier of still air between the window and the window dressing. When closed, this solution has a similar effect to adding additional glazing to your windows.

Using thermally efficient window dressings will not only help reduce your energy bills, but they will also create a warm, dry and draught free home for the health of you and your family.

Villa shutters

Half-height shutters

Villa windows often feature intricate stained-glass and leadlight panels that deserve to be showcased rather than hidden behind window dressings. Shutters are an ideal solution in this scenario, as they can be custom-made to any height, allowing you to cover only part of the window. This ensures that the beautiful decorative panels remain visible and appreciated.

Bay windows

Bay windows are commonly found in villas and can be made into an attractive feature in the room. As shutters are custom made, they can be designed to fit any window, including the different styles of bay windows.

Eliminate draughts

Shutters are fitted with unique framing systems, which create an effective barrier to heat loss through draughty windows. This helps to provide a warmer home in winter and a cooler one in summer, saving on energy bills all year round.

Villa Thermacell Blinds

Warm up your villa

Thermacell Blinds fit tightly into sash windows to reduce drafts, while the honeycomb design creates an effective barrier to heat transfer.

Blinds for sash windows

Villa windows often feature shallow jamb depths, making it challenging to find suitable blinds for such limited space. Thermacell Blinds are the perfect solution, as they do not require a deep jamb and fit snugly into sash windows, effectively reducing drafts and enhancing insulation.

Child safe blinds

If your villa is a family home, the safety of the products you choose is paramount. Thermacell blinds offer child-safe options, including breakaway cords, continuous cord-loop, and cordless designs, ensuring the highest level of safety for your loved ones.

Considering double-glazing?

Utilising unique construction and advanced materials, our Thermacells are made to insulate better. Experience the fabric technologies that will make you feel more comfortable and save on energy.

Interior Blinds

Santa Fé offers a full range of custom-made Roller blinds, Venetian blinds, SmartDrapes, Perfect Sheer and insulating Thermacell blinds. You can transform your home today with the perfect window treatment solution.

Soluna Roller Blinds
Pearl

Soluna Roller Blinds

Capture the spirit of modern living and celebrate contemporary style with Soluna Roller Blinds. In no other roller shade will you find Norman®'s iconic quality and renowned craftsmanship.

An array of on-trend fabrics, exclusive child safe and pet safe PrecisionLift cordless technology, motorisation, Light Guard and more. Soluna will bring your home comfort, grace, and style – morning, day, or night.

Geared for style, versatility and the brightest days, Soluna offers beautiful fabrics from sheer to room darkening. The delicate roller fabrics are available in over 250 colours from 67 fabrics and crafted with fashionable interior design trends in mind to complement the decor in your home.

Soluna Roller Blinds are manufactured with a variety of materials including more natural fibre options like cotton, linen, jute, paper and bamboo. Apart from our commercial solar screens, our fabrics are 100% PVC free, which gives a more luxurious, textured fabric that is lighter weight, more environmentally friendly and odour free.

Soluna puts you in control, elevating your everyday window covering needs into an expression of sleek and distinguished style.

The Soluna range has over 250 colours and over 60 fabrics available.

Scan to find out more

SmartDrape
Room Darkening
Soft White

SmartDrape

SmartDrape is a modern, versatile and unique window covering that offers the elegant, sophisticated look of curtains and the privacy of blinds.

SmartDrape are less bulky with typically a smaller stack depth than traditional curtains, and you only need one drape rather than two for the same effect.

Its award-winning design offers the look of S-fold curtains, providing excellent privacy and light control. Available in on-trend whites, off-whites, and greys, SmartDrape features individual vanes with two built-in opacities.

Unlike traditional coverings, SmartDrape lets you walk through the shade, whether it's open or closed. Ideal for wide windows, patio doors, or any window, it seamlessly connects your home to the outside. Switch from sheer to solid fabric with a simple wand twist, offering light filtering or room darkening while maintaining easy access.

The individual fabric vanes are machine washable for effortless cleaning.

PerfectSheer

PerfectSheer offers the perfect solution for light control, privacy and view.

With Norman®'s three-layered soft shades, you can easily transition from sheer to light filtering or room darkening with a simple cord pull or motorised remote.

Enjoy natural daylight with the open sheer fabric, providing visibility and modest privacy. Close the vanes for superior insulation, reducing heat, glare, and UV damage.

PerfectSheer's innovative design ensures the tightest vane closure for ultimate privacy and light control. Available in a wide range of fabric textures and colours, these shades uplift any décor to a new level of functionality, elegance and style.

