

INDOOR GAS FIREPLACES

FIRE BY **escea.**

---

Born in the south, where warmth matters.

---

Escea fireplaces are designed and made in the deep south of New Zealand, the best place to test the limits of heat and efficiency.

Naturally we're inspired by our backyard, but we're also driven by a purpose too – to put a better fireplace at the heart of every home. Because we believe it makes your life just that bit better.

#### Fireplace, anyplace

Escea's flexible flues run up, down or even sideways, for complete design freedom.

#### Beautiful Warmth

Why compromise heat output for good looks? With an Escea fireplace you get the best of both worlds.

#### Crafted with care

From concept to completion, our people take pride in every fireplace they have a hand in making.

# Indoor Gas Fireplace Range

Get to know Escea's range of indoor gas fireplaces.  
There's (at least) one for every home and every lifestyle.

## DS Series DS1150, DS1400, DS1650, DS1900

Truly frameless and ultra-wide gas fireplaces for a minimalist look that focuses on the flame.

Pg 4

## DX Series DX1000, DX1500

Linear high heat output gas fireplaces to effortlessly heat one, two or multiple rooms.

Pg 8

## DL Series DL850, DL1100

High heat output combines with high efficiency to deliver a powerful range of fireplaces.

Pg 12

## DF Series DF700, DF960, DF990

Smaller dimensions and flexible installation make this series ideal for renovations and new builds.

Pg 16

## DFS730 Freestanding

Designed for homes with minimal wall space, or to replace an existing freestanding woodburner.

Pg 20

# DS Series

SINGLE OR DOUBLE SIDED

The DS Series has a small footprint and a big impact. These fireplaces are truly frameless drawing your eye straight to the flames – where the wall ends the glass begins. Available from 1m wide all the way up to an impressive 1.9m wide, the DS Series of ultra-wide fireplaces command attention.

The large window gives a clear view of the generous fuelbed, large flames and when double sided you can also see the room next door. And being able to flue the fireplace through the ceiling, the floor or the wall – the only limitation is your imagination.

#### SMART HEAT™

Control the temperature of your home with your smart phone.

#### TRULY FRAMELESS

Where the wall ends, the glass begins.

# DX Series

MULTIROOM | SINGLE OR DOUBLE SIDED

The DX Series combines dramatic flame action with Escea's Heat Ducting Technology, which provides heat into several rooms and evenly distributes within the same room. With its minimalist aesthetic, the DX Series works with any interior style and their effect grows exponentially when they're double sided.

Reflective side panels give the appearance of an even wider fireplace and add to the infinite flame effect. Customise the look of your fireplace by choosing between a variety of different fuelbeds and frames.

#### SMART HEAT™

Control the temperature of your home with your smart phone.

#### MULTIROOM

Duct heat from the fireplace to multiple vents throughout your home.

## DX Series Models

# DL Series

STATEMENT FRAME | SINGLE SIDED

High heat output combined with high efficiency is what distinguishes the DL Series from the rest.

These fireplaces work with both modern and traditional decor - the frame within a frame providing a statement detail. Both the DL850 and the DL1100 feature smartphone control and the Powered Direct Vent flue system gives you the flexibility to install the fireplace wherever you want.

#### SMART HEAT™

Control the temperature of your home with your smart phone.

#### HIGH HEAT OUTPUT

Powerful heat output for large open-plan living spaces.

## DL Series Models

## DL Series Options

### DL850

Heat output  
9.2kW

# DF Series

RETROFIT OPTION | SINGLE SIDED

The DF Series is Escea's most versatile range. From the small and compact retrofittable DF700, to the grandiose DF990, there's an insert fireplace for every home.

A highlight of the DF Series is the angled firebox, which creates a beautiful and realistic looking flame pattern. With its minimalist frame, these fires work just as well sitting pretty inside a traditional mantel as they do set flush against the wall for a more contemporary, seamless look.

#### SMART HEAT™

Control the temperature of your home with your smart phone.

#### POWERED DIRECT VENT

Fan-forced airflow for ease of install and design freedom.

## DF Series Models

## DF Series Options

### DF700

Heat output  
5.9kW

## Fascia Options

A flat frame that sits flush with your wall.

Fascia sizes (mm)  
DF700: 723w x 598h x 2d  
DF960: 973w x 598h x 2d  
DF990: 973w x 887h x 5.5d

A wider flat frame that sits flush with your wall.

