

# The Kitchen is the **Heart of a Home**

When our clients come to us with a vision, we understand that the job isn't simply designing and assembling a functional space to cook in - it's our mission to bring that vision to life, with thoughtfulness and professionalism at the forefront.

Our experienced team of designers, end-to-end quality workmanship and cutting-edge manufacturing and assembly processes are the fundamentals we hang our hat on. Every kitchen we craft comes with competitive pricing to meet your budget, and an attention to detail and level of care that we're known for industry wide.

Bring the tailored kitchen you dream of to life with a team you can trust at Kitchen Story.

## Discover the **Kitchen Story Difference**

### **SERVICE EXCELLENCE**

We prioritise impeccable service delivery, from initial consultation to project completion. Our designers provide an attentive, responsive, and personalised service to suit you.

### **TIMELY EXECUTION**

Time management is crucial in our industry. Our designers exhibit efficient project management skills to ensure timely completion without sacrificing quality.

### **COMPETITIVE PRICING**

While we offer competitive pricing, we won't ever compromise on quality. Our minimum project budget reflects the value we bring to your project.

### **QUALITY CRAFTSMANSHIP**

Quality is non-negotiable at Kitchen Story. Our cabinetmakers adhere to the highest standards of craftsmanship, using premium materials and employing skilled techniques to achieve outstanding results for your kitchen.

### **INNOVATIVE DESIGN**

Creativity and innovation are at the heart of our design philosophy. Our designers are encouraged to push boundaries, explore new ideas, and deliver unique solutions tailored to your needs.

# Our Process

## STEP 1

### Your Ideas and Inspiration

Our team is willing to bring all your ideas to life, and we are happy to see what you already have in mind. Think about the look and functionality of your next kitchen. What would you change in your existing kitchen? What would you love to see?

## STEP 2

### Quote & Design

Our designers will guide you through the process and will answer any questions you might have. After that, we will give you the quote and design that meets your initial budget.

## STEP 3

### Layout Measurement

Once the quote is confirmed, our team representative will come to your place to do the precise measurements of your space.

## STEP 4

### Production

After all measurements and details are confirmed, we will put your project to our production schedule.

## STEP 5

### Installation

We will keep in touch with you throughout the process, checking in on site readiness. Then after delivery, our trusted team of professional installers will come to finish the project.

## STEP 6

### Site Visit

Once the project is finished we would love to come to site and take photos of your beautiful kitchen, complete the ICF and provide you with your Mastercraft guarantee.

# Showcases

Delve into our custom designed looks to inspire your future kitchen with our range of showcases from our showhomes. Each design seeks to elicit a unique and visceral feel. From the seamless modern blends of textures and shapes that push the envelope of a standard kitchen, to vibrant hues and open spaces that add character and charm, each showcase speaks to the breadth of what can be achieved with the Kitchen Story team when design elegance meets functionality.

# Customer Stories

"We went to Kitchen Story/Mastercraft Kitchens after speaking to a number of kitchen designers and cabinet makers, and what really impressed us was the level of service and care, by Hannah - super star designer - and after that by Alexey, Greg, and the production & installation team.

We were new to kitchen rebuilds, so they really made us feel looked after. Despite our many changes, questions, and requests, the team was there for us. The end result is also really awesome - so beautiful, and so much more storage space within the same footprint. We love our new kitchen so much that I could barely bring myself to use it, but of course I have now, and it is working really well."

**AVALYN LIM**

"I had an amazing experience working with Kitchen Story. Their kitchen products are of unmatched quality, combining durability with stunning design. The team's attention to detail during the design process brought my vision to life, and the installation was efficient and precise. My new kitchen has transformed my cooking experience, making it a joy to spend time there. The customer service was exceptional, with prompt and friendly assistance throughout. I highly recommend Kitchen Story for their premium products and outstanding service."

**ILYA KH**

"Kitchen Story was recommended to us by our house builder and we are so glad they did. The design team at Kitchen Story understood what we wanted to achieve and helped us work through the various options making great recommendations. The installation quality is superior and the result absolutely fantastic. We are thrilled. Thank you Kitchen Story!"

**MILES DAVIS**

"Delighted with our new kitchen from Kitchen Story, they came highly recommended by our builder and we dealt with Marco from our initial design and showroom visit to installation, he was very helpful and knowledgeable. Would definitely recommend to others."

**HOPE MCDONALD**

"Excellent quality, workmanship and design. We felt very welcome the moment we walked into the showroom. We talked through our thoughts, and the designer, Velya reflected all our ideas in two initial plans. The designers changed them whilst we were in the studio to consider various options. Very knowledgeable about all the products, everything is just in the right place. We love our kitchen, it turned out just like the plans."

