

**CAPTURING THE LOVE.
THE FUN. THE ADVENTURE.
THE SPIRIT.**

**PET PHOTOGRAPHY
WITH HEART**

BEHIND THE LENS

As long as I can remember, there's two things I've been passionate about during my life - a love of animals, and photography, so being able to combine my passion's is nothing short of a dream.

My husband and I care for a pack of three senior dogs, one senior cat and our newest addition a kitten, all our seniors have many illnesses and depend on us so much to care for them in their senior years, but we wouldn't have it any other way for the unconditional love they give.

When you visit Wort & Flea pet photography, I will capture your fur baby being themselves in beautiful scenic, bold and colourful, personality filled portraits.

With such a love of animals I easily connect with any new fur baby I meet and can easily help put them at ease, their safety and enjoyment my number one priority throughout the experience.

Based in rural Pokeno with access to acres of farmland and the river, there is no shortage of opportunities to capture and preserve beautiful memories of your fur baby.

So if you would like me to capture the love and preserve those special memories, then please contact me to arrange a session here at the Farm, or at your favourite location.

WHY IS CAPTURING THE LOVE SO IMPORTANT?

Our fur babies are our family and love us unconditionally.

Every fur baby has their own unique personality, living life with a childlike wonder and having fun along the way, exploring nature's sights and sounds with an adventurous spirit like only they can.

Every fur baby has their own 'tail' to tell, an unconditional connection and love for their person in the world.

Let me capture that moment in time, their spirit, their beauty.

So, you can remember, enjoy, and share their story for years to come, cherishing them for a lifetime.

Thank you

again, for trusting in me to create this artwork for you. If you have any questions, please don't hesitate to get in touch.
