# MEET THE DEVELOPER

Carol Frieling

I am thrilled to share my latest venture, which combines over three decades of experience in the beauty industry with my passion for delivering exceptional beauty solutions.

I have developed a sugar-paste hair removal product that is made from natural ingredients. This innovative product is set to revolutionise the hair removal industry, thanks to its gentle yet effective formula that offers an eco-friendly alternative to conventional methods.

Through my years of experience and deep understanding of the beauty industry, I identified a demand for a high-quality hair removal option that is not only safe but also environmentally friendly. The sugar paste I have created is made from natural ingredients and is entirely free from harmful chemicals and synthetic additives, making it suitable for all skin types. Its distinctive formula is not only effective it also offers minimal discomfort during hair removal, leaving the skin feeling silky, nourished, and revitalised.

My goal is to offer beauty professionals and individuals alike a game-changing product with only the finest natural ingredients, carefully sourced and tested, which is why I'm confident our B sugared sugar paste will become a go to choice for beauty professionals and individuals seeking a superior hair removal experience.
