

WE HAVE ALWAYS BEEN BRIGHT

Powering with super bright projection technology outshines the competition; that means no more bother choosing a different room or screen angle during daytime or in bright environments. Horizon Series projectors are the brightest in its class by nearly 30%, putting out a stellar 2200 ANSI Lumens. Horizon Series projectors will consistently deliver high colors and super sharp images, even in bright environments.

INTELLIGENT SCREEN ADAPTION TECHNOLOGY

No more struggling to get your entertainment set up in a new space. Horizon Series is ready to go with super-fast startup, automatic focus and keystone correction, and new AI object detection. Get ready to use your biggest screen the same way you would any other device: instantly and intuitively.

Intelligent
Screen
Alignment

Fully turn on in seconds thanks to the cutting-edge intelligent screen detection will automatically match your screen size with the size of the projected image.

Auto
Keystone
Correction

XGIMI's industry-leading automatic keystone correction technology aligns the picture vertically and horizontally to custom fit your walls or screen to a perfect aspect ratio. With the manual keystone you be able to further customize your screen for up to 45 degrees lateral projection.

Intelligent
Obstacle
Avoidance

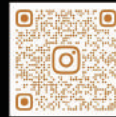

Built-in AI finds objects in your viewing area and scales the image instantly, keeping your gaming or cinema experience uninterrupted.

Auto Focus

Cutting-edge autofocus keeps your image vivid and clear, all the way to the max screen size of 300".

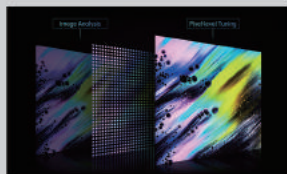

BRILLIANTLY COLORFUL, SHOCKINGLY SMART

Combining the most powerful imaging features from XGIMI and the Horizon Series projectors are even more adaptable with a built-in AI optical sensor. With low latency, stunning contrast, and integrated optics, our projectors make quality and consistency faster and more automatic than ever.

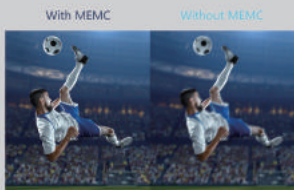

X-VUE 2.0

XGIMI's unique X-VUE Image engine system significantly increases the clarity and fidelity of dynamic pictures. The image quality is made clearer and smoother, with purer and more realistic colors it brings a truly immersive user experience.

MEMC

The Horizon Series delivers a super low latency with the least amount of image blur using MEMC frame interpolation technology. XGIMI's proprietary 60Hz motion compensation technology uses a specialized algorithm to prevent image flutter and tailing when projecting dynamic images. Sports, movies, and all of your favorite games will stay sharp and clear, even in the heat of action.

HDR 10

Horizon Series adopts HDR 10 technology to bring you an impressive contrast ratio in bright or dark environments. Enjoy your content in full detail, any time of day. Compatible with Hybrid Log Gamma broadcast standard, Horizon Series provides full HDR images across broadcasters, so you never miss a moment of the big match.

The integrated optical sensor that works with XGIMI's AI to detect and respond to objects in its way, as well as changes in ambient light. AI Brightness Adjustment ensures that as ambient brightness levels change, your picture remains bright and colorful. Say goodbye to manual adjustments and enjoy a seamless cinema experience in any room, any time of the day.

With such a vast and rich range of colors, every detail on screen is restored and presented accurately, greatly enhancing your viewing experience.

HEAR EVERY NOTE

Horizon Series projectors are built on professional sound design by trusted speaker producers Harman Kardon. Enjoy theater quality sound from two 8W, 45mm full-range speakers developed specifically for Horizon Series. Harman Kardon sound provides unparalleled immersion

and balance, with low distortion and high dynamic response. Combined with DTS Studio Sound Technology, our projectors will deliver a virtualized surround sound audio experience with dialog and bass enhancement. You can even use Horizon or Horizon Pro as a high-fidelity Bluetooth speaker by simply connecting it to any device.

YOUR HOME, YOUR APPS

androidtv Horizon Series works hand in hand with your favorite Google apps to keep you connected and give you ultimate control of your environment.

Google Play With Google Play Store and Android TV integration, use Horizon or Horizon Pro to access 5,000+ native apps including HBO, Showtime and YouTube.

Ok Google Press the Google Assistant button on the remote to instantly access the voice assistant. Control your connected smart devices, search for content, or open your favorite apps.

Chromecast built-in Chromecast integration lets you cast your content, apps, and games directly to the projector from your favorite devices.

Game Mode HORIZON Pro is a god sent to gamers. With latency rates as low as 35ms paired with a stellar resolution, you'll easily immerse in the high-action, fast-paced nature of any game you play.

MORE CONNECTIONS THAN EVER

Horizon Series projector keeps you plugged in anywhere with two HDMI and USB ports, LAN, and headphone connections. Cut the cord and link up even more peripherals with dual band 2.4/5G Wi-Fi and Bluetooth.

EASY ON THE EYES

Designed with the customer's safety in mind, which is why it is TÜV Rheinland certified for low blue light. Horizon Series delivers a comfortable and safe viewing experience for you and your family with reduced blue light, diffused imaging, and color controls, even when using the projector for long periods.

LIVE MORE, WASTE LESS

Horizon strengthens XGIMI's commitment to both our users and the environment. More durable devices provide more use and help reduce waste. Horizon Series uses an ultra-efficient LED light source, giving perfectly crisp, clear images for its entire lifespan -- up to 17 years, even with 4 hours of daily use, and only consumes 33% power of a TV.
