

A black and white photograph of an elevator shaft. The shaft is a complex metal structure with various components like pulleys, cables, and a motor. In the center of the image, there is a large, white, stylized letter 'H' that is superimposed over the background. The 'H' is composed of three horizontal bars and two vertical bars. The background shows the intricate mechanical details of the elevator system, including a large motor at the top and various support beams and cables.

## Service & Maintenance

Our trusted service teams are fully licensed and equipped to carry out the work you need, from updating components and 24/7 support to routine maintenance programs.

Our stunning elevators are supported by a range of services from the Halifax Elevators team. Whether the lift is installed in your home or on a commercial property, we want our customers to enjoy the luxury and convenience of our elevators at all times.

Your safety and satisfaction are our top priority. To keep your Halifax lift working smoothly, we'll be there with the servicing, maintenance and support you need.

### Support Programs

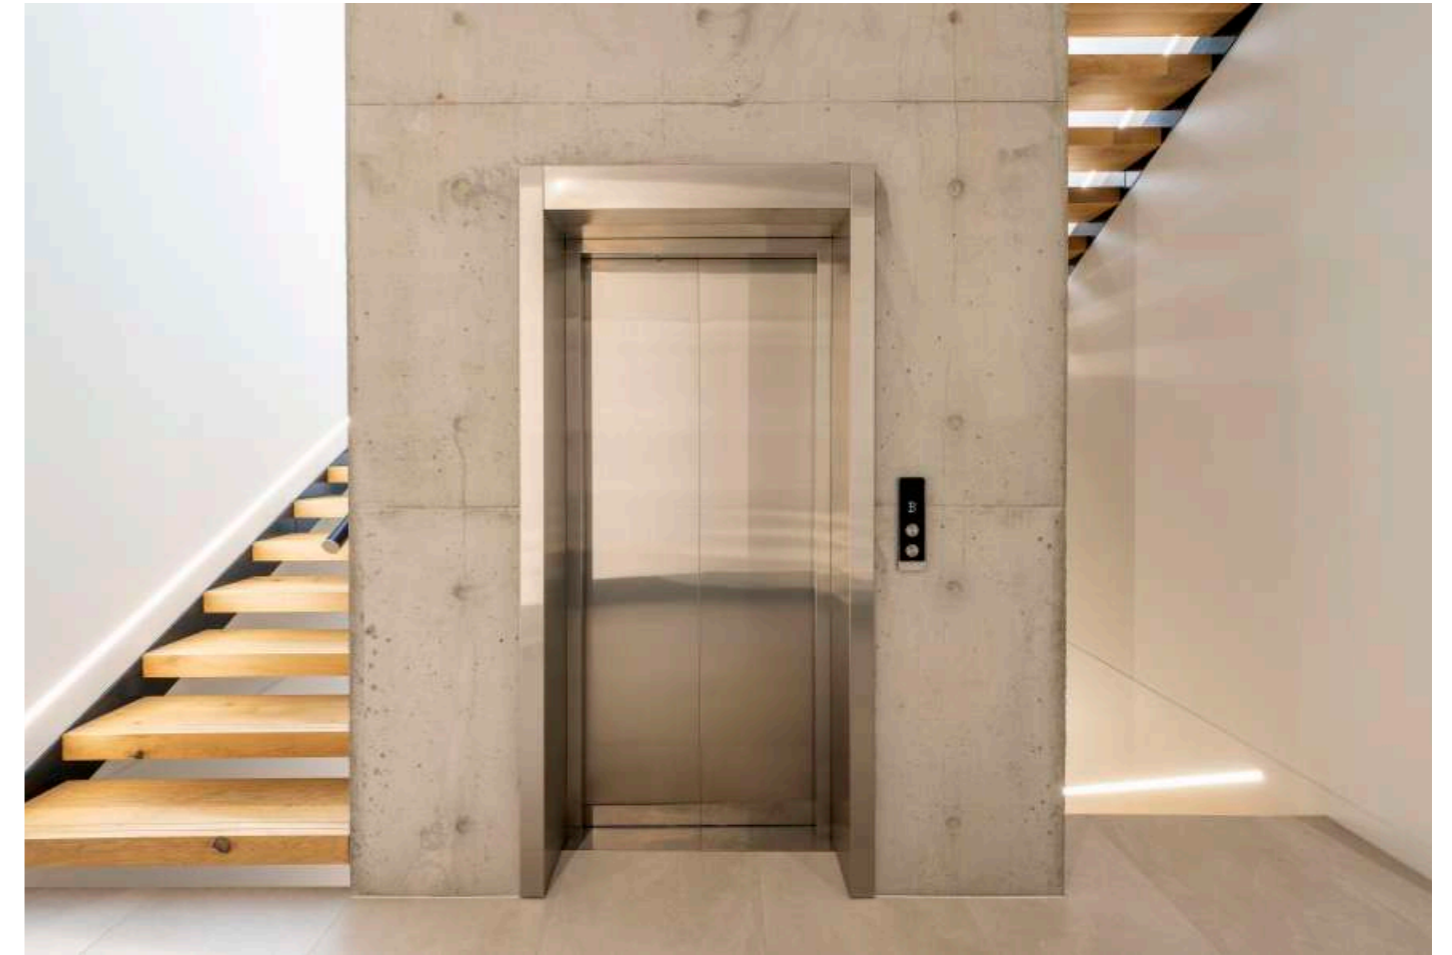

To ensure our elevators are working perfectly, we offer ongoing customer support. With our program, you'll always have access to servicing and maintenance from the Halifax team.

### Modernisation

Like anything else in your building, elevators are worn down by repeated use. To refresh your lift and extend its life, we offer modernisation, update and replacement services.

### Lift Maintenance

Elevator maintenance is a key part of keeping your lift functioning at full capacity. Halifax Elevators' service teams handle all routine maintenance, servicing and repair work.

### Emergency Response Service

Halifax Elevators is available when you need us. While our elevators are supplied with built-in safety features, our team is always available for emergency response situations.

If your Halifax lift breaks down or stops working, contact us and we will send our nearest technicians to rescue any passengers on board. Our on-call lift service teams have experience with a wide range of lift types and technologies, so we can be there with the help you need, as soon as you need it. Your safety is our top priority, so please don't hesitate to get in touch with us if you are ever experiencing a fault with your Halifax Elevators lift.

### Repairs

We perform any necessary repairs promptly to prevent issues from escalating and causing significant downtime and repair expenses.

### Scheduled Maintenance

While modern elevator systems feature robust, reliable components, all lifts require maintenance from time to time. To ensure our customers see the full benefits of their lift, Halifax Elevators provides the servicing and repairs our customers need.

Our elevator maintenance services include:

- Regularly scheduled maintenance
- Preventative maintenance
- Unexpected repairs
- Tailored maintenance plans
- 24/7 support

Halifax Elevators ensures you get the most from our elevator solutions by designing a maintenance plan just for you. Your maintenance plan is tailored to meet the requirements of your elevator system, building traffic and to keep up with the passengers and goods you're transporting.

