

Australia's Favourite Turf Varieties

About Us

Jimboomba Turf is focused on providing, motivating and inspiring people to get the best quality turf solutions for their everyday needs. We have been in the turf game since 1973 and we are as young as we were back then.

Our unique location in the Scenic Rim positions us as the best Brisbane has on offer whilst also being the best option for Gold Coast and Sunshine Coast. We are one of Australia's pioneers in the turf industry; we even introduced turf to Bunnings Stores.

Synonymous with the Sir Walter DNA Certified brand, there is no comparable turf farm in South East Queensland with as many years experience as us. We have some of the most experienced and knowledgeable people in the industry not only in our own team but also through being members of the national body Lawn Solutions Australia.

Our experienced team can help you choose the right turf for your home. With incredible turf varieties like Sir Grange Zoysia, TifTuf Bermuda, Sir Walter DNA Certified and Nullarbor Couch we have the perfect turf variety for every situation. We don't just supply turf for families alone, we pride ourselves on developing innovative products to satisfy the requirements of our residential, commercial and sporting clients.

The year 2021 marks the 40th anniversary the Davidson family purchased the business from the original owners and we are now up to the 3rd generation involved in the operation and management of the family run business with the fourth expected to make an appearance in 2022.

Our promise - from our family to yours - that we are committed to providing the best product on the market that is fit for purpose for your home. We dare you to compare us on service and quality.

Direct Delivery

With industry leading logistics, getting your turf couldn't be easier. Jimboomba Turf's fleet of company owned vehicles allow for a prompt delivery service right to where you need the turf.

The advantages include:

- Smart Track technology - We always know where your turf delivery is.
- All terrain forklifts to place the turf where you need it - this saves you time.
- Safe delivery to your home - no large, heavy, difficult load to tow home.

Simply place your order with Jimboomba Turf, a minimum of 2 days prior to your preferred delivery date to secure your turf and take advantage of direct delivery.
