

**CLASSIC SERIES**  
SECTIONAL  
GARAGE DOORS

# Its not about the look of your garage its about the look of your home.

**'Its not just a garage door, it's the port of your home.'**

The modern garage door is the main access point for your home, which raises safety and security questions. It's also a design feature that often dominates your home's street frontage.

**Your garage door is more than 20% of your street appeal!**

Did you realise your garage door generally accounts for more than 20% of the face of your home? With Glideaway offering more profiles, colours and options than ever, there's an opportunity to turn your garage door into a feature for your home. For instance, your garage door can be made to match the colour of your roof, front door, or other aluminium joinery.

Each Glideaway garage door is custom made, so you can consider your door as a unique opportunity to express yourself, as you would with any other choice in your home.

**Garage doors are no longer just a case of 'open and shut'!**

Shop GLIDEAWAY - we have you covered with the widest garage door range in New Zealand!

# THE GLIDEAWAY SECTIONAL GARAGE DOOR

Sectional garage doors are non protruding and open vertically therefore providing most space possible, both inside, and outside the garage.

Some say this style of garage doors are the most practical choice and are the ultimate in garage doors, providing there is adequate space and fixings.

Glideaway Doors have one of the widest range of designs and colours for sectional doors available within the New Zealand market.

With space-saving technology, heat insulation options and automation, Glideaway sectional doors are safe and robust, whilst providing low-noise operation.

The typical sectional garage door is 4 panels high and the panels are around 500mm high each, if the door is any higher than 2250mm, this would increase the amount of panels generally.

There are endless options to choose from, including different materials, finishes and window options. Available in manual and automatic operation.

Teamed with a 5 year warranty\* these garage doors will provide years of trouble free use.

# SANDON

*'Functional and economic, which makes this a popular choice to pair with any style'*

SANDON  
SMOOTH

SANDON STUCCO  
(ALUMINIUM)

The deep horizontal ribs across the Sandon provides strength and rigidity over wider door widths, to help keep your home secure. Available in a smooth, or stucco finish, this allows the Sandon to suit most styles of architecture. Available in Zinalume, Colorsteel or aluminium.

# HARFORD

*'Functional and economic, which makes this a popular choice to pair with any style'*

HARFORD  
SMOOTH

HARFORD STUCCO  
(ALUMINIUM)

The Harford is a rugged steel sectional garage door roll-formed to produce a secure and dependable entry point to your garage or building. The option of woodgrain embossing or a smooth finish complements most modern building styles. Available in Zinalume, Colorsteel, or aluminium
