

Profile & Capabilities

Our Name

Absolute Office Comforts (AOC) was founded with a desire for innovation in office design and service and is based at 26 Hutton Street in Osborne Park, Western Australia. It was an easy decision to combine Office Comforts (23 years) and Absolute Office Interiors (25 years) as one company in July 2019 to better serve the local business communities. Both firms had worked together for a number of years.

Our Company

Absolute Office Comforts, specialises in project management, office furniture, kitchens, and office fit outs. We manufacture kitchens, reception areas, storage, custom office furniture, and workstation solutions locally. We have a love for helping clients of all sizes who appreciate a comfortable, exciting, and effective workplace from a single provider, including residential, small & corporate businesses, builders, architects, and designers.

Our Core Values

We think that change is the only constant. We base how we communicate with our clients on our ability to adjust to and welcome change. We constantly look into and adapt new product categories in order to offer solutions for building fresh, attractive, and effective workplaces. By using open communication and a set budget, we collaborate to achieve shared goals and get the greatest results.

Our Values

Absolute Office Comforts aspires to be competitive and economical in this fiercely competitive environment. We offer practical solutions that don't sacrifice quality in favour of greater workspace utilisation, increased production efficiency, or waste reduction.

Diversity Equity & Inclusion

At AOC we support, include and encourage everyone, whether related to accessibility, gender, ethnicity, age or sexual orientation. This encourages our leaders & colleagues to bring their whole selves to work, while visibly identifying their allyship to others.

Social Responsibility and Sustainability

We are conscious of our social and environmental responsibilities and factor them into our corporate operations, performance, and strategies.

Yours sincerely

Stefan Goldfinch