Fascia sizes (mm)  
DF700: 761w x 632h x 2d  
DF960: 1011w x 632h x 2d

A statement frame sitting proud of the wall with optional SuperFine mesh gaurd.

Fascia sizes (mm)  
DF700: 745w x 639h x 34d  
DF960: 996w x 639h x 34d

## Fuelbed Options

\*Stainless Steel fascia not available on DF990 fireplace

\*May vary depending on flue or gas type.

# DFS730

FREESTANDING

The freestanding DFS730 is designed as a modern gas fireplace replacement for an existing freestanding woodburner, or for installing into a room where you do not have enough wall space for an inbuilt fireplace.

This sleek black fireplace fits into tight spaces, and it has a large glass window for maximum flame viewing. The beauty of gas is that you get the same flame and same heat as your old woodburner, without the mess or fuss. The Powered Direct Vent flue system draws air from outside the home into a sealed unit, keeping your home free of moisture and fumes.

#### SMART HEAT™

Control the temperature of your home with your smart phone.

#### POWERED DIRECT VENT

Fan-forced airflow for ease of install and design freedom.

# Mantel Surrounds

## DF Series Mantels

To complement the DF Series of insert fireplaces, there is a mantel available to purchase with the DF700, DF960 and DF990 fireplaces.

Constructed from MDF, the mantel comes with a white undercoat finish to allow you to complete the look with your choice of paint colour. Infill panels (for when the cavity is larger than the frame) are also included.

Pictured: DF990 with Mantel

*NOTE: The fireplace needs to be raised 65mm from the floor for the mantel to be correctly installed.*

**Mantel for DF700**

Outer dimensions: 1470W x 1293H x 270D

**Mantel for DF960 & DF990**

Outer dimensions: 1720W x 1293H x 270D

# Features

## Powered Direct Vent

Our Powered Direct Vent flue technology achieves greater efficiencies and allows flues up to 12m in length which can be run horizontally or vertically. Flues can finish either on a roof or outside wall and can even be run under a floor. It uses outside air for combustion rather than room air and is a completely sealed system unaffected by other appliances such as extractor fans. With no fumes coming in and no hot room air going out, you can keep warmer and healthier.

This innovation also gives you the flexibility to put the fireplaces wherever you like, without the need for cavities or even walls to install. Another benefit of Power Flue is joinery-friendly Zero Clearance installation. The key is the fan-forced airflow, which allows you to install the flues in any direction, making even the most complex flue run possible.

Available on all indoor gas fireplaces.

Through-roof

Through-wall

Through-floor

Between-floors

# Features

Continued ...

## Multiroom Heat Ducting

Multiroom, Escea's Heat Ducting Technology, captures up to 90% of the available heat and carries it throughout the house via ceiling and floor vents. The ducting technology allows you to provide heat to more than one room in your home.

Available on:  
DX1500, DX1000

## Smart Heat

When connected to your home network our Smart Heat system lets you turn on your fire through your Smart Phone or any secure internet connection and integrates with most Home Automation systems. It keeps the room at the temperature you select and continuously adjusts to ensure the most efficient burn – which is what we mean by Smart Heat.

