DESIGN

Obligation free design consult. We collaborate with you to meet your vision and needs both aesthetically and environmentally.

INSTALL

We install all plants, planters and components directly into their spaces, ready for you to sit back and enjoy.

MAINTAIN

Offering 3 to 24 month contract periods. This service includes the maintenance of all plants including; dusting, watering, fertilising, pest management and a replacement guarantee should your plant not be in optimum condition.

ENJOY

Do you feel calm and peaceful walking through a forest or park? This is known as Biophilia. Referred to as 'the love of life'. We strive to bring the love of life indoors with beautiful plants to boost well being, mood, productivity and of course oxygenate and cleanse the air. Studies have proven our furniture, carpets, heating and cooling units can emit toxins which we inhale. A large variety of plants absorb these toxins purifying the air for you.
