RETRACTABLE SHADE SYSTEMS

www.oztech.co.nz

**THE PERFECT
ADDITION TO
ANY DECK OR
OUTDOOR AREA**

WHY CHOOSE OZTECH?

Oztech Retractable Shad Systems are designed to give you complete control of your outdoor space, so you can entertain or relax outside, whatever the weather. Fully enclosed, completely open or anywhere in between, Oztech gives you the flexibility to create an additional outdoor room with seamless indoor-outdoor flow filled with light and protected from the elements.

Create a beautiful alfresco area in your home, restaurant, café or commercial space - whether your site is large or small, your Oztech installation will be fully customised to your space.

What's more, Oztech's flexibility allows multiple roofs to be seamlessly joined to create larger spaces - one roof unit can span up to 13m wide with 10m projection.

THE FEATURES

Elegant Bespoke Design

Over 150 textures, colours and transparencies available including colour matching and custom colour options. Designed and crafted for a modern look and feel, with refined connections. Cantilever, gable, freestanding options available to perfectly fit your area.

Atmosphere & Ambience

Optional built-in warm white LED lighting, dimmable with a remote. Unbroken views with up to 6 metres between posts (dependent on windzones). Safe, dry and beautiful space for al fresco dining, gatherings and more.

Powerful Technologies

A 60mm stainless steel cambelt will provide you with years of reliability. European motor system, Somfy and Becker, offer a full home automation option. Oztech's self cleaning system means both low maintenance and better translucency.

Strong Steel & Aluminium

Strong, durable and corrosion-free components, designed for reliability and minimal maintenance. Perfect for New Zealand's climate and coastlines.

Flexible Sizing

Large shade spans allow widths up to 13m and extensions up to 10m on a single system. Seamless roof joins mean we can create even larger spaces.

100% Waterproof

Sealed spigots, gutters and rafters keep all the rain out, allowing for a complete water proof system. Internal guttering, large trough and invisible downpipes allow for minimal outlets.

Exceptional Warranties

5 year complete warranty includes framing, motor, mechanical parts and electrics. Extended 10 and 15 year roof warranties available.

OUR PROCESS

1. Let's Chat

Our Oztech rep would love to meet with you and discuss your ideas for the space. They will do a walk through and measure, discuss ideas, offer advice and answer questions - the installation process will be explained and we will provide colour options to make sure we deliver the best outcome for you.

2. Design Phase

Our local retailer will take all the information gained from the consultation and provide a detailed quote for the project. We then bring the project to life using a 3D design of the Oztech in location - this can be very valuable to visualise how the space will work and look with Oztech installed.

3. Installation

Once the project has been approved (by yourself, engineers and the councils) we place your order with our Australian factory and your bespoke Oztech build will be underway! Our trusted local team will then install your Oztech, working alongside local builders and electricians, making any last adjustments to ensure you are completely happy with the final outcome.

4. Ongoing Support

Oztech's robust engineering and clever design mean, hardly any maintenance is required over time. However, if you ever need anything, our local Oztech retailer will be able to assist you in any way.

POOLSIDE RESORT, PT CHEVALIER

A stunning extension to this family home in Point Chevalier needed some final touches to really maximise the use of the back area of the house - a large Oztech provided added vital outdoor living and dining for kids and adults alike providing space and comfort in all seasons. The roof was then modified to allow for a pool installation and enhance the area even more. The shade system cools the interior too, with our customer noting they no longer need to pull all the blinds to escape the afternoon sun.

ENHANCE YOUR OUTDOOR SPACE

Our Oztech system's unique and customisable profiles enhances any outdoor space, without impeding views or light. The wide range of colours, styles and fittings can perfectly match any style home or business, allowing you to make full use of your outdoor space in the day or night and any season.

CREATE THE PERFECT COMMERCIAL SPACE

Oztech systems offer a range of benefits to owners, such as extended hours of operation and increasing operating footprint. Built-in features like dimmable lighting and the option of dropdown screen's create a great customer experience, plus a practical work space, all year round. With experience in commercial installations all over NZ, we can meet your unique requirements and make sure your project comes to life.

LUSH YEAR ROUND USABLE SPACE, GREY LYNN

Our customers had initially planned a louvre system as part of a major renovation project that needed to cover both lounge and dining spaces with different shade needs. We designed a split system, with two roofs which operate independently, clear blinds all around plus a special shade blind for the dining spot making for a very flexible space.

OUR STORY

Oztech was started in 2001 as an innovative Australian business offering a wide range of retractable roofs, awnings and pergola shade solutions - we love transforming outdoor areas to create beautiful and practical outdoor living options all year round.

We have since created an excellent distribution network of local businesses all over New Zealand, managed by a family owned and operated NZ company. Our trusted local teams offer great customer service and expertise to create the best solution for your outdoor area.

With 10 years of experience installing over 1000 Oztech retractable roofs across New Zealand, our retail teams have created stunning and practical outdoor spaces in a diverse range of homes, buildings and landscapes.

Manufactured in Australia, we use only the best quality materials, components and abide to strict quality control measures. With a 5 year system warranty and 10 fabric warranty, you can relax and trust the system is built to last with minimal maintenance needed. Our friendly and knowledgeable retail teams are ready to help with any questions or support.
