

## What's not to love about New Zealand's own designed & manufactured Louvre brand?

NZ Louvres provide you with the freedom to expand your living and entertaining area while offering protection from all the weather elements. Seek cool refuge from the sun in summer, or embrace the winter from the cosy retreat of your outdoor area.

We are committed to ensuring we never compromise on quality. We ensure the best componentry, innovation in design and do our best for the environment we love. We are dedicated to providing you with an exceptional lifestyle experience.

I wanted to tell you how hugely impressed we are... They were exceptional, the best we have seen and we have recently built this place so have seen a lot of tradies here.

We are so glad we chose you guys out of quite frankly lots of competition! Excellence from start to finish!

**NZ LOUVRES™**  
Love your Lifestyle

## Innovative, premium quality outdoor solutions

Proudly New Zealand owned and operated, NZ Louvres are dedicated to providing you with the very best. From the start we have been committed to ensuring that we never compromise on quality. Our head office is based in Cambridge, Waikato, so the decision to manufacture right here in New Zealand, where we could ensure the best componentry, innovation in design and do our bit for the environment we love, was an easy one.

While our lifestyle solutions are the height of design sophistication, we make sure that they keep you safe too. Protecting you and your loved ones from harmful UV rays while allowing you to enjoy the good kiwi lifestyle we know and love. Innovative and environmentally sustainable outdoor solutions of the highest quality, made right here in New Zealand for you, so you can truly love your lifestyle.

## Enhance your outdoor living spaces

Our louvres are crafted using the best materials, selected for their excellence in design and durability. The NZ Louvres system is a universal product allowing for creativity, whether you're looking for an open roof louvre, panel louvre or to apply our state of the art louvre system on any other surface.

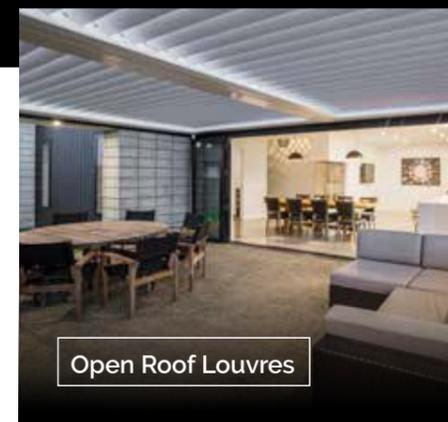

With the option of further enhancing your outdoor space with ZipTrak blinds and LED lighting – at NZ Louvres we have it all covered. Our solutions are customised specifically for you, so if you have a vision of what you would like – we'd love to hear it!

## Make the sustainable choice for Aotearoa

We practice and enforce the highest of industry standards and take pride in our responsibility to the environment by sourcing local raw materials and components for all our builds. Ensuring we are as sustainable as possible, NZ Louvres are proud to be a member of the Sustainable Business Network.

Our main aluminium supplier is firmly committed to a long term environmental and sustainable future. They are the only aluminium extrusion business in New Zealand to operate a remelt casthouse allowing them to recycle scrap aluminium and provide better control of the composition of their products.

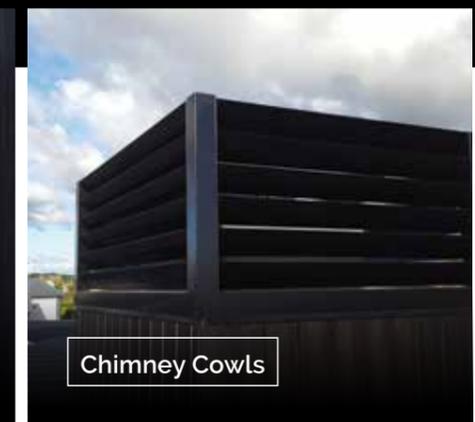

Demonstrating sound environmental performance has acquired them the Enviro-Mark Diamond level certification and to receive AS/NZS ISO 14001 international certification for their environmental management systems.

## Manufactured to the highest standard

NZ Louvres proudly support and buy local by manufacturing our products here in New Zealand. Manufacturing locally allows us the opportunity to source the very best suppliers for your build, whilst delivering a finished product that is environmentally responsible.

## Bringing you the latest in automation

Maximise your outdoor living, all year round with NZ Louvres state of the art automation. Remote controls and rain sensors come as standard so you can enjoy automation without having to pay a premium for it. However, if it's a manual system you are after, we can take care of that too.