Three layers of fabric are woven together to stay looking great under the harsh NZ sun.

Venetian Blinds
63mm Slat
Pure White

Scan to find out more

Venetian Blinds

With easy control of light, privacy, airflow and filtering of harsh UV rays, Venetian Blinds are a modern, versatile and practical solution for your home.

Our high-quality Venetian Blinds are custom-made from Phoenixwood Timber, Fauxwood, or Aluminium. Designed without holes in the slats, these routless blinds offer exceptional light-blocking capabilities.

We have an extensive range of colour options and slat sizes to customise the look of your blinds to complement your interior style. Choose from selected colours to match our other products for consistency throughout your home.

As an additional feature you can choose a SmartRelease Cordloop option. The Cordloop enables you to lower the blind with one gentle pull - the blind then glides smoothly, quietly and effortlessly to the closed position.

For the ultimate in safety choose our cordless venetians.

Thermacell Honeycomb Blinds
45mm Cell
White Ice

Thermacell Honeycomb Insulating Blinds

This sophisticated and innovative blind is a favorite in stylish homes worldwide, praised for its aesthetics and exceptional insulation.

Combining a fabric shade's simplicity with advanced insulation, the modern cellular design elevates any room with contemporary style and clean lines.

Reduce heat loss through your windows and doors by up to 60% with Thermacell Blinds.

Our Thermacell range offers over 70 colors, five cell sizes, three fabric opacities and various lifting systems to match any décor. Child-safe cordless and motorised options, along with award-winning solutions like SmartFit, sliding and cordless top-down/bottom-up ensure versatile light control.

Thermacell blinds create an insulating layer to save energy and block drafts, providing a warmer, healthier, and more comfortable home.

ROOM FOCUS

Living area

The living area is the heart of your home, whether it's a lively hub for entertaining family and friends or a quiet retreat to relax and enjoy the view. This space often contains treasured items like valuable furnishings, floor coverings, and art, so protecting them from harsh UV rays, is crucial.

If your living area opens onto a deck or outdoor space with bi-folding doors or sliders, consider window dressings that won't blow around and obstruct doorways, ensuring smooth movement.

When selecting window dressings, consider how you use your living area and the look you want to achieve. From the patterns and textures of roller blinds to the elegance of shutters, the right choice can enhance both functionality and style. Ultimately, you'll want a living area that is inviting and uniquely yours.

PRODUCTS TO CONSIDER IN YOUR LIVING AREA

SHUTTERS

Reduced outside noise

A closed shutter significantly reduces noise, providing you with the tranquillity and peace you desire.

UV protection and glare reduction

With our unique Invisible Tilt mechanism, the split blades can be adjusted to filter out direct sunlight and reduce distracting glare on TV screens.

Enhanced look

Explore the exciting possibilities when you combine shutters with other window dressings, such as curtains. The effect is elegant and adds a softer touch to generate a sophisticated ambience.

Bi-folding shutters

Choose from either our 90 or 180-degree bi-fold options. The 180-degree bi-fold shutter is unique to Santa Fé and allows up to three panels to pivot back and fold flat against a wall.

Sliding shutters

If you do not need to have your sliding or bi-fold door completely open, you can choose to slide your shutters back and forth on separate tracks.

ROLLER BLINDS

Single touch control

Enjoy the convenience of motorised roller blinds that slide effortlessly up and down with a single touch of a button. Optimise your views or ensure your privacy instantly with the shortcut keys. Set your favourite shade positions to effortlessly transition between them.

Matching co-ordinates

Create an eye-catching statement in your room with our stunning range of designer Roller Blind fabrics. Co-ordinate these patterned fabrics with your cushions and throws

Minimalist look

If you like a fabric texture but prefer a minimalist look without lots of curtain fabric then Roller Blinds are the solution for you – get the look you want, with clean contemporary lines.

Light filter fabrics

Light filter fabrics are ideal for living areas as they softly filter daytime light and block 100% of UV to protect your furnishings and reduce glare on your TV.

THERMACELL BLINDS

Warm and cosy lounge

The unique honeycomb construction of Thermacell Blinds provides exceptional thermal insulation for your window, not only creating a warmer, drier and healthier home but also saving money on your energy bill.

All our versions are child-safe, with options including cordless and cord-loop systems. Additionally, a motorised version is available for added convenience.