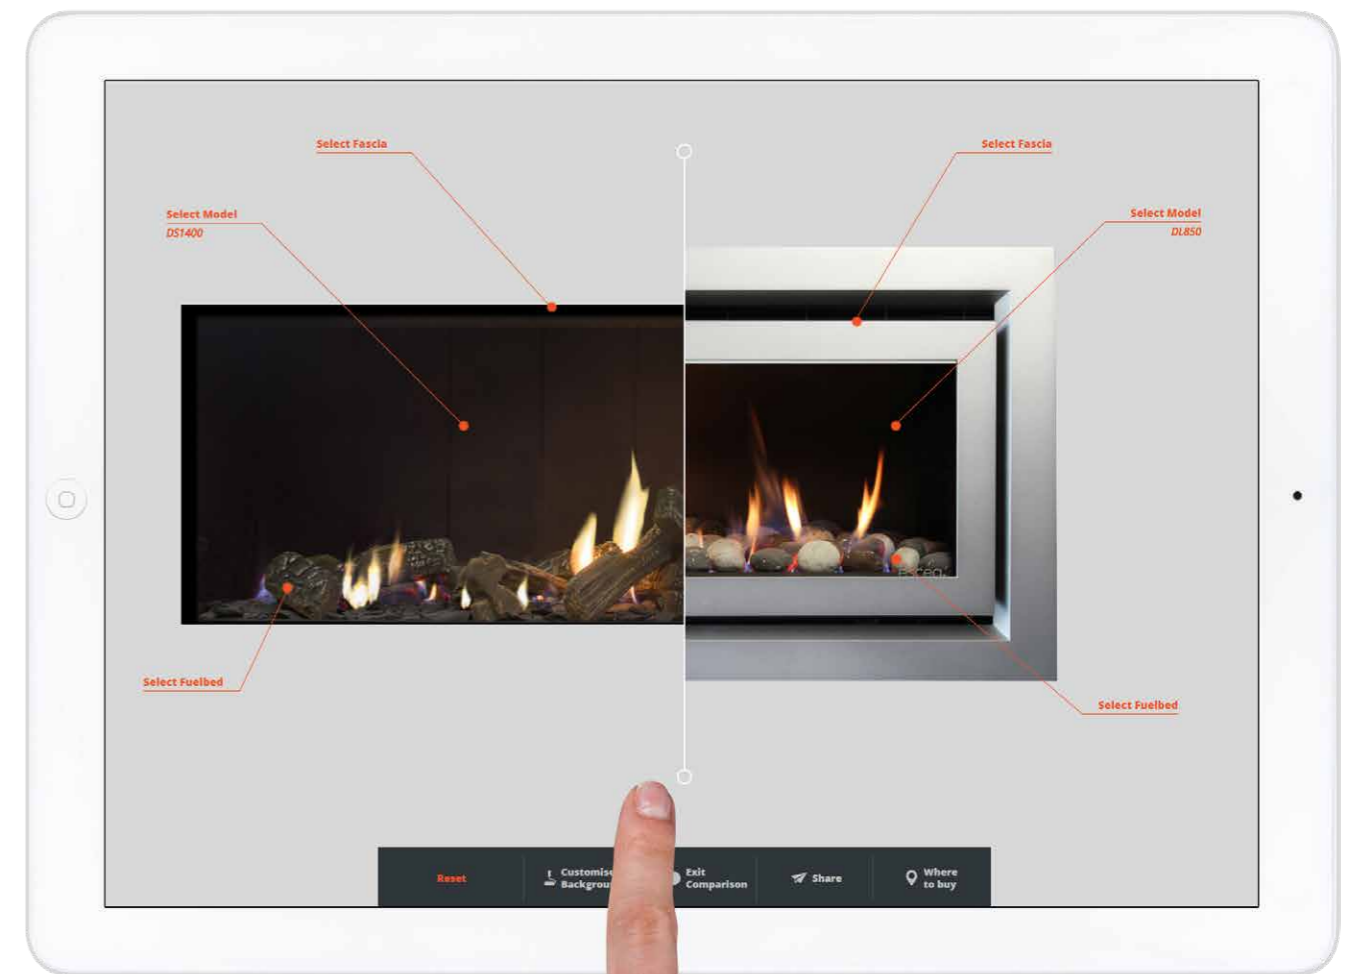

Available on all indoor gas fireplaces.

# Design your fireplace

Undecided on which fascia or fuel bed suits your home?

Escea's Design Your Fire online tool lets you try on and compare the different fireplace, fascia, fuel bed and wall combinations.

All Escea indoor gas fireplaces come with a wireless remote (thermostat and timer integrated), and are equipped with Escea's mobile Smart Heat capability. Note, indoor gas fireplaces require a wired connection to your internet router for Smart Heat to function. This cable is included only on DX and DS Series fireplaces, but is an optional extra across the full indoor range.

\*Cavity size may vary depending on installation requirements or fascia type. See installation manual for more information.

\*\*May vary depending on flue or gas type.

OUTDOOR FIREPLACES

FIRE BY **escea.**

---

The comforts of indoors, out.

---

Fireplaces have a mesmerising quality – people love sitting around them and watching the flames flicker. An outdoor fireplace means you can entertain late into the night, creating a dramatic focal point that’s warm and inviting.

Whether it’s outdoor cooking on a wood fuelled fireplace, or the instant convenience of a gas fireplace, Escea’s outdoor range makes entertaining easy.

“Whether indoor or outdoor, our approach to designing a fireplace remains the same. We start with the customer in mind and think about how they live their lives (or wish they did). It’s about creating a social hub for the family to gather and relax. Whether that means eating, drinking, entertaining, or just flame watching.”