**KAREN ALLEN**

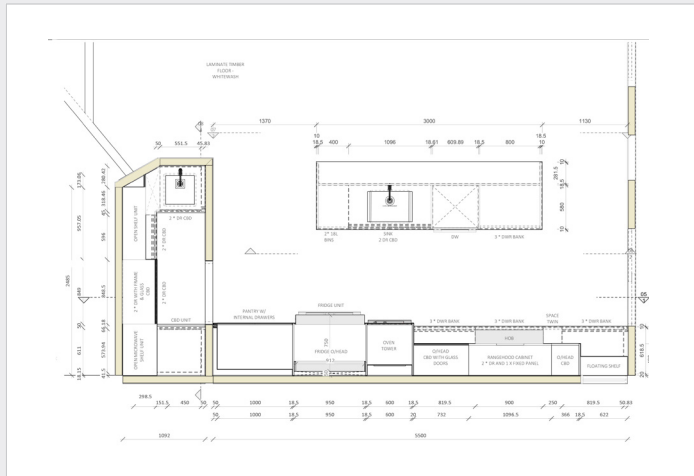

# Visualising Your Dream Kitchen

## Advanced Renders, Floor Plans, & Elevations

Visualise your dream kitchen with our advanced renders. The team at Kitchen Story will tailor your design in our rendering software to showcase your kitchen and ensure it matches your vision. Make the most of your space and ensure everything from the layout to materials are just as you envisioned.

## Seamless Software Integration

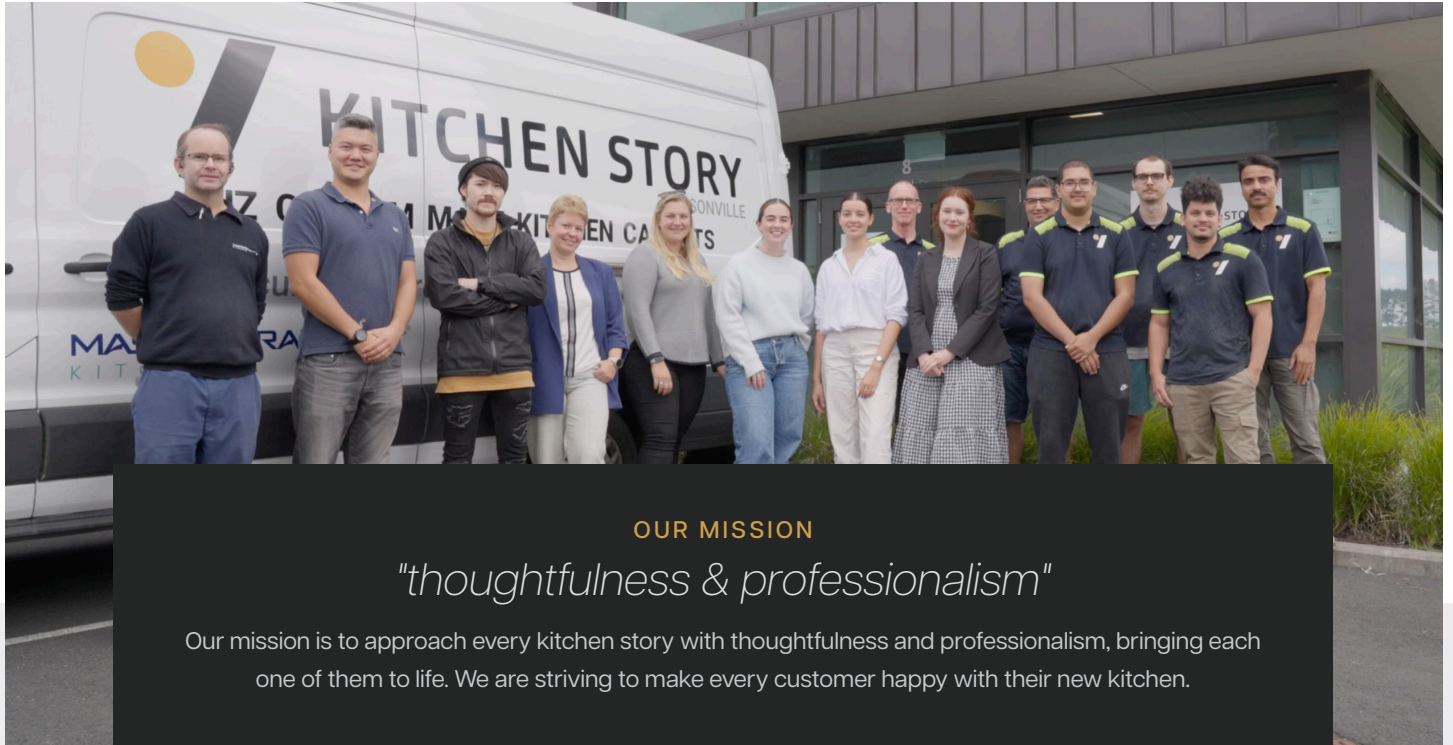

We prepare everything from design renders, elevations and floor plans. All of our rendering software translates your 3D designs into schemas for our CNC machines to ensure what you see is what you get. We do not redraw for production and these advanced software integrations are what allow us to provide beautiful, modern and luxury kitchens that exceed expectations.

# About Us

With more than 15 years of experience the team at Kitchen Story can help to bring your vision to life. We've been helping New Zealanders plan, design and develop the kitchens of their dreams. We work with local and globally accredited brands to breathe life into your kitchen. Our highly skilled team to help guide you through the process from quote through to installation.

## MASTERCRAFT KITCHENS APPROVED
