# HIGHLIFE® COLLECTION

For those who expect the most out of life, the Highlife Collection is everything a spa pool can be. Exceptionally designed and engineered. Generously appointed. It's our very best.

# LIMELIGHT<sup>®</sup> COLLECTION

Featuring fresh clean lines, colourful mood lighting and sleek corner accents, Limelight Collection spas stand out from the crowd. Best-in-class features and a legendary Hot Spring® experience make these spas a cut above the rest.

## HOT SPOT® COLLECTION

Eye-catching design, unique massage and trusted quality from the industry leader. Hot Spot Collection spas deliver confidence that your investment will help you maximise every day, for years to come.

# OUR STORY

All great business stories start from a garage and Dale Paretovich, founder of Hot Spring® Spas New Zealand and Australia, is no exception.

The year was 1980 and Dale was in pursuit of the latest technology in spa innovation. When Dale couldn't find what he needed, he decided to create his own spa pools, from his Hillcrest home garage. An engineer by trade, Dale manufactured the first portable and fully insulated spa in Australia and New Zealand.

Since Hot Spring Spas humble beginnings, the company has undertaken a joint venture with Watkins Wellness<sup>™</sup> the world's

Watkins Wellness<sup>™</sup> the world's largest manufacturer of spa pools, to continue to deliver quality premium products to Australasia and Asia. Spa pools and componentry are imported directly from our factories in California, Mexico and Pennsylvania. Our strong network of authorised dealers offer local and personalised services by trained, experienced professionals. Today, Hot Spring Spas New Zealand and Australia is the largest importer of Hot Spring Spas and Endless Pools<sup>®</sup> Fitness Systems in the world.

One thing has never changed over the four decades of serving Kiwis and Aussies. We still strive to offer The Absolute Best Spa Pool Ownership Experience<sup>™</sup> by delivering quality spa pools along with exceptional customer service. Many customers return 15 to 20 years later to trade in their old working Hot Spring Spa for the latest model. Hot Spring Spas stand the test of time.