Diffusion of sunlight

If you want to watch TV during the day either a light filter fabric provides superb soft light and diffusion for TV screens without fully blocking out the light.

Day and night privacy

Enjoy the flexibility of having two fabrics in one with the day-night Thermacell Blind. This product elegantly combines two layers of fabric: a sheer layer for daytime use and a room-darkening layer for privacy at night.

Thermacell Honeycomb Blinds
SmartRise Cordless
Light Filtering Crystal

ROOM FOCUS

Kitchen

The kitchen is the heart of the home, bustling with activity, that's why your window dressings need to be both stylish and functional.

No matter your kitchen's layout—whether it's a galley, island, U-shaped, or L-shaped—your window dressings deserve careful consideration. Do you prefer natural light and airflow, or is filtering sunlight from your countertops and workspaces more important? Privacy from neighbouring houses while you cook might be a priority, or perhaps you need to keep an eye on the kids playing in the backyard. The perfect window dressing will meet all your needs and look fantastic too.

PRODUCTS TO CONSIDER IN YOUR KITCHEN

SHUTTERS

Easy to clean

Shutters are very easy to clean, simply tilt the blades and wipe down with a damp, clean cloth to keep your kitchen clean and hygienic.

Hard-wearing

Our shutters are available in a range of wood types, including our hard-wearing Woodlore or Woodlore Plus Shutters, which are resistant to knocks and easier to maintain in the kitchen environment. Additionally, the non-toxic, lead-free paint finish protects your family from harmful VOCs (Volatile Organic Compounds).

Adjustable control of light and airflow

Shutters let you control light, views and airflow with easy to adjust blades. These can be tilted to keep sunlight off benches and working surfaces, reducing glare whilst retaining the view.

Hot tip

Shutters can be installed in various ways, such as hinged, bi-folding, or sliding. Assess your kitchen workspace carefully, noting the locations of taps, power points, and shelves. A bit of pre-planning will ensure you get the most out of your shutters.

ROLLER BLINDS

Cost-effective

Roller Blinds are a stylish, easy-to-use, and cost-effective solution for kitchen windows, offering both functionality and a modern aesthetic.

Flexible and easy to use

Roller Blinds can be effortlessly adjusted to any position without obstructing your view. Their sleek design and simple operation make them an ideal choice for enhancing the look and feel of any kitchen space.

Easy to clean

The kitchen can be a messy place, especially if you have children. That's why a Roller Blind with the right fabric is a great solution – simply wipe the blind clean with a damp cloth.

Hot tip

Sun filter fabrics are the perfect solution for daytime privacy, but they won't give you privacy during the evening when the lights are on. If you need greater privacy, then consider a light filter or block-out roller blind.

VENETIAN BLINDS

Modern look

If you're seeking a modern, contemporary look, Venetian Blinds are the perfect solution. Normandy Venetian Blinds not only offer design, privacy and light control, but they also enhance the value of your home.

Affordable blinds

Venetian Blinds are an affordable solution and offer great versatility for controlling light and privacy.

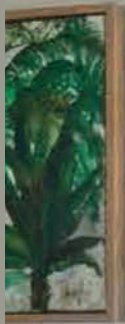

Easy to clean

Venetian Blinds are perfect for your kitchen. As well as being easy to clean, they give you the flexibility to control light and privacy into the very heart of your home.

Hot tip

Avoid heavy venetian blinds for very wide windows if you need to raise and lower them often. The weight of the wide slats can make them difficult to operate and prone to bowing. Instead, opt for a roller blind instead, which is a more practical solution for frequent use.

Silk White

ROOM FOCUS

Bedroom

Creating a harmonious and peaceful bedroom is key to making it truly your own space. How you respond to light will be a major factor in choosing the right window dressing.

If you need a dark room for better sleep, opt for window treatments that block out as much light as possible. Alternatively, if you enjoy waking up to soft, filtered light, choose treatments that allow for a gentle morning glow.

Modern bedrooms often serve multiple purposes, such as a quiet lounging area away from the hustle of family life. In this case, consider window dressings that filter strong sunlight during the day, providing a serene spot to relax and enjoy the view.

For kids bedrooms, safety is paramount, you'll find all of our products have child safety features to make your home a safer space.

PRODUCTS TO CONSIDER IN YOUR BEDROOM

SHUTTERS

Peaceful room

In addition to creating a feeling of peacefulness and ambience in the bedroom, shutters also improve the acoustic dampening of external noise.

