

Helping you do what's important to you

helping you
do what's
important
to YOU

What is at the heart of TADWA? We're about helping older people, people with disability and their carers do what is important to them.

Our occupational therapists and technicians work with hundreds of people every year, listening to what is important and helping to improve their lives.

TADWA is a 'team of teams', operating across five different disciplines and generating a range of innovative solutions to the challenges faced by older people and people with disability.

Call us today to see how we can help you to do what's important to you. **1300 663 243**

Advice, Information and Support?

Talk to TADWA.

A safe home is vital for independent living.

You can arrange a TADWA Therapist to visit and expertly assess your home environment. They will listen to what you want to accomplish, break down the steps to help you accomplish any tasks you find difficult, and recommend equipment or modifications to help you reach your goals.

Our Occupational Therapists are experts in understanding your circumstances and discovering what is important to you.

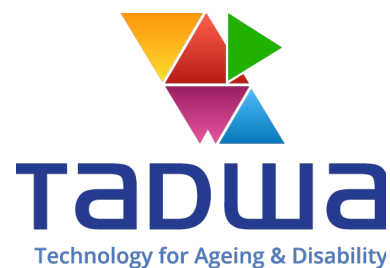

If a modification or item of custom equipment is needed, our Therapists will work closely with TADWA Technicians to make sure that the right solution is found for you. They will then follow up to show you how to make your new equipment or modification work for you.

To book a home assessment call **1300 663 243**

enquiries@tadwa.org.au - www.tadwa.org.au

TADWA therapists provide assessments, recommendations, advice and support in many areas including:

- Home environment assessments
- Daily living and household tasks
- Mobility
- Home modifications
- Work environments
- Customisation of 'off the shelf' products
- Design of custom or specialised equipment
- Rehabilitation

Too young to leave home?

Talk to TADWA.

Imagine if your home could adapt to your changing needs as you age? A home that actually gets easier to move around, is safer, and easier to control.

TADWA can make this dream a reality, enabling you to stay living confidently in the comfort of your own home for many more years.

Modifications can range from simple but effective solutions like perfectly placed grab rails, non-slip tiles and modified steps, to complete bathroom and kitchen renovations.

We can also specify, install and support the latest in home automation and wellness monitoring.

The best part is that when the time to sell eventually comes, a quality bathroom or kitchen renovation may actually increase your home's sale value.

We have 34 years of experience so you know you're in good hands.

To find out more, talk to TADWA. **1300 663 243**
