

YOUR PROJECT, OUR SKILLS

Urban Demolitions & Plant Hire

We can manage every stage of the demolition process in your Knockdown Rebuild, including:

- **initial site inspection and free quote**
- **obtaining the demolition permit**
- **removal of asbestos by our in-house, qualified asbestos removal crew to current Workplace Health and Safety Qld practices.**
- **supplying you with an Asbestos Clearance Certificate**
- **capping the sewer connection and providing a Form 4 or Form 1**
- **tree and shrub removal by qualified arborists**
- **handing over a construction ready site**
- **all work guaranteed**

Over 15 years experience

delivering demolition
services across South
East Queensland

We are a family business committed to providing a professional and affordable service.

From quotation to completion, we will offer support during the demolition process by maintaining frequent communication.

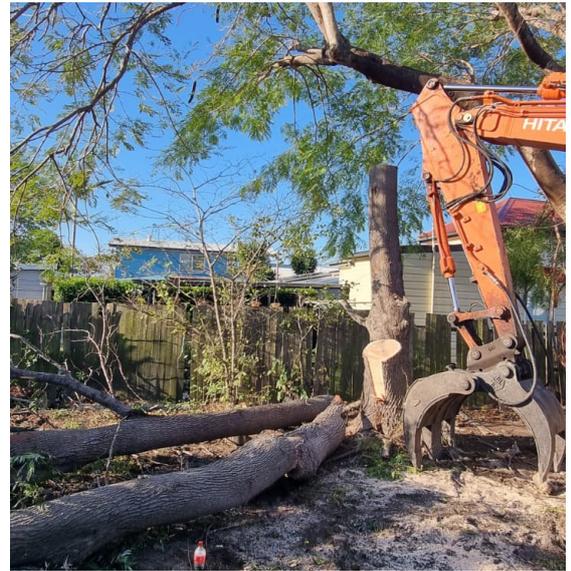

It is important that demolitions are done to a high standard so as to not incur any variations by your builder.

We have built a reputation as a reliable and trusted demolition provider within the industry.

Here is one of our many positive customer reviews on Google:

"From the beginning they were responsive, transparent and clear on next steps. They went above and beyond expectations in terms of explaining different options and pathways. Execution and completion of the job was timely and undertaken as promised. I would highly recommend these guys."