Maximum privacy

Shutters are extremely versatile in creating different levels of privacy in the bedroom. With our unique Invisible Tilt mechanism you can close one section of the shutter whilst having the blades in another section tilted at an angle to retain a special view.

Light and ventilation

Although our unique Invisible Tilt mechanism ensures a more superior blade closure than any other shutter, they can't provide total block-out of light. They are however effective at darkening a room sufficiently to allow a peaceful night's sleep, plus there's the added benefit of being able to tilt the blades to direct airflow into the room.

THERMACELL BLINDS

Darker room

If you are trying to get a baby to sleep or you're a shift worker trying to sleep during the day, then a room darkening Thermacell Blind will give you the best possible light block-out of any blind on the market. This is because the Thermacell Blind fits tightly into the window opening and only has a small gap on the sides.

Cosy warm room

The Thermacell Blinds small gap and cellular structure combine to create an amazingly effective barrier to heat loss from any window in your home. This has a similar effect to installing extra glazing in your window and can reduce your energy costs.

Child safe blinds

Safety is paramount in a child's bedroom as they often spend time playing alone in this room. Thermacell Blinds offer child-safe options, including cordless designs, breakaway tassels and motorised versions for enhanced safety and convenience.

ROLLER BLINDS

Child safe blinds

Motorised roller blinds have no cords at all so are a safe option for your family home. Soluna gives you exclusive features like PrecisionLift cordless technology, a shade so clever it does away with chains altogether and is the safest product for children and pets on the market.

Day and night privacy

Using a double roller blind gives you the best of both worlds with a sun filter fabric for daytime privacy or filtering of sunlight and a block-out fabric for evening privacy.

Creating a feature

Have a bit of fun and create a bedroom with personality and style by coordinating a patterned roller blind with your throws, cushions and bedlinen.

Hot tip

Roller Blinds will allow light to bleed around the edge of the blind. So, if you are light sensitive consider our Thermacell Blinds for your bedroom.

Woodlore Plus
Waterproof Shutters
89mm Louvre
Silk White

ROOM FOCUS

Bathroom

Choosing window dressings for bathrooms can be challenging. They need to provide privacy for family members while still looking good for guests. Given the high moisture levels typical in bathrooms, it's essential to select materials that can withstand steam and humidity without becoming mouldy.

Look for products that offer maximum privacy without obstructing airflow, which helps keep the bathroom fresh and reduces moisture buildup. Avoid fabric options, as they can harbour mould spores. Instead, choose materials like plastic composites that resist mould and mildew.

Lastly, consider window dressings that are easy to clean with a damp cloth, as maintaining a clean bathroom can be time-consuming.

PRODUCTS TO CONSIDER IN YOUR BEDROOM

SHUTTERS

Waterproof shutters

Our Woodlore Waterproof Shutter offers peace of mind, no matter how much water is splashed around. Made from waterproof ABS, these shutters can withstand the demands of bath time and are built to last. While Woodlore and Woodlore Plus Shutters are suitable for bathroom use, we recommend Woodlore Plus Waterproof for areas with direct water exposure.

Maximum privacy

Shutters are exceptionally versatile for achieving adjustable privacy in your bathroom. Crafted entirely from lightweight and durable ABS, these shutters feature fully waterproof panels and frames, making them ideal for bathrooms, kitchens and laundries. Equipped with stainless steel hardware, they ensure durability without rust or corrosion.

Airflow control

Combat moisture buildup in the bathroom by opening the window and adjusting the shutter blades to control airflow. A simple touch on the blades effortlessly increases or decreases ventilation to your preference.

VENETIAN BLINDS

Moisture resistant product

It's impossible to eliminate moisture and steam in the bathroom, making our Fauxwood Venetian Blinds an ideal choice. These blinds won't warp or rot, are easy to clean, and come in 50mm or 63mm slats, perfectly suited for bathroom conditions.

For a more contemporary option consider our Aluminium Venetian Blinds, which are another cost-effective waterproof solution for bathrooms. They are available in 25mm and 50mm slats.

Adjustable privacy

Venetian Blinds feature easily adjustable slats. For the desired level of privacy, simply pull on the tassel or adjust the tilt wand for cordless systems to open or close the slats.

Child safe blinds

Children love to play and splash in the bathroom, making it crucial to minimise the risk of injury from cords. Our Venetian Blinds feature a unique safety breakaway tassel that separates under pressure, ensuring your family's safety. Additionally, we offer a cordless lift system for added peace of mind.
