

Anya Petrovic

is the founder of Tesla Metamorphosis®, an internationally recognised healer, teacher and author.

In the year 2009 Anya received the message: “Tesla Healing. You need to reconstruct Tesla Healing.”. She was puzzled by this message as at that time she did not understand what possible connection the scientist, Nikola Tesla, could have with healing work. Pieces started falling into place, one by one, giving her guidance that the time has come for humanity on Earth to shift into the new level of consciousness. This can be accomplished by using Tesla frequencies of energy which can bring the human body to the perfect light balance.

This story started for Anya like a fairy tale. In 2010 this fairy tale was scientifically confirmed: PIP camera images unequivocally prove **the presence of Tesla Waves during Tesla Metamorphosis® session**. Moreover, scientists state that this **is the only healing modality using Tesla Waves**.

Anya has devoted her life to make this healing work available to as many people as possible. She travels the world and teaches this fascinating new modality which might bring us the transformation into multi-dimensional light beings.

SEMINARS DESCRIPTION

Tesla Metamorphosis® I

Discover the healer within! You will access Tesla Waves that can bring the perfect balance of light, characteristic for a healthy body, mind and emotion. You will also learn how to radiate Love, which is very important for the process of healing, and can also be a powerful survival tool in your everyday life. Seminar includes healing others, self-healing and distant healing.

You will be certified to work professionally as a Tesla Metamorphosis® I Practitioner.

Tesla Metamorphosis® II

Transcend space and time! You will discover your abilities that you might not be aware of at present and communicate with your clients through meanings, emotions and in images, transcending communication with words. Tesla Soul Communication will also help you to know yourself better and evolve.

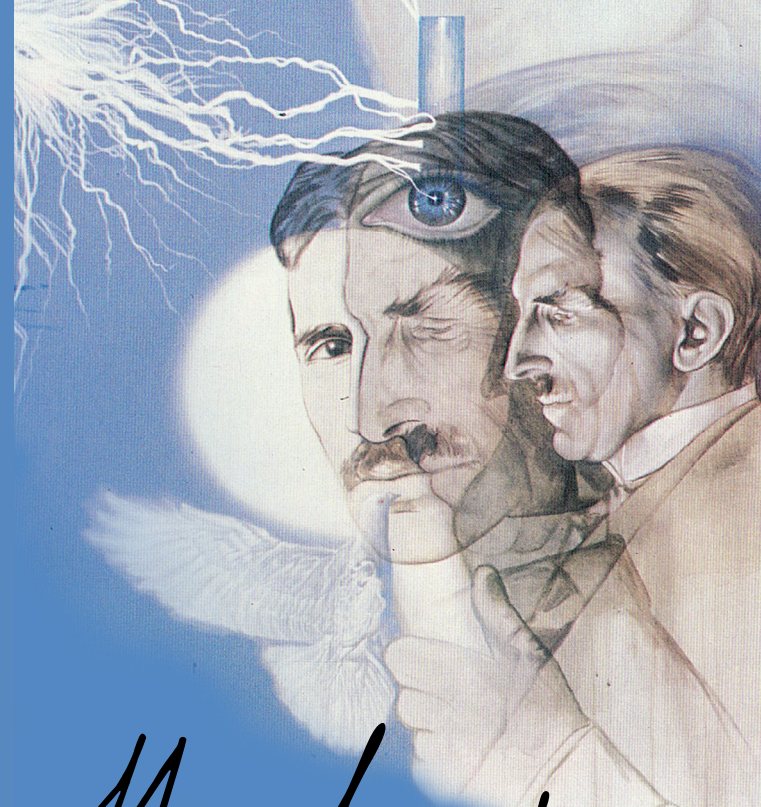

You will be certified to work professionally as a Tesla Metamorphosis® II Practitioner.

Tesla Metamorphosis® III

Learn how to perform Tesla Light Body Metamorphosis! This process enhances human potential arts and talents and prepares us for the big shift in the evolution of consciousness.

After the successful completion of this seminar you will be certified to work professionally as a Tesla Metamorphosis® III Practitioner

TESLA METAMORPHOSIS®

*Heal
and
Evolve*

TESLA METAMORPHOSIS® IS MORE THEN A HEALING! Consciousness Evolution and Evolution on all Levels

Tesla Metamorphosis® attracts great interest among scientists because of the fast and often amazing healing and because of some completely new phenomena associated with this work. That is why Anya Petrovic, the founder of Tesla Metamorphosis®, was invited to present at The International Tesla Science Conference in Philadelphia.

Clients report **healings from afflictions which are considered incurable** in orthodox medicine, such as aids, cancer, chronic fatigue syndrome, lupus, spine injuries, even healings from some birth deformities. Tesla Waves **elevate human consciousness**, and this is even more important than the healing!

Nikola Tesla called them “non-hertzian” and explained that they get stronger with distance, and that they are not in the domain of the physics we know. In Tesla Metamorphosis® you will access these transformational waves directly from the Field, no machines are involved.

COMPLETELY NEW PHENOMENA

On the Polycontrast Interference Photography (PIP) images Tesla Waves are presented in purple colour. According to scientists, PIP images unequivocally prove that the **energy frequency used in Tesla Metamorphosis® is equal to the frequencies of Tesla Waves, unique for this modality**. In auras of all Tesla Metamorphosis® students there was the same purple colour, and this is not a common colour for the human aura. Some students took PIP camera photos one year later, and the purple colour was still in their auras, even more intense.

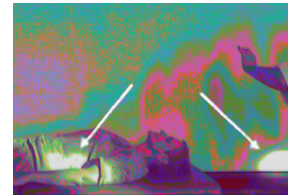

What is the meaning of the purple colour?

Yogis have a special meditation with the purpose of elevating their consciousness level. Meditation starts from the Root Chakra, which is red, up through the seven main chakras in the human body, finishing with the Crown Chakra which is purple. Not all yogis would manage to reach the level of the Crown Chakra.

With all healing modalities green is the predominant colour on PIP camera images. This is the colour of the Heart Chakra. Anya believes that it is because Love is of a great importance for the healing process. That is why in Tesla Metamorphosis® I seminar she teaches students how to radiate Love.

In Tesla Metamorphosis®, apart from the green colour, there is the purple colour, which is the colour of the Crown Chakra. The phenomenon of the purple colour in auras of all students who attended Tesla Metamorphosis® seminars might indicate that the frequencies of Tesla Waves can enhance the frequency level of our consciousness to the frequency of our Crown Chakra. Anya believes that this explains the fact that all students are able to, in the Tesla Metamorphosis® II seminar, achieve communication with their clients on the level of the conscious, subconscious and integrative mind, without any initiation process or symbols and ritual performed on them.

*"The day science begins to study
non-physical phenomena, it
will make more progress in one decade,
than in all previous centuries
of its existence."*
Nikola Tesla

Another new phenomenon is the appearance of some white spherical lights on PIP camera images which were made during Tesla Metamorphosis® sessions. As the photos were made in sequence, it was visible that those lights were moving around.

Even more intriguing are colours on the wall and the balls of light, **visible to the naked eye**, which appeared in halls where the seminars were held (below).

When we elevate our consciousness level there is more available for us out there. The time has come when we need to enable ourselves to become multidimensional Light Beings.
