SOLAR HOT WATER

Solahart Solar Hot Water is the smart way to reduce your hot water energy usage and your energy bills. Designed and built for the harshest Australian conditions with over 1 million systems installed worldwide. Available as a roof-mounted or split-system.

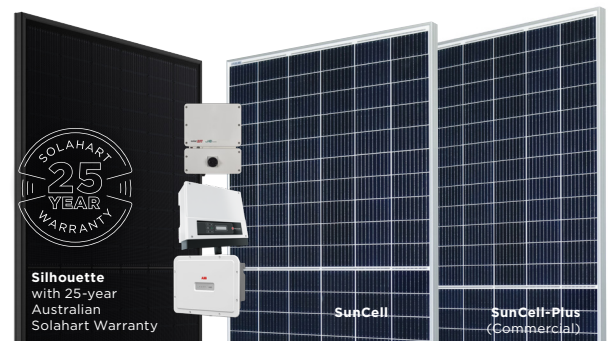

- ✔ Over 1 million systems installed worldwide
- ✔ Rigorously tested for Australian conditions
- ✔ Roof-mounted or split-system available
- ✔ Generous government incentives available[†]

SOLAR POWER

With over 600,000 solar panels installed on Australian rooftops, Solahart Solar Power is the smart choice for quality, reliability and durability. We use SolarEdge, ABB and GoodWe world-leading inverters and Solahart Silhouette, Sun Cell, and SunCell-Plus panels.

- ✔ Significantly reduce your energy bills
- ✔ High-efficiency solar panels
- ✔ Trusted Solahart Warranties
- ✔ Add energy storage for extra savings

GET SOLAHART**

SOLAR HOT WATER

Significantly reduce your hot water energy use.

Designed and built for the harshest Australian conditions

Roof-mounted and split-system available

Over 1 million systems installed worldwide

SOLAR POWER

The smart way to power your home and reduce your energy bills.

World-class inverters and panels including Solahart Silhouette

High solar yield and high performance

Over 500,000 solar panels installed in Australia

BATTERY STORAGE

Store excess electricity produced during the day for use later on.

Reduce the amount of solar power sent to the grid

Lower your energy bills even more

Choose from Tesla Powerwall, LG Chem or BYD batteries

SOLAR-SMART HOT WATER

Solahart PowerStore® Australia's first solar-smart electric water heater.

Capture and use excess solar energy to heat your water

Over 13kWh of storage capacity, it's a bit like a battery but more affordable

Minimise the amount of power you draw from the grid