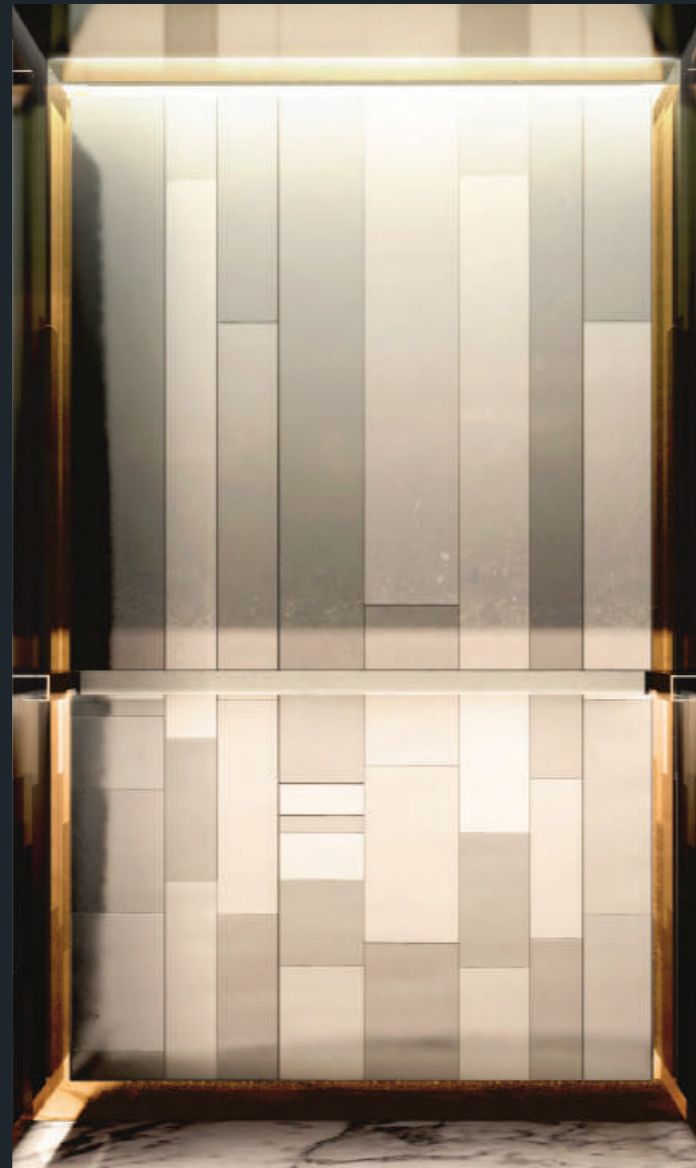

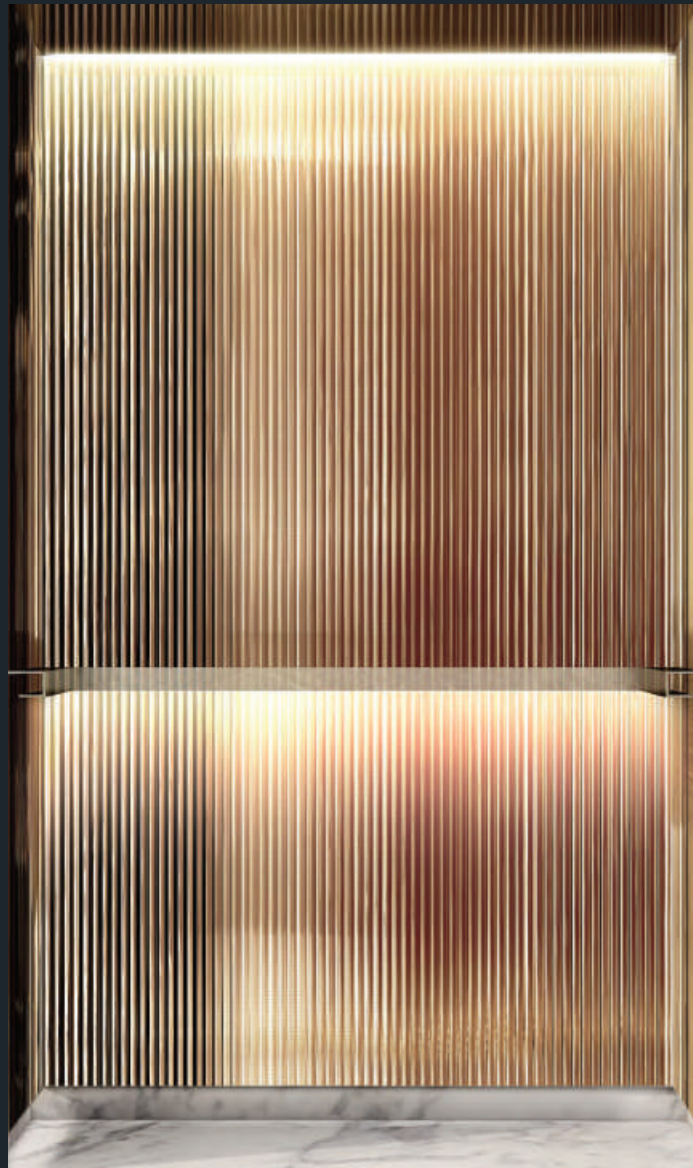

Our licensed service teams are also available 24/7 to attend lift breakdowns, stoppages and other malfunctions. Whether you need us during the day or in the middle of the night, Halifax Elevators' 24/7 response team is always available to help. Our technicians respond to calls around the clock and offer assistance that includes:

- Repair, servicing or replacement of equipment
- Inspecting lift systems for malfunctions
- Rescuing trapped passengers
- Finding faults and returning lifts to service

# Customisation

Every aspect of your elevator can be customised to match the design of your business interior.

Examples shown from the architect-designed interior range

# Case Study Stanhope

Stanhope comprises eight luxury residences, boasting interiors by the esteemed Swedish designer, Lotta Agaton, recognized as the European Designer of the Year in 2019 and lauded in The New York Times.

When Kincrest Development sought to incorporate an elevator within this prestigious building, they turned to Halifax with full confidence, knowing their expertise would ensure the elevator's design seamlessly aligns with the building's standard. The Commercial MRL 1.0 m/s elevator is adorned with custom interior finishes, notably a mirror polish, further epitomising the elegance and sophistication synonymous with Stanhope.
