# BORA Pure

BORA Pure induction cooktop with integrated cooktop extractor

## PURA

BORA Pure induction cooktop with integrated cooktop extractor - Exhaust air

**\$ 5549.00** incl. GST.

## PURU

BORA Pure induction cooktop with integrated cooktop extractor - Recirculation

**\$ 5549.00** incl. GST.

## Accessories\* (optional)

### BKR760

BORA cooktop frame for width 760mm

**\$ 379.00** incl. GST.

### USL515

BORA side frame for cooktop depth 515mm

**\$ 269.00** incl. GST.

### USL515AB

BORA side frame for cooktop depth 515mm All Black

**\$ 409.00** incl. GST.

## Accessories\* (for replacement requirements)

### PUED

BORA Pure air inlet nozzle black, PANTONE Black 4

**\$ 179.00** incl. GST.

### PUAKF

BORA Pure activated carbon filter

**\$ 189.00** incl. GST.

### PUEF

BORA Pure stainless steel grease filter

**\$ 229.00** incl. GST.

# BORA X Pure

BORA X Pure surface induction cooktop with integrated cooktop extractor

## PUXA

BORA X Pure surface induction cooktop with integrated cooktop extractor - Exhaust air

**\$ 7449.00** incl. GST.

## PUXU

BORA X Pure surface induction cooktop with integrated cooktop extractor - Recirculation

**\$ 7449.00** incl. GST.

## Accessories (optional)

### BKR830

BORA cooktop frame for width 830mm

**\$ 399.00** incl. GST.

### USL515

BORA side frame for cooktop depth 515mm

**\$ 269.00** incl. GST.

### USL515AB

BORA side frame for cooktop depth 515mm All Black

**\$ 409.00** incl. GST.

## Accessories (for replacement requirements)

### PUXED

BORA X Pure air inlet nozzle

**\$ 229.00** incl. GST.

### PUAKF

BORA Pure activated carbon filter

**\$ 189.00** incl. GST.

### PUEF

BORA Pure stainless steel grease filter

**\$ 229.00** incl. GST.

# We bring together what belongs together.

The BORA compact systems BORA Pure and BORA X Pure:  
Cooktop and extractor in a single product, suitable for any kitchen.

What's special about it: A functional unit was made from a high-performance cooktop and effective cooktop extractor. This compact combination of cooktop and cooktop extractor is preset and is available in an exhaust air or recirculation model. Planning and installation are very quick and easy.

BORA compact systems can be installed in minutes and are ready to use immediately. Thanks to the central operating panel, the full depth of the cooktop can be used. This means that BORA compact systems provide more room for pots and pans than other compact systems.

Another clear advantage of the recirculation models of the compact systems is the storage space in the floor unit. No space is lost as drawers do not need to be shortened, plinth heights are variable and floating worktops are just as possible as a barrier-free kitchen design. Installing the recirculation version of the BORA compact systems can give you up to 30 percent more storage space in the floor unit than if recirculated air is conducted into the plinth area, making this solution particularly interesting for smaller kitchens.

## The BORA compact systems in a nutshell:

- A combined cooktop and extractor system
- Thanks to the central operating panel and optimum arrangement of a round cooktop extractor in the middle, there is always plenty of room for cooking
- At under 200 mm, the low installation height and integrated recirculation unit guarantee maximum storage space for pots and other kitchen utensils in the cupboard below. Even in 60-cm-deep kitchen units, no drawers need to be shortened in recirculation mode. A change from the norm.
- Easy cleaning thanks to the round opening and easy-to-remove filter
- Installation plans prepared faster and more easily for kitchen planners
- Quick and easy to plan and install. Retrofitting of a recirculation system into an exhaust air system or vice versa possible at any time
- Kitchen planners only need to place one order
- Ideal for kitchen buyers who are looking for a simple, compact system at the right price

## BORA TECHNICAL SUPPORT

In our technical support department all employees have extensive experience in customer service and support. They are active members of our office and field staff. Our colleagues in the office are a highly competent point of contact when end customers need help with our appliances, for whatever reason.

Often, error analysis over the phone is enough to solve the problem promptly without the need to send someone out. The service technicians in the field, on the other hand, process and perform service tasks face to face, representing BORA in person.

In the event of any queries, please contact our technical support team: [support@boraapac.com.au](mailto:support@boraapac.com.au), T +61 2 9719 2350

# Components of the BORA Classic 2.0 sets

The BORA Classic 2.0 sets – cooktop extractor with two cooktops, fan, silencer and duct parts down to the plinth

YOUR ADVANTAGES: one order number, one price.

Further individual planning starting with the plinth fan:

**recirculation:** with ULBF or ULB3X

**exhaust air:** with BORA Ecotube

(see page 14)
