

SIGTOOLS
TOP CLASS GEARS

TOP CLASS GEARS FOR YOU

We understand the importance of having reliable and durable tools for professionals. When relying on cheaper tools, the risk of frequent replacement costs or, even worse, tool failure during a job can be detrimental and cause significant downtimes.

At Signature Tools, also known as Top Class Gears NZ, our mission is to provide a carefully curated selection of top-notch, high quality tools and products directly to professional users at affordable prices. In addition to offering competitive pricing, we also provide flexible payment options to further support our customers.
