- Relief for eczema, psoriasis and asthma sufferers

★★★★★

Since installing our Complete Home Filtration system our shower water is much softer, our kitchen jug no longer stains and our drinking water is much nicer to drink. We could not be happier.
Kevin Hadwen

★★★★★

We have had our system since Feb 2020, noticed difference from day one. Water nicer to drink, better for washing clothes and much better to wash hair. Thanks to this company for their expert service and product.
Lynne Baker

★★★★★

We have had a Complete Home Filtration system for about 2 years and it has improved our water quality no end. It saves the build up of calcification and also makes the water taste better. One of our better decisions.
Andy Reavell

★★★★★

Its the best thing since sliced bread! We can drink from any tap inside or out with pure tasting water. Cleaning the shower is so effortless also, having none of the hard water staining. My hair and skin feel so much nicer.
Leanne Donaldson

★★★★★

Really happy with the service and the product. We have had filters for 12mths now and just changed the filters 2mths ago as recommended for a family of 5. My husband changed them was simple
Shannon Ferguson

★★★★★

Best thing ever we decided to do. Since we had it installed we can actually enjoy water from the tap and our shower screens stay clean of calcium build up. Can not recommend it enough.