ALEX HODGE  
*Lead Designer*

### Have it all

No need to compromise. With an Escea fireplace you get both good looks and performance.

### Born in New Zealand

Designed and made in the deep south of New Zealand, where warmth really matters.

Fireplace & Cooking mode

## More flames, less smoke.

Inspired by the classic campfire, the Fire Table is made for gathering, sharing and marshmallow toasting. It's a new twist on an old classic. Only better, because Escea's Vortex Firecore technology gives you the warmth, ambience and flames of a campfire, without all the smoke.

## 360° social cooking experience.

Whether you're cooking for two, feeding the whole family, or hosting a tribe, the Fire Table offers a 360° social cooking experience that gets everyone involved. With three cooking modes to choose from, everyone can cook their food just the way they like it.

## Cool-touch

Keep your food warm and your drinks cool with the Fire Table's cool-touch feature. When the fire is going, the outer ring is designed to be cool enough to rest your food, drinks or your elbows, making it safe for the whole family.

## Grill then chill

Once the cooking is done, the Fire Table becomes your night companion. Remove the cooking grills and add some wood to bring the flames alive. Marshmallow toasting becomes mandatory and relaxing is a given.

# EF5000

## Outdoor Gas Fireplace

Convenient and fuss-free, the EF5000 is perfect whether you're planning on entertaining all night or just want to unwind after a long day at work.

## EF5000

Heat output  
16.5kW

Max Energy Input  
49MJ/hr

Approx appliance size (mm)  
Not a cavity size  
1000w x 579h x 321d

Viewable flame area (mm)  
902w x 400h

### Features

- Ventless
- Electronic Ignition
- Zero Clearance
- Kitset Enclosure (optional)

## Fascia Options

A square edged thick frame.

Stainless Steel      Volcanic Black

Fascia size (mm)

EF5000: 1295w x 645h x 60d

## EF5000 Fuelbed Options

NZ River Rock  
(Large)

Black Coals  
(Large)

White Coals  
(Large)

## Entertaining's never been so easy.

Operated by the touch of a button, the EF5000 gives you quick convenient heat so you can get down to the business of relaxing in front of the flames.

The EF5000 offers simple installation, without the need for a flue. With a Zero Clearance rating, it can be installed straight into any timber-framed or masonry cavity.

## Kitset enclosure (optional)

The optional Kitset Enclosure (KSE) is perfect if your outdoor area doesn't have an existing structure. Simply assemble and then cover the KSE with a waterproof backing board and cladding of your choice.

The assembled structure has the following dimensions:  
1800w x 1200h x 600d (mm).

## Surround choice

This fireplace has Zero Rated clearance which means the interior wall stays cool enough to handle most materials. There's no need for expensive fire-rated wall constructions and when it comes to the fireplace surround, you have a wider range of choices.

# EW5000

## Outdoor Wood Fireplace

Add a dramatic focal point to your outdoor living space. The EW5000 is perfect for dinner, drinks and stargazing.

## EW5000

Heat output

Fuel Dependant

Approx appliance size (mm)  
Not a cavity size

Frameless Option

## Fascia Options

A square edged thick frame.

Stainless Steel

Fascia size (mm)

EW5000: 1290w x 645h x 60d

Less frame, for more focus on the flame.

Fascia size (mm)

EW5000: 996w x 645h

## Eat out, at yours.

For the traditionalists, drawn to spark and flame, the EW5000 provides a wood fire that you can cook on, as well as bask in front of. The EW5000 can be installed with or without the stainless steel frame.

For durability, Escea constructed the firebox of high quality 4mm thick steel. This outdoor barbecue fire needs to be enclosed in non-combustible masonry, stone, concrete or brickwork.

## Kitset enclosure (optional)

The Kitset Enclosure (KSE) is perfect if your outdoor area doesn't have an existing structure. Simply assemble and then cover the KSE with a waterproof backing board and fire-rated cladding of your choice.

The assembled structure has the following dimensions: 1800w x 1200h x 600d (mm).

## Cooking plate

The EW5000 wood fireplace comes with an adjustable cooking plate which can be stored under the ash pan when not needed.

The plate can be placed at three different heights to regulate heat.

# Indoor Fireplaces

When you're not entertaining outdoors, an Escea indoor gas fireplace will turn your living room into a social hub. All indoor Escea gas fireplaces have smart phone control, high efficiency, and flues that can run in any direction to give you ultimate creative freedom.
